No. 20—STOCK CABINET ASSORTMENT

Quick Detachable Wrenches

Especially designed to meet the demand for an inexpensive assortment of wrenches containing all the most popular sizes of sockets and Q. D. handles.

All steel cabinet, beautifully lithographed in three colors. Size 19⅜ in. high, 16¾ in. wide and 8¾ in. deep. Drawer compartments labeled to show contents.

Per assortment

No. 20 Assortment—Consists of 94 tools as enumerated below, put up in a steel display cabinet, weight per assortment 54 lbs. $67.45

CONTENTS OF No. 20 STOCK CABINET ASSORTMENT

2—No. T10 Extension bars, 10 in. long
2—No. T60 Extension bars, 6 in., with speed grip

Hexagon Sockets—4 each Nos. 18 and 20; 3 each Nos. 16, 21, 23 and 24, 3 each Nos. 14, 25 and 28, 1 each Nos. 19, 26, 30 and 32

Double Hexagon Sockets—4 each Nos. D18 and D20; 3 each Nos. D16, D21, D22 and D24; 2 No. D14, 1 each Nos. D18, D25, D26, D28, D30 and D32.

Square Sockets—3 No. 018.

No. 10 STOCK CABINET ASSORTMENT

"A Real Merchandiser of Socket Wrenches"

With this cabinet the dealer can make up a special set for any car, whether for car-owner or garage mechanic or can furnish the wrench required for any bolt or nut on any car. Any Q. D. set listed in this catalog can be made up from this cabinet. We furnish with this assortment a Q. D. wrench manual.

Cabinet is 28 in. high, 25⅛ in wide and 11¾ in. deep, made of all steel and beautifully lithographed in three colors. Each drawer compartment is labeled in front, telling just what it contains.

Per assortment

No. 10 Assortment—Consists of 234 tools as enumerated below, put up in a steel display cabinet, wt. per assortment 148 lbs. $185 35

No. 10A Assortment—Consists of 113 tools as enumerated below, put up in a steel display cabinet; wt. per assortment 75 lbs. 102 70

CONTENTS OF No. 10 STOCK CABINET ASSORTMENT

Wrench Handles and Parts

5—No. T4 Offset and T handles
3—No. T5 Double end handles

5—Each Nos. 3229 and 3731 spark plug sockets
5—No. 4602A Ford Model A valve grinder attachments

Double Hexagon Sockets

3—Each Nos. D14, D16, D22 and D24
4—Each Nos. D18 and D20
2—Each Nos. D19, D25, D26, D28, D30, D32, D34, D36 and D40
8—No. D21

Heavy Duty Hexagon Sockets

2—Each Nos. 28X, 30X, 31X, 32X and 40X

Extra Deep Hexagon Sockets

1—Each Nos. 216, 218, 220, 222, 224, 228, 230 and 232

Tiny Double Hexagon Sockets

2—Each Nos. 810, 812, 814, 816, 818 and 820

BLACKHAWK "SATIN-BLACK" SOCKET WRENCHES

SATIN BLACK FINISH, QUICK DETACHABLE

All units easy to slip on and off.

Note the solid milled shoulder provides great strength at the point of greatest strain

BRACE HANDLES

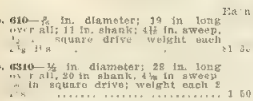
This brace may be used with extension bar universal joint, etc., has one-piece revolving steel grip at center and end.

Each

No. 580—½ in. diameter; 15⅝ in. long over all; 4⅞ in. shank; 4⅝ in. sweep; ½ in. square drive; weight each 1⅛ lbs. $1 85

No. 580-S—⅞ in. diameter; 10½ in. long over all; 2 in shank; 3⅝ in sweep, ⅜ in square drive; weight each ¾ lb. 1 30

SPEEDER HANDLES



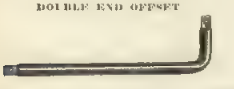
With Steel Knob

Each

No. 610—⅝ in. diameter; 19 in. long over all; 11 in. shank; 4½ in. sweep, ½ in. square drive weight each 2⅝ lbs. $1 35

No. 6310—½ in. diameter; 28 in. long over all, 20 in shank, 4⅜ in sweep, ⅜ in square drive; weight each 2 lbs. 1 50

DOUBLE END OFFSET



Each

No. T5—½ in diameter; 3x10 in. long ⅜ in square drive, weight each 1¾ lbs. $0 85

OFFSET HANDLES

With Knurled Grip

A very sturdy tool with extra heavy knurled grip built for powerful leverage

Each

No. 110X—⅝ in diameter, 10⅛ in. long, ⅜ in. square drive; weight each 1½ lbs. $1.00

No. 110-S—⅞ in diameter, 7⅝ in. long, ½ in. square drive, weight each ⅞ lbs. 1 00

SLIDING TEE HANDLES

With friction head which makes it possible to retain the bar at any position in the head.

In connection with the extension bars it makes an ideal combination of T or L handles

Each

No. T-4—⅞ in. diameter, 10¼ in. long, ½ in square drive, weight each 1 lb. $0.90

No. T-4-X—1⅛ in. diameter; 18 in. long, ¾ in. square drive, weight each 3¾ lbs. 1.75

HANDLE BARS

Each

No. T-4-S—⅞ in. diameter; 7 in. long; used with Nos. T-6-S and T-10-S; weight each ¼ lb $0 25

No. T-4-XX—1 in diameter; 24 in. long, used with Nos. T-8-XX, T-17-XX and T-40-XX, weight each 5½ lbs. 2.00

Each

No. T-40-XX—Head and adaptor, for No. T-4-XX bar; ⅜ in. square lock on drive with thumb release, weight each 1⅝ lbs. $3.00

GRIP HANDLES

Each

No. 507—½ in. diameter; 4 in. long, ⅜ in square drive; handy knurled grip for speed, weight each ¼ lb .$0 75

RATCHET WRENCHES

Instantly Reversible by Shifting Lug

Each

No. 311-X—11 in long; ½ in square drive, weight each 1⅝ lbs. $3 80

No. T-13—Extra drive lug, weight each ⅛ lb 40

Instantly Reversible by Shifting Lug

Mechanically simple with but three moving parts, instantly adjustable to a score of different combinations and reversible by simply pushing square lug through the gear. All moving parts are made of high grade alloy steel heat treated for greatest strength

Heavy Duty

Each

No. 910—10 in. long, ⅜ in square drive, weight each 1⅝ lbs. $3 50

No. T-13-X—Extra drive lug, weight each ⅛ lb. ..... .85

Extra Heavy Duty

Each

No. 920—20 in long, ¾ in square lock-on drive; weight each 6⅞ lbs. . $14 00

No. T-13-YX—Extra drive lug; for old style No. 920 wrench, weight each ½ lb 1 25

No. T-113-XX—Extra lock-on drive lug, for new style No. 920 wrench, weight each ½ lb. 1.25

EXTENSION BARS

Small

⅞ in diameter; ⅝ in. square drive

Each

No. T-6-S—6 in. long; wt. each ¾ lb. $0.90

No. T-10-S—10 in. long; wt. each 1⅛ lb. .95

Standard

⅞ in. diameter; ½ in. square drive

Each

No. T-6—6 in. long, wt. each ⅝ lb. .$0.75

No. T-8—8 in. long; wt. each ⅞ lb.. .80

No. T-10—10 in long; wt. each 1 lb.. 85

Standard, with Revolving Speed Grip

Each

No. T-60—⅞ in. diameter; 6 in long, ½ in square drive; weight each 1¾ lb $0 85

Heavy Duty

Each

No. T-8-X—1⅛ in. diameter; 8½ in. long, ¾ in. square drive; weight each 1⅞ lbs $1 50

No. T-17-X—Similar to No. T-8-X, but 17 in long, weight each 2⅞ lbs.. . 1 60

Extra Heavy Duty

Just the thing for those big, stubborn, inaccessible nuts and bolts on trucks and tractors.

Each

No. T-8-XX—1 in. diameter; 9 in long, ⅞ in. square drive; weight each 3 lbs. $4.80

No. T-17-XX—Similar to No. T-8-XX, but 17 in long, weight each 5 lbs. 6.00

TEE HANDLES

With Speed Grip

Favored by mechanics who desire leverage and speed revolving speed grip is a time saver in spinning off or on loosened nuts.

Each

No. 3310—½ in. diameter, 12 in. long, handle 7½ in. wide, ½ in. square drive; weight each 1½ lbs. $1.20

RATCHET ATTACHMENTS

Reversible

This ratchet attachment makes it possible to use a ratchet wrench in otherwise inaccessible places.

Each

No. T-3—Used with any handle with ½ in. square drive; weight each ¾ lb. $2 50

BLACKHAWK "SATIN-BLACK" SOCKET WRENCHES

STUD SETTER AND EXTRACTOR

Gear has 8 drilled holes so it can be changed as serrations wear. Heat treated and hardened.

Each

No. 651—Used with any standard ½ in. square drive handle to set or remove studs from ¼ to ⅞ in.; wt. each ½ lb. $1 75

UNIVERSAL JOINTS

90 Degree Angle

Easily reaches nuts that are inaccessible to ordinary sockets. Used with any standard square drive handle.

Each

No. T-2-S—Small series, ⅜ in. square drive; wt. each ½ lb. . $2 00

No. T-2—Standard series, ½ in. square drive, wt. each ½ lb 1 85

No. T-2-X—Heavy duty series ⅝ in. square drive, wt. each 1⅛ lbs .. 5 00

UNIVERSAL JOINT SOCKETS

Hexagon 90 Degree Angle

Used with any standard ½ in. square drive handle.

Nos.	T-16	T-18	T-20
Socket size, in	½	⅝	⅝
Wt. each, lbs.	⅛	⅛	⅛
Each	$1 75	1 75	1 75

Nos.	T-23	T-24

Wt. each, lbs.	⅛	⅛
Each	$2 00	2 00

SCREW DRIVER ATTACHMENTS

Can be used as a drag link, tie rod or screw driver attachment. Eliminates all slipping of the screw driver or cold chisel.

Each

No. T-1—For ordinary car work, ½ in. square drive, wt. each ¾ lb. . $0 80

No. 802—For small work; ⅜ in. square drive, wt. each 1 oz. . . 70

VALVE GRINDER ATTACHMENTS

Used with any standard ½ in. square drive speeder handle.

Each

No. T-11—Complete with 4 points to fit all valves, wt. each ⅞ lb. . . $0 60

Extra Points—Complete set of 4 25

SATIN BLACK FINISH, QUICK DETACHABLE SOCKET ADAPTORS

An inexpensive means of increasing or decreasing square shank size to accommodate various square shank openings.

Each

No. T-9-X—Increases square shank size from ½ to ⅝ in.; wt. each ⅝ lb... $0.75

No. T-7-X—Increases square shank size from ⅜ to ½ in., wt. each ½ lb .... .90

No. T-9-XX—Increases square shank size from ⅝ to ¾ in., wt. each ¾ lb. 1 50

No. T-9—Decreases square shank size from ⅝ to ½ in., wt. each ½ lb.... .75

No. T-7—Decreases square shank size from ½ to ⅜ in.; wt. each ½ lb 90

No. T-9D—Decreases square shank size from ⅝ to ¾ in.; wt. each ⅝ lb.... 1.50

Ratchet drive adaptors for ratchet wrenches.

Each

No. T-013-X—Decreases square shank drive from ¾ to ½ in.; wt. each ⅝ lb. $1.35

No. T-013-XX—Decreases square shank drive from ⅞ to ¾ in., wt. each ⅞ lb. 1 40

SQUARE DRAIN PLUGS

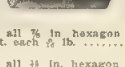
For Drain Plug Replacements; ½ In. Square Drive

Nos.	710	712	714
Size, in.	⅝	¾	⅞
Wt. each oz.	3	3	4
Each	$0 45	45	45

Nos.	716	718
Size, in	1	1⅛
Weight each oz	4	4
Each .	$0 45	45

Nos.	720	724
Size, in . .	1⅜	1⅝
Wt. each, oz .	4	4
Each	$0 45	45

SPARK PLUG SOCKETS



Each

No. 128—For all ⅞ in. hexagon spark plugs; wt. each ⅞ lb. $0 7

No. 130—For all 1⅛ in. hexagon spark plugs (Ford size), wt. each ⅞ lb. 75

No. 132—For all 1 in. hexagon spark plugs wt each 1⅛ lbs 85

No. 136—For all 1¼ in. hexagon spark plugs; wt. each ⅞ lbs. 85

Pressed Steel, Double End; With Handle

Each

No. 3729—For all ⅞ and 1 in. hexagon spark plugs; wt. each ⅞ lb. $0.50

No. 3731—For all 1⅛ and 1¼ in. hexagon spark plugs, wt. each ⅞ lb. 50

NO. 12-E EXTRA HEAVY DUTY SET

An industrial service and maintenance set of remarkable strength and adaptability. All parts are made of highest grade steel, heat treated to withstand abusive strains, stresses and constant use.

All units have ⅜ in. square tock-on drive with thumb release, no release key necessary.

Packed in No. E case

Contents of Set

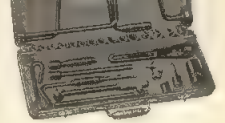
1 No. 820 ratchet wrench, 20 in. long.
1 No. T-4-XX sliding bar, 24 in. long
1 No. T-40-XX offset (also head for No. T-4-XX)
1 No. T-8-XX extension bar, 9 in. long
1 No. T-17-XXX extension bar, 18 in. long.
7 extra heavy duty hexagon sockets, sizes 1⅛ to 2⅛ in., Nos. 40-XX, 46-XX, 52 XX, 58 XX, 64 XX, 70XX and 76 XX

Per set

No. 12-E Set—Consists of 12 tools as enumerated above; put up in a 23⅞x11⅛x5⅜ in. steel case in maroon crackle or black enamel finish; wt. per set complete 58⅛ lbs.....$58.40

No. 12 Set—Same as No. 12-E set but put up in a wood box, wt. per set complete 47⅝ lbs. 49 40

NO. 32-CD SET



The set for the master mechanic; capable of 644 practical combinations.

All units have ½ in. square drive.

Packed in No. C case.

Contents of Set

1 No. 931 X ratchet wrench
1 No. 610 speeder handle
1 No. 500 brace handle
1 No. T-10 extension bar
1 No. T-60 extension bar with speed grip
1 No. T-3 universal joint
1 No. T-4 sliding tee.
1 No. 1810 tee handle with speed grip
1 No. T-11 valve grinder attachment.
1 No. 110-X offset handle
1 No. T-1 tie rod attachment
1 No. 136 spark plug socket.
16 double hexagon sockets from ⅜ to 1⅛ in.
5 square sockets from ⅝ to ⅞ in.

Per set

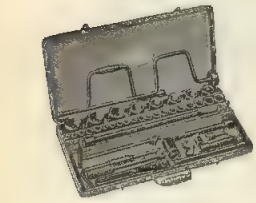
No. 32-CD Set—Consists of 32 tools as enumerated above, put up in a 19⅝x8⅝x2½ in. steel case in maroon crackle or black enamel finish, wt. per set complete 26½ lbs.... $30 35

No. 32-C Set—Same as No. 32-CD set, but with hexagon instead of double hexagon sockets; wt. per set complete 25 lbs. 29 10

BLACKHAWK "SATIN-BLACK" SOCKET WRENCHES

SATIN BLACK FINISH, QUICK DETACHABLE WRENCH SETS

No. 43DD SET



The set for every job—car, truck, tractor, threshers and farm machinery.

Packed in No. D case

Per set

No. 43-DD Set—Consists of 43 tools (all the tools contained in the No. 32-CD and No. 35-B sets), put up in a 23⅛x11⅛x2½ in. steel case in maroon crackle or black enamel finish, weight per set complete 49⅝ lbs. $48.15

No. 43-D Set—Same as No. 43-DD set, but has the hexagon sockets of No 32-C set instead of the double hexagon sockets of No 32 CD set, wt per set complete 49 lbs... ..... 46 90

No. 36-B HEAVY DUTY SET

A favorite set with mechanics who repair trucks, tractors and farm machinery. A favorite in industrial plants

Extension bar can safely be used on ratchet where leverage beyond the handle is needed to break loose frozen nuts or bolts. Sockets of special steel heat treated to stand up under constant heavy duty

All units have ½ in. square drive

Packed in No. B case.

Contents of Set

1 No. 91C ratchet wrench, 16 in. long
1 No. T4X sliding tee handle, 19 in. long
1 No. T8X extension bar, 8¼ in long
1 No. T17X extension bar, 17 in long
8 Hexagon sockets, sizes 1⅛ to 1⅝ in Nos. 36X, 18X, 40X, 44X, 46X, 48X, 50X and 52X

Per set

No. 36-B Set—Consists of 12 tools as enumerated above, put up in a 19⅞ x6⅝x2½ in. steel case in maroon crackle or black enamel finish, wt per set complete 24⅞ lbs ... $26 30

Six sets in an attractive display box

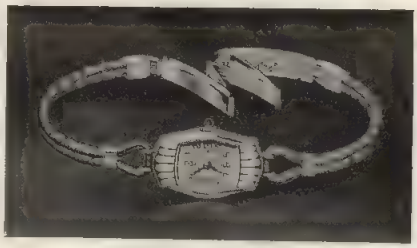
The John Plain Watch
for Ladies

We have picked for display, for our special offers on Pages 250 and 251, the six outstanding favorites with our customers. Into them, we have crowded the utmost in value; in them you will find the last word in beautiful cases and attractive bracelets. The demands of fashion are answered by these splendid watches. At these low prices, they are absolutely unrivalled, in beauty, quality of materials, and time-keeping accuracy.

Beauty

The John Plain Watch makes a perfect gift. It is smart, trim, accurate. It is insured against any expense for a definite length of time—one year for the 6 jewel models and three years for the 15 jewel watches. In regular use it will give a full lifetime of dependable service. We furnish a handsome presentation box and a written guarantee with each one of these watches.

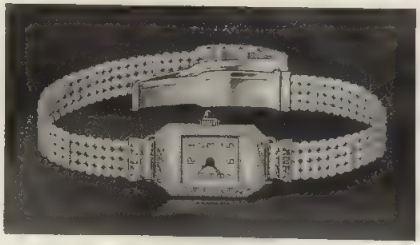
Loretta Young is the dazzling beauty who stars in First National Vitaphone productions. Her rise to stardom has been almost overnight



LADIES' 15 JEWEL ADJUSTED
14K SOLID WHITE GOLD

This exquisite new watch has all of the new features and it has become one of our leading models. The case is 14K solid white gold with a hand beaded top, and is fitted with a fine quality braided leather cord. This cord bracelet has the popular new double expansion fold and is adjustable to any wrist. The dial is of sterling silver, and the numerals may be easily read. It is fitted with a 15 jewel, 5¾ ligne, adjusted John Plain movement which is guaranteed against any expense for three years. Comes handsomely boxed for presentation with our printed guarantee.

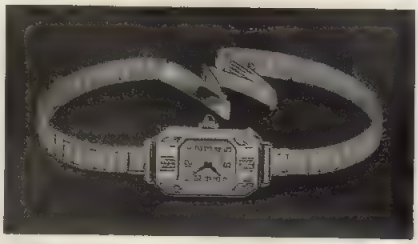
2K20346 PRICE **$50.00**



LADIES' 15 JEWEL ADJUSTED
ROLLED PLATE, CHROMIUM FINISH CASE

This watch has a lovely rolled plate chromium finish case, with an engraved top. The opening is square and the dial of sterling silver. Numerals are easily read. The movement is 15 jewel, 5¾ ligne, of regular John Plain quality, and is guaranteed unreservedly against any expense for three years. The watch is fitted with latest model of pearl bracelet with expansion fold, exquisitely engraved.

2K20347 PRICE **$40.00**



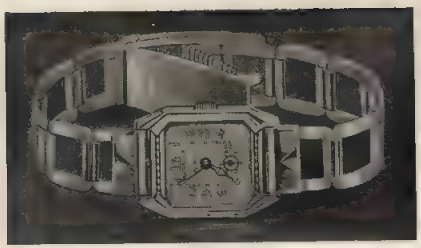
LADIES' 6 JEWEL ADJUSTED
ENGRAVED CASE, CHROMIUM FINISH

While the price of this watch is exceptionally low, it is unreservedly guaranteed against any expense for one year. It will give splendid service. The case is rolled plate, and has the lifetime chromium finish. It has a handsomely engraved top and the square cut corner opening. The dial is of sterling silver, and easily readable. The movement is our standard John Plain quality, 6 jewel, 5¾ ligne, adjusted. Watch is fitted with a new narrow model flexible bracelet, which has the double expansion fold and which is adjustable to any wrist. Comes nicely boxed.

2K20343 PRICE **$25.00**

The John Plain Watch
for Men

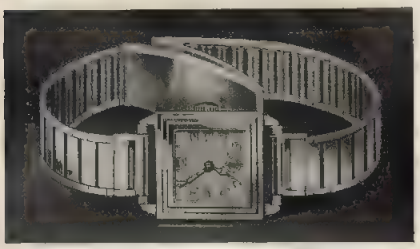
A man's strap watch must necessarily be rugged to withstand the jars and jolts of daily wear. The John Plain Watch is admirably suited for hard service. Its movement is guaranteed without reservation. But even more—you will find in these watches the utmost in style and appearance. The watches presented on this page are leaders in style and popularity. A man can receive no more desirable gift than a quality John Plain Watch.



MEN'S 6 JEWEL 10½ LIGNE ADJUSTED
Engraved Case, Chromium Plated

Very handsome strap watch with all of the season's latest features. It has a standard John Plain 6 jewel, 10½ ligne movement, and is unreservedly guaranteed for one year. The case is rolled plate, chromium finish in latest step design with a close fitting, indented stem. The dial is of sterling silver and the hands and numerals are luminous. It is fitted with a late model chromium finish link bracelet with expansion fold. Comes nicely boxed.

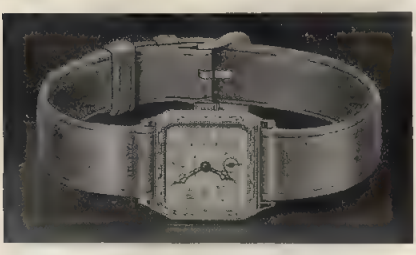
2K21200 PRICE **$22.50**



MEN'S 6 JEWEL 10½ LIGNE ADJUSTED
Super Quality Case, Chromium Finish

A very fashionable watch that will meet with the approval of the most critical. The movement is a standard 6 jewel, 10½ ligne, John Plain movement, and is guaranteed unreservedly for one year. The case is a late model with a plain step top. It has a square opening and a sterling silver dial. The hands and the numerals are luminous. The non-tarnishable metal band, which is attached, has an expansion fold and is adjustable to any wrist. Comes suitably boxed for presentation.

2K21201 PRICE .. **$25.00**



MEN'S 15 JEWEL 10½ LIGNE ADJUSTED
Engraved Case, Chromium Plated

This sturdy model is fitted with a 15 jewel 10½ ligne adjusted John Plain movement, and is unreservedly guaranteed for three years. The case is rolled plate with a hand engraved top. It has a sterling silver dial, with luminous hands and numerals. The strap is a new feature, being of genuine crocodile leather. Comes to you in a handsome gift box with our printed three-year guarantee.

2K21202 PRICE **$37.50**

Accuracy

A very high degree of accuracy, hitherto unknown in watches of this price, is offered in every John Plain Watch. By supervising the construction of these watches and their adjustments, we are able to extend a guarantee of three years on all 15 jewel movements and one year on all 6 jewel movements. This guarantee relieves you of any and all expense. Naturally, these watches will far outlive their guarantee, and will give a lifetime of satisfactory service.

AC SPARK PLUGS

Car equipment creates consumer acceptance and demand for AC spark plugs. They are regular factory equipment on more than 83% of the automobiles (exclusive of the Ford) being made today. A small stock is all that is necessary as a few types will service the majority of cars.

Sixteen AC types That Enable the Dealer to Service All Makes of Cars.

Type A

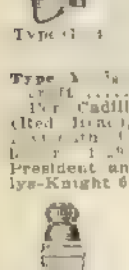
Type A—Each
⅞ in. regular, large hexagon $0.75
For Cadillac to 1929, Chrysler to 1928 Imperial 80, Dodge to 1928, Model A Durant, Essex to 1930, Hupmobile 4 and 6 cyl., Lincoln to 1927, Locomobile, Model 90 to 1928, Nash Std. 1927-28, Peerless to 1929, Plymouth 1928, Star, Whippet to 1928, and others.

Type C

Type C—Each
⅞ in. long, small hexagon $0.75
For Buick to 1928, Franklin to 1927, Nash to 1928 except standard 6 cyl. models to 1928, Peerless model A.

Type G-14

Type G14—Each
Metric $0.75
For Buick 1929 and 1930, LaSalle 1928-29 low comp., Jordan Playboy, KL, P, Z, L, Nash 1931, 870, standard and single, Oldsmobile model F, Peerless 1930 except standard, Pontiac 1930, Reo 1928, Stutz 1926 to 1929, Wolverine 1928 and others.

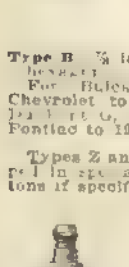


Type Y

Type Y—Each
⅞ in. regular, air-craft $0.75
For Cadillac 1928, Chrysler (Ltd. Imp.), LaSalle 1928 (with Cad. Head) Studebaker 1929 (6 cyl. models), President and Dictator, Willys-Knight 66, 66A.

Type Z

Type Z—Each
½ in. half long $0.75
Fits Chevrolet 1928, Chandler, Dodge 4, Erskine all models, Graham-Paige except 615, 827, 837, 127 and 54, Hupmobile model A, Lincoln 1928, Packard 1927-30 except 326, 745) and 1931 models, Studebaker since 1926 except 1929-30 Com. and Dict., Whippet 1929-30, Willys-Knight model 87.



Type B

Type B—Each
⅞ in. long, large hexagon $0.75
For Buick 1929, Chandler, Chevrolet to 1927, Cleveland, Durant 6, Oakland to 1929, Pontiac to 1929.

Types Z and B will be shipped in special Chevrolet cartons if specified.

Type G10

Type G10—Each
Metric $0.75
For Austin Bantam, Cadillac 1929-30-31, Chrysler 66, 70, CD; De Soto CF, Dodge DC, DG; Durant 70, 6-12, 6-14, 6-17, Du Pont model G, Duesenberg 29 30-31, Essex 1929-30, 31; Hupmobile M, C, H, U, L, S, Hudson 1929-30 Jordan E G, La Salle 1929, 30, 31, Marmon 79, Reo 1928-29.

All AC plugs packed one in a box, ten boxes in a carton.
Average weight per carton 2½ pounds.

Type K12

Type K12—Each
Metric (14 m/m) $0.75
For Nash 1930, model 880, Chrysler 77-1, low engine

Type W

Type W—Each
Long metric.... $0.75
For Cord 1930-31, Essex 1926 to 1930, Hudson 1926 to 1928 inclusive, Peerless 12", Rolls Royce model N-PH.

Type E

Type E—Each
⅞ in. regular, small hexagon $0.75
For Buick-Knight to 1928, Marmon to 1929, Oldsmobile 1927, Pierce-Arrow, Reo 1927, Stearns-Knight, Velie, Willys-Knight 70B and 8-80, Wolverine 1927.

Type G11

Type G11—Each
Metric $0.75
For: Blackhawk Stutz Chrysler CJ, Cord, De Soto K6 CK SA, Dodge DD, DH, DI Essex 29-30, Graham-Paige 837 x 137 M or 135, except 6 cyl. closed 1929-30, Reo 193-31, Rolls-Royce except N-PH, Stutz 1931, Willys model 8-80.

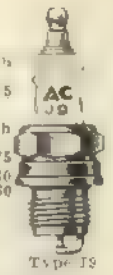
Type G12

Type G-12—Each
Metric $0.75
For: Chevrolet 1929-30-31, Chrysler model 77, CG, Dodge Victory 1929 and DA, DD, Franklin 1931, Hupmobile model A 1931, Jordan 1930, Marquette, Oakland 1930, Peerless models A, B, C, Plymouth 1929-30-31, Reo 1931-31, Stutz 1929-31, Viking 1929-30, Willys six

Type G12 will be shipped in special Chevrolet cartons when so specified.

Type J12

Type J12—Each
Metric $0.75
For Buick 1931

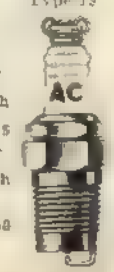


Type J9

Type J9—Each
..... $0.75
For Nash 1929-1930 except single 1931, 660 and 870.

No. 575

For Model A Ford Cars and Trucks
Each
No. 575—Two piece design $0.75



No. 1075

For Model T Ford Cars and Trucks
Each
No. 1075—Type V, two piece design $0.50

277—Buick (to 1930), Cadillac, Case, Chevrolet Chrysler, Chandler, De Soto, Graham-Paige, Kissel, Marquette, Nash (Std and spec to 1929 and 1931), Oakland, Paige Hupmobile, Pontiac Viking (1930-31
280—Durant, Duesenberg, du Pont, Essex, Ford, Hudson, Marmon Nash (Adv. to 1929), Reo, Roosevelt Whippet, Wolverine
305—Stu-Knight Yellow Cab
487—G.M.C. Truck, Model 43 Bus
1090—Aircraft.
1915—Mack

No. 1550 Adapter

When AC plugs are sold to replace plugs of another make having a smaller center wire thread than AC, this adapter can be screwed onto the AC center wire thread in place of the terminal connection that comes on the AC plug. The same terminal connection can then be used as was used with the other make of plug.

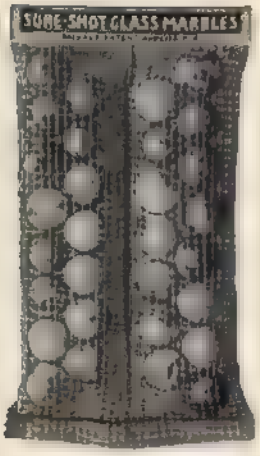
Trade Notes



Glass Marbles in Display Bags

The Rosenthal Co., originators of the idea of packing Glass Marbles in unique display bags that proved so popular last season, report that their 1932 line gives every indication of being even more popular. Manufacturing facilities have been greatly enlarged in order to give efficient service and adequately handle the rapidly growing volume of business. The new numbers offer a splendid array of colors and are packed in eye-catching, modern display bags which give complete visibility to every marble and for which patent application has been made. "Ever since the introduction of our Glass Marbles in display bags, our sales and production records have climbed to unprecedented heights," said Berry Pink, of this concern. "This year we are offering special numbers to retail for 10c and 25c for the jobbing trade, as well as 10c and 25c sellers for chain and department stores."

Jones in Auto Accident

While the extremely popular Southern sales representative, Frederick A. Jones, was en route from New Orleans to Memphis, accompanied by his wife, he figured in a serious automobile accident near Natchez. Mrs. Jones received internal injuries, and Mr. Jones sustained a severe blow on the head. After several days in Natchez, they were able to proceed to Memphis. Mr. Jones has a host of well wishers throughout the trade who are pulling for a speedy and complete recovery for himself and Mrs. Jones.

Mrs. Max Bing Dies Suddenly

Mrs. Frances Bing, wife of Max Bing, of Louis Wolf & Co., died suddenly on Wednesday evening, November 18th. Mr. and Mrs. Bing had been genuine pals throughout their entire life. Mrs. Bing frequently accompanied her husband on his trips which extended through all parts of the country.

About George

George is the PLAYTHINGS office boy. But hustling for copy and getting corrected proofs are just two of the things that George knows how to do, and do well. For example, the accompanying line drawing of Santa shows that George, too, realizes that the Christmas season is not far away. Besides this, George is quite a golfer, his banner achievement during the 1931 year being the negotiation of a hole-in-one. And when we say that this hole was 240 yards in length it will give some little idea of the wallop that was necessary to even reach the green, to say nothing of holing out. This feat of George's was accomplished on a Brooklyn course and was attested to by Wiffy Cox, the Pro of the course where George plays golf.

Notes From Knickerbocker

During a recent interview with Messrs. I. Cowen and Leo L. Weiss, of Knickerbocker Toy Co., at their Fifth Avenue showroom, the PLAYTHINGS reporter learned that this enterprising organization had done a most satisfactory volume of business during the past year. In addition to their regular line of animals, which embraces every conceivable type of stuffed toy, this concern has a variety of exclusive items that have won wide favor with the trade. In spite of the large volume that is now being manufactured for the holidays, plans are already being made for the coming year and new designs are in work that promise to even outdo their past successes.

Victory Mask Moves

Victory Mask Co., Inc., well known manufacturers of luloups, curtain characters, hoodwinks, masks, etc., announce the removal of their factory and showrooms to new and more spacious quarters at 30 Cooper Square, New York City. This move was made necessary due to the constantly increasing demand for their well known items.

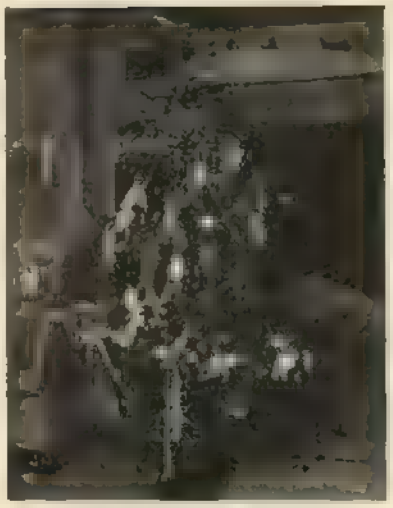
Free Display Stands for Uncle Sam's Bank Dealers

The Durable Toy & Novelty Corp. is prepared to supply their regular dealers who furnish their jobbers' names with a handsome new display stand. The outstanding feature of this new stand aside from the fact that it takes up remarkably little space, is its colorful attractive appearance. It is made of metal, brightly finished in orange, which together with its silver, black and red name plate, give it a most pleasing modernistic appearance. As will be seen from the accompanying illustration, the stand holds 4 Uncle Sam's Banks or Cash Store Registers.

Cal's Colt Displays

I. J. Moss, Inc., who are representing the Kiddie Gym Co. line in the east, announce that they have arranged a number of demanstrations for Cal's Colt. Among the stores in the Metropolitan area carrying these demonstrations are: Bloomingdales, R. H. Macy & Co., Gimbel Brothers, John Wanamaker, Hahne & Co., Fredk. Loeser & Co., A. I. Namm & Son, Abraham & Straus, L. Bamberger & Co., and Kresge's Department Store. In each of these stores a large, man-sized demonstration piece has been built which will accommodate anybody up to 200 pounds. Both the junior and senior models of Cal's Colt are being featured. I. J. Moss, Inc., say that they have had a very successful season with the Kiddie Gym playground equipment and that the new line for next year will be on display in their showrooms as well as at a hotel Toy Fair display.

Notes and News



Noma Lights Aid Santa's Secretary at Harvey's Toy Shop

A new twist to the old custom of providing a Santa Claus to whom the children may tell their Christmas wishes was provided last year during the holidays by the Harvey Toy Shop, in the great new Union Terminal at Cleveland. Harvey's Toy Shop, by special arrangement with the old gentleman, had Santa Claus' Secretary to take down the wishes of the children and put them into the form of illustrated letters which they might mail. Santa's Secretary, who became a person much in demand as Christmas drew near, was a young artist. Seated beside a tree strung with colored lights, she would gather the wishes of each child entering the doorway. After translating these wishes into pictures on letter paper which she would give them to mail, she would wave a wand over the tree, causing it to light up, to twinkle, to flicker, to go out, much to the delight of the children. The tree was especially arranged with Noma colored lights operated from a distance, making all this magic wand waving possible. Needless to say, the mothers of the children were all pleased with the reception given their children and were disposed to select their playthings from the magnificent display of toys in the shop.

Shaw Prepares for New Season

B. Shaw, President of the Shaw Doll Co. of New York City, reports that his company has received an unusual volume of business during the past year and promises many unusual numbers for 1932 season. This concern specializes in dolls for quantity buyers and pays particular attention to the costumes, all of which are of an original nature and in keeping with prevailing infant styles. Every accepted order is being delivered with their usual promptness.

New Adult Games

Arthur Popper, specialist in adult games, has added several new entertainment specialties to his line. One of these is a Horse Wheel. This is a vertical wheel of 18" in diameter which complete with standard, measures 29¼" high. It is beautifully designed with chromium and black enamel trimmings and shows 8 life like horses. A space at the top shows varying odds for each spin of the wheel. This game gives fast action and excitement. Another item is an improved edition of the Mascotte game. This consists of a fancy black leatherette covered base 18" square with a wheel 16½" in diameter and also a layout. The game is made of hand painted metal with chromium trimming. It is made in two sizes. Due to quantity production reduced prices have been announced on both sizes. Another feature of the Popper line is Chuck-A-Luck, which is an old favorite. The outfit consists of a cage, three dice and a layout. It is made in several sizes including one of 4¼" for pocket use. A complete line of backgammon boards and equipment is also included in the line. Other specialties manufactured or imported by Arthur Popper run the entire range of adult entertainment, including chess, checkers, cribbage, home Keno, dominoes, Crown and Anchor, poker chips, cribbage and Pinochle boards, roulette wheels and a great many other games designed to enliven a party.

Expansion Program for Bathgate

George Bathgate, factory agent for toys and infants' specialties, over in the Merchandise Mart, Chicago, takes a decidedly optimistic view of the future, and is backing his optimism by making plans for doing bigger things next year. George reasons that as his lines have proved so successful during a period when most everybody has been talking "depression" that with the coming of better times he will do still more in sales volumes, and intends to make every provision for this expected increase. Many buyers, he says, coming to his showrooms ask for certain kinds of merchandise he doesn't represent; and this being so much in evidence of late another one of his plans is to get the sales agency for these additional types of toys along with the rest. He's also figuring on increasing his floor space to some three thousand square feet.

An Arranbee Surprise

Arranbee Doll Co. of New York City well known manufacturers of dolls, are bringing out something entirely new which they claim will prove a greater sensation than their trunk creations, which enjoyed such a wide sale during the past year. Extensive changes are also being made in their regular doll line which has broken all previous sales records of this company.

Jetur A. Penny

Penny Retires

J. A. Penny, who for 32 years has been associated with the Strobel-Wilken Co., Inc., and who during the past few years has been president of that company, announces his retirement to take place at the end of the present year. Mr. Penny has had a long and honorable connection with the toy trade and with the old established concern to which he has devoted his energy for so many years. He joined the staff of the organization in 1899. His energy and faithfulness were always appreciated by the men for whom and with whom he has worked.

Jetur Penny has endeared himself to everybody with whom he came in contact. Kindly in manner, with a steadfast faith in the value of fair dealing and conscientious effort he has always been a firm believer in the policies which were the basis of the success always attending the business of his company. Everybody in the industry will extend their best wishes to Mr. Penny and their hope that he may not retire permanently from activities in the industry in which he has for so many years been an outstanding figure.

"Ferguson" Tennis Tables

Ferguson Bros. Mfg. Co., of Hoboken, N. J., well known manufacturers of tennis tables, poker tables, bridge tables, folding chairs, etc., are in a position, due to their large manufacturing facilities, to supply the last minute demands of buyers for their products. The tennis table which this company manufactures measures 5 ft. x 9 ft. x 30 in. high, and conforms with the new specifications laid down by the New York Table Tennis Association.

Root Toys Popular

The A. I. Root Co., of Medina, Ohio, have been compelled to increase their manufacturing facilities steadily throughout the year, owing to the rapidly increasing sales of their Educational Letters, Ski-Scraper blocks, Anagrams and other items. They have mailed to the trade a series of very handsomely printed folders showing their toys in full color.

"THAT'S IT"

Kodatoy, A. C., hand-cranked model, $12—motor-driven model, $18.50. Universal models up to $25. Complete with two empty 100-foot reels and miniature "silvered" screen theatre.

an

Eastman

KODATOY

and the reduced net price brings an *extra* profit to you

SHOW Kodatoy and its "silvered" screen theatre to any grown-up shopping for his youngsters... show him the clear, flickerless movies it projects, its *safe* and *simple* operation ...and he'll say, "That's it!"

He knows it's the toy he is looking for... that any youngster would want.

He will buy Kodatoy for what it is ...a practical movie projector for children. He will feel doubly sure in buying when you tell him it is Eastman made.

Then, when you close that sale and scores of others, you make extra profits... extra because the net price on Kodatoy has just been reduced while the list price remains the same.

You build a chain of future profits, too... the lucky youngsters who get Kodatoy will come back to you for Kodaplay film subjects, extension arms, and other accessories they will need from time to time.

With your biggest season almost here, Eastman national advertising is continuing to tell your customers about Kodatoy. So cash in on those extra profits, now. Write, or wire, for details today.

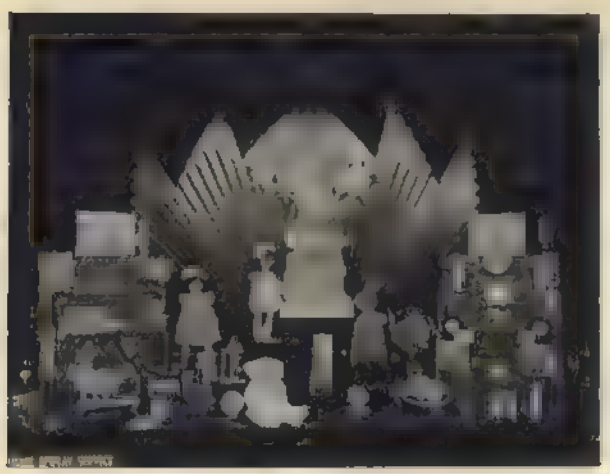
FACTS ABOUT KODATOY

SIZE—12⅜" by 9¾" by 5¾".
WEIGHT—5 lbs. 13 ozs. Kodatoy is small and light—easy to demonstrate.
FOOTAGE—100 feet of 16 mm Kodak Safety Film, equal to 250 feet of 35 mm. film. With extension arms, 400 feet of 16 mm. film.
LENS—34 mm. projection lens. Kodatoy's optical system is superior to anything in the toy class.
MECHANISM—Has claw pull-down and three-blade shutter that permits steady, flickerless pictures. No framing necessary.
FOCUS—Sharp focus is easy by sliding the lens barrel in its mount.
ILLUMINATION—No. 1110 double filament GE auto headlight lamp. Available everywhere at small cost. Metallic reflector. Transformer mounted in lamp house. 105-125 volts, 60 cycle A. C. only. Special Universal model available for A. C. or D. C.
REWIND—By hand with crank on rewind spindle.
FINISH—Maroon crystalline. Fingerprint- and scratch-proof.
THEATRE—Made of heavy cardboard with sides to permit daylight showings. "Silvered" screen surface is 8 ¼" by 11". Shipped folded in Kodatoy carton.
SHIPPING CARTON—Fiberoid box. Size 14" by 12" by 8¾".

EASTMAN KODAK COMPANY, *Rochester, N.Y.*

When writing to Eastman Kodak Company, will you please mention PLAYTHINGS?

Trade Notes



Sol Fisher Talks on Window Trimming to Associated Hardware Men

The fact that November 11th was a rainy night didn't deter the members of the Associated Hardware syndicate and some of their store force from attending a meeting for the discussion of the subject of efficient show window display at the headquarters of these associated merchants, 325 West Madison Street, Chicago. The principal speaker at this assembly was Sol Fisher, of the Fisher Display Service, whose informal talk emphasized the potency of frequent change or rearrangement of a shop window's contents for attracting customers into the store. Using printed advertising as a parallel in his argument he reminded his hearers that one single window trim could not be expected to produce satisfying, business-building results any more than could the single insertion of an advertisement, and that a continuous and varied treatment in both cases served to renew attention, stimulate interest and create sales.

A store's front Mr. Fisher aptly described as "window circulation," incidentally reminding his listeners that by the simple method of recording the number of passers-by during a day, a week or a month a most astonishing array of figures representing actual and potential customers would be compiled, and consequently the importance of an effectively arranged window should not be overlooked or underestimated. By way of practical demonstration Mr Fisher had a framed "window" set up in the association's sample room, and this being the season when many hardware stores are featuring toys most of this model window was taken up with playthings items of miscellaneous character, with backgrounds, panels and display units to complete the decorative scheme First one arrangement and then another was built up and commented upon, as examples of effectiveness in variation by grouping the merchandise in different ways, with light effects. As a parting admonition he told his audience that as a show window was a costly element of any store the part of wisdom was to make it pay

The Associated Hardware Stores, by whose invitation Mr. Fisher made this interesting address, now has a membership of thirty-seven retailers, who do their buying through a central office in Chicago. Merchandise Manager Harvey Cohn told the PLAYTHINGS reporter that buying of toys, of all description, through the syndicate's office showed no curtailment this year and that in volume and value it equalled orders placed in previous years; with early confirmations and deliveries on time. Requisitions have been placed, Mr. Cohn further says, for 125,000 copies of a new 8-page illustrated stock circular gotten out for the members of the group for holiday season distribution, with much of it listing toys.

Jeanette Trousseau Sets

Ralph A. Freundlick, Inc., of New York City, report a large demand for their trousseau outfits. Ralph A. Freundlich, during a recent interview with a PLAYTHINGS representative stated that November had proven to be the biggest shipping month in his entire 20 years connection with the doll industry. He further added that the yearly volume was also greater than any previous year. He stated that a leading New York department store purchased 32,000 trousseau outfits and that his entire shipment during November would total 100,000 trousseau sets. In spite of this large volume of orders, manufacturing facilities have been increased and all accepted orders are receiving prompt shipment

New Children's Lamp

A new idea in children's lamps has been placed on the market by Terraloid, Inc., 212 E. 99th St., New York City This is Ye Bedde Tyme Storye Lampe As can be seen from the illustration this lamp is contained in an old English style house surrounded by composition shrubbery. Scenes from the story of Goldilocks and the Three Bears are shown on a revolving cylinder inside the house. The pictures are colored and part of the story is printed beneath them. When the light is turned on the cylinder revolves, causing the characters to pass continuously before the open door of the house. Scenes from other children's stories will be produced later on, and as the roof of the house lifts off the cylinders can be changed in a few seconds. The lamp is furnished complete with a bulb, six feet of No 18 cord and a pull handle type socket All electrical connections and equipment are of an approved type. A display of one of these little houses on a counter is a demonstration in itself, as the cylinder will revolve continuously as long as the current is turned on

Milne Meets VanLoon

Stephen Slesinger recently gave a luncheon to A. A Milne, creator of Winnie-the-Pooh, and Hendrik VanLoon, the distinguished historian and designer of the Story of Mankind game The purpose of of the luncheon was to to bring both Mr Milne and Mr. VanLoon together for the first time Among the distinguished people present were Gene Tunney; the Grand Duchess Marie; Roy Howard of the Scripps-Howard newspapers; Carl VanDoren, Editor of the Literary Guild; Charles Hanson Towne, of the New York American; Harry Hansen, Literary Editor of the World-Telegram; as well as many other well known publishers, editors and writers. Mr Slesinger, who owns all rights for character reproduction for both Milne and VanLoon creations, reports that the numerous articles of Winnie-the-Pooh merchandise, as well as Mr. VanLoon's new Story of Mankind game, are rolling up impressive sales totals wherever displayed throughout the country.

*FLOODLIGHTS

STERLING

Floodlighting with portable, interior spot-flood lighting units combines distinctiveness and effectiveness in displays and provides beauty and attractiveness that compel public attention. Spot-flood lighting is used to supplement regular lighting equipment already installed and intensify the window illumination. Also used to concentrate light of high intensity on certain sections or portions of displays.

***FLOOD-O-LITE JR.**

For 200 Watt "C" Medium Screw Base Mazda Lamps

Rich and harmonious color lighting is obtained through the use of color films supplied with each Flood-O-Lite Junior. Many beautiful and effective colors and combinations that harmonize perfectly with the display to designate a certain season or thought can be brought out as desired.

Equipped with combination base which provides either a 7 inch weighted portable base for floor use, or a 3 inch flange base for attaching to walls, ceiling or transom bar. With the use of an ordinary screw driver the new base can be easily and quickly adjusted to meet any requirement.

Complete with 5-foot extension cord and a separable attachment plug.

***Form I—For Flood Lighting**

Designed for flood lighting general interiors, show windows and sales display rooms where a wide spread of intensive light is necessary.

Each

No. 3022—With Color-Lite $12 00
No. 3020—Without Color-Lite 10 00
Weight each 10 pounds
One in a carton.

***Form C—For Spotlighting**

Especially designed for spotlighting where a unit, object or section of a display is to be brought into prominence. Concentrates a very intense beam of light on a small area.

Each

No. 3011—With Color-Lite $12 00
No. 3010—Without Color-Lite 10 00
Weight each 10 pounds
One in a carton

***FLOOD-O-LITE**

Adjustable for 300 to 1000 Watt Type "C" Mogul Base Lamps and Beam Spread of from 6 to 90 Degrees

For illuminating building exteriors, railway yards, storage spaces, expositions, chimney signs, bathing beaches, playgrounds, monuments, construction work, etc.

All moving parts, adjusting screws, etc., made of brass as proof against corrosion and freezing. Housing of copper drum type combined with sturdy cast construction. Ventilating intake permits a large volume of air to enter drum, but excludes rain, snow and insects. Cover glass is a convex, heat resisting roundel with a high transmission factor. Door and door frame of finest grey iron castings, door held in place by three brass clamp screws and wing nut which draw it up tightly against a heavy weatherproof gasket set into door frame. Heavy steel trunnion arms permit control of projection in any position.

Height 27½ inches, width 2½ inches, depth 12 inches.

Each

No. 5000C—With concentrating reflector, 15 in. diam., with beam spread of 12 to 15 degrees, for use where long throw with great intensity is required, shipping weight each 100 lbs. $65 00

No. 5000I—With stippled reflector, 15 in. diam., with beam spread of 90 degrees, for use where purpose is to evenly distribute flood of light over wide area at comparatively close range, shipping weight each 100 lbs. 66.50

One in a carton.

LOUISIANA

A pattern with a popularity that is nationwide—and deservedly so, for in its design are combined the romantic charm and royal traditions of the State for which it is named. Those who prefer a decorated pattern will find in LOUISIANA a smartness and at the same time an elegance that will add character to any table setting. Guaranteed to give complete satisfaction without limit of years.

LUXOR

Here is a pattern that might have excited the admiration of a sculptor of ancient Greece. The purity of line, the delicacy of ornamentation, the feeling of balance of the many backed by master craftsmanship in silversmithing have made LUXOR one of America's most popular patterns in silver plated flatware. Its soft gray finish adds that final touch sure to please the most discriminating hostess. Guaranteed to give entire satisfaction without end of years.

MELODY

MELODY—the same rhythmic flow of line that gives the simplicity of modern design its kinship with beautiful poetry, the lilting charm of music set in silver . . . and being in silver, an utterly new note of harmony in table fashions that will add much to the pride and pleasure of every hostess. On all flat pieces, both sides of the handles have the same decoration—thus making a really finished pattern. Guaranteed to give complete satisfaction without limit of years.

BUTLER BROTHERS
CHICAGO

AMERICAN FLYER AIRPLANES

Expertly designed models that are exactly like the real ones, one will have a lot of fun playing Aviator with these beautifully colored enameled airplanes. They are strongly constructed of heavy gauge steel and are especially noted for their outstanding fun-making features as listed below.

General Features on All Models

Noise Maker. Operated by a durable belt of music wire. Imitates the hum of a motor when in motion.

Steel Parts—Only the best heavy gauge steel not tin—is used wherever possible. They are made exceedingly strong to withstand hard knocks.

Propeller—This is driven by special belt on all models.

Edges—No sharp edges to cut the fingers of children on these airplanes. This is overcome by costly tools and operations.

Design—These airplanes are drawn to scale from actual planes. Realistic detail, characteristic of American Flyer Trains, is also maintained in these designs.

Skid Wheel. This patented die cast feature enables the plane to "flob along," imitating a plane about to land or "take off." This also permits the clockwork planes to run on the floor within a 6 ft. circle.

Automobile Enamel—Of the finest quality is used and then baked on, giving a beautiful, permanent, waterproof finish.

Wings are removable and have patented locking device.

Pull Toys—All of these planes can be used as Pull Toys if desired.

Die Castings—Realistic detail and durability so essential to model airplanes is obtained by the use of many expensive die castings.

Motor Features on Models 555 and 560

Clockwork—This is the Famous American Flyer winding motor with powerful, long-pulling clock spring, steel pinions and gears, equipped with speed-governor and easy winding key

Clock Brake—Clockwork planes are equipped with a brake, permitting clockwork to operate as you desire. Brake can be used to advantage when winding.

Special Features (Except on Model 555)

Decalcomania—The planes are equipped on the top wing with markers, and on both sides of the fuselage with a multi-colored and attractive decal cognizia.

Rubber Tires—These are removable black tires over steel wheels.

Rudders—These model airplanes have adjustable rudder actions, that enables you to control the direction you want them to go.

Brass Trim—Equipped with ornamental brass trim, windows, doors, etc.

SPIRIT OF AMERICA

This pull toy monoplane is similar to "Lindy's" famous ship. The propeller revolves automatically and a ratchet arrangement on the landing wheels imitates the hum of a motor, when in motion.

Size—12½ in. long, 15 in. wide, 6 in. high.

No. 550.....Each $1.35

SPIRIT OF COLUMBIA

Motor driven and has all the special features, except the brass trim and die castings.

Size—15½ in. long, 18 in. wide, 6 in. high.

No. 555.....Each $3.00

THE LONE EAGLE

This is a true scale model monoplane, equipped with all the special features and a more powerful clockwork motor than the No. 555 "Spirit of Columbia."

Size—21½ in. long, 23½ in. wide, 7¼ in. high.

No. 560.....Each $2.50

THE SKY KING

A scale model cabin-type tri-motor biplane pull toy, modeled after the celebrated Ford Planes with the addition of a biplane. This is a construction toy that is shipped built up and can be built into different models. The three propellers revolve automatically and with great speed when in motion. It is equipped with all the special features, excepting the clockwork and brake.

Size—21½ in. long, 23½ in. wide and 8 in. high.

No. 567.....Each $6.00

AMERICAN FLYER STRUCTO TOYS

Structo Toys are accurately made miniature models. They look and work the same as the true-to-life objects they represent. The Fire Engine for example is not only realistic in appearance, but being equipped with a water tank pump and hose, it will actually put out fires. The Excavator duplicates all the operating features of an actual excavator. In fact, all the Structo Toys are built with features to give the greatest amount of fun possible. Some of them run by powerful steel spring motors, are sturdily constructed of heavy gauge steel and are beautifully colored with bright automobile enamels. They are made to stand up under hard knocks and they do not require constant fixing.

Construction Features

Steel Parts—Best heavy gauge steel is used throughout.

Realistic Design—Each Structo Toy is a true scale model of the actual object.

Automobile Enamel—Beautifully finished in bright automobile enamel which will withstand outdoor usage. Do not confuse this with cheap ordinary paint often used in decorating toys.

Geared Motor—Heavy gauge steel gears that are cut, not stamped, are used with steel pinions. The high tempered motor spring generates the power sufficient for hill climbing and other stunts. Motors have a hand brake for starting or stopping clockwork.

Electric Welding—Used wherever possible to make Structo Toys stronger.

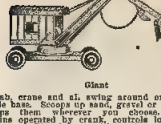
Balloon Tires—Latest type of tire equipment—imitation steel balloon tires used.

Extra Wide Wheels—All Structo digging and hoisting machinery toys have extra wide and large wheels to prevent sinking in the sand.

Ventilator Type Hoods—To add realism, all Structo Tractors and Automobiles are made with side ventilators on each side of the hood.

Heavy Chains—Extra heavy chains used on all Structo Hoisting Toys. Will long outlast ordinary chains.

STEAM SHOVELS



Giant

Cab, crane and all swing around on its turntable base. Scoops up sand, gravel or stones and drops them wherever you choose. Hoisting chains operated by crank, controls loading and dumping. Fine for use with the Dumping Truck. 15½ in. high, 23¾ in. long and 9 in. wide, with a 9½ in. wheel base. Weight 3½ lbs.

No. 110 . . . . . Each $1.75

Standard

The big fellow's little brother. Capable of doing the same work as No. 110 but within a smaller area. Operates identically the same. 13 in. high, 18¾ in. long and 6 in. wide, with an 8 in. wheel base. Weight 2 lbs.

No. 95..... Each $1.25

GRAB BUCKET

Exactly like the big steam-operated machine seen in sand and gravel pits. All operations controlled by crank levers. Picks up sand, swings and dumps it wherever you choose. Made exceptionally strong. The cab swings on its base. 14⅜ in. long, 6 in. wide and 16 in. high, with an 8 in. wheel base. Weight 2 lbs.

No. 85 . . . . . Each $1.30

SAND LOADER

A very interesting toy that will give lots of fun. Loads a Tractor and Trailer with sand. Is 18 in. long, 12¾ in. high, 5 in. wide, with a 4½ in. wheel base. Weight 2 lbs.

No. 51....Each $1.25

PILE DRIVER

Driving hammer works by a hand crank and falls with a heavy "thud," just like the real ones. Will actually drive stakes in the sand. Pile driving mechanism operates on a swivel from the cab. 10⅜ in. long, 18 in. high and 8 in. wide, with a 7½ in. wheel base. Weight 2⅝ lbs.

No. 123....Each $1.35

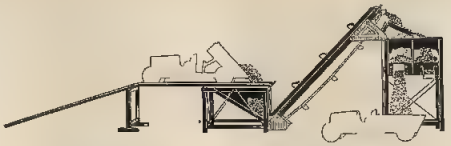
The W Bingham Co

AMERICAN FLYER STRUCTO TOYS

SAND SIFTER AND TRUCK

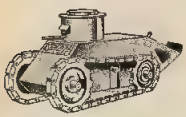
(Complete as Illustrated)

A real, working outfit. The large truck with dump body backs up the runway and empties its load into the big 20-in. in width) steel hopper. These runways can be adjusted to any width to accommodate wheels of any Structo truck or tractor. By simply turning a crank, the buckets carry the sand up to the top of the conveyor, where it passes over a screen that separates the fine and coarse grains. There is a chute for each compartment, as shown, and by raising the chute guards the sand is quickly loaded into a truck below. Although the overall length of the Sifter when set up is 6 ft., the units are separable and only a small space is required for storing. When in use, the truck runway may be placed at right angles to the hopper, if desired, instead of extending straight out, as pictured above. A world of never ending fun in this complete system. Instruction sheets for erecting included with each set. 6 ft. long, 17 in. high and 19 in. wide. Wheel base of Dump Truck 12 in. Weight 12½ lbs.



No. 15 . . . . . Each $5.00

WHIPPET TANK



(Clockwork Motor)

Just like the big ones they used in the World War. Has powerful speed regulated steel geared motor, equipped with brake. The chain tread produces an exceptionally realistic action when traveling over rough ground and other obstructions. Will travel a long distance uphill or over thick carpets. The gun in the turret can be made to turn in any direction. Has the general appearance and sound of a tank in action. 12 in. long, 4½ in. wide, 5¼ in. high, with a 5 in. wheel base. Weight 2½ lbs.

No. 48 . . . . . Each $2.75

One in a Carton

PACKARD DUMP TRUCK

A real sturdy constructed dump truck having the same features found on regular trucks. Dumping of body controlled by double multilever hand control, located on either side of the driver's seat. Very modern design with Packard radiator—oversize imitation steel balloon tires. Carries a big load. 17½ in. long, 5 in. high and 6 in. wide, with 12 in. wheel base. Weight 5¼ lbs.

No. 405 . . . . . Each $1.25

One in a Carton

COVERED ARMY TRANSPORT

The heavy canvas tarpaulin, with the words, "U. S. Army" printed thereon, is supported by three heavy steel uprights and crossbars. It has a large Packard motor hood, adjustable drop-tail gate, roomy driver's seat and large disc wheels with imitation steel balloon tires. It is a true replica of the famous United States Motor Transport. 17 in. long, 6 in. wide, 9 in. high, with a 15 in. wheel base. Weight 2½ lbs.

No. 415 . . . . . Each $1.50

One in a Carton

ARMY AMBULANCE

Strongly constructed of heavy gauge steel, spot welded. Long Packard type hood, mudguards, rear step and railing, big wheels, inside seats, roomy driver's seat and white duck curtains that roll up and fasten, if desired. The top is removable. 17 in. long, 6 in. wide, 9 in. high, with a 13 in. wheel base. Weight 3½ lbs.

No. 416 . . . . . Each $1.60

One in a Carton

SPEED WAGON

Features enclosed driver's seat, Packard type hood, drop tail gate and large steel balloon tires. This is a very good value.

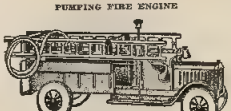
Colors—Green body, red wheels, white tires. Has "speed wagon" decalcomanias.

Dimensions—17 in. long, 6 in. wide, 8 in. high. Weight 8¾ lbs.

No. 425 . . . . . Each $1.75

One in a Carton

PUMPING FIRE ENGINE



This realistic Pumping Fire Engine possesses many attractive features, of which the most outstanding feature is that it will actually put out fires. Has a large electrically welded water tank, equipped with a double action hand pump very accurately made, assuring positive action at every stroke. This forces a stream of water many feet into the air through the brass nozzle of a 42 in. rubber hose which is clamped to the tank. Has four 16 in. extension ladders, which placed end to end, extend 6 ft. into the air. The solid brass bell rings. Strongly constructed of heavy gauge steel and solid brass. Joints and seams are neatly fitted and welded. Extra reinforcement is built into the large imitation steel balloon tired wheels to ensure long life to this heavy and realistically designed Pumping Fire Engine. 21 in. long, 6 in. wide, 8 in. high, with a 15 in. wheel base. Weight 7 lbs.

No. 449 . . . . . Each $5.00

One in a Carton

MOTOR TRANSPORT

Especially designed and strongly constructed to hold sand, stones, doll furniture, etc. Features six large steel balloon tired wheels and tail gate. A fast selling number.

Colors—Blue body, red wheels, white tires. Attractive decalcomanias.

Dimensions—24 in. long, 8½ in. high, 5½ in. wide.

Weight 6½ lbs.

No. 430 . . . . . Each $2.00

One in a Carton

AIR MAIL TRANSPORT

Accurately made model of the six-wheel U. S. air mail transport featuring a large body with latticed sides, and adjustable tail gate.

Colors—Green body, red wheels, white tires. Has attractive decalcomanias.

Dimensions—24 in. long, 8½ in. high, 5½ in. wide.

Weight 6½ lbs.

No. 421 . . . . . Each $2.00

One in a Carton

FIRE INSURANCE PATROL

Its large size is well proportioned and it looks like the real thing. Features Packard type hood, steel balloon tires, a brass bell that actually rings, rear steps and hand rail.

Colors—Red body, red wheels, white tires. Has "fire patrol" decalcomanias.

Dimensions—18 in. long, 6⅝ in. wide, 6⅝ in. high.

Weight 3 lbs.

No. 424 . . . . . Each $1.25

One in a Carton

AMERICAN FLYER WIND-UP TRAINS

These are known the world over for their satisfactory performance and long life, as well as their many exclusive features and color innovations. The following are the outstanding features of the locomotive and tender

Locomotive Features

Brake Stop—By pushing this lever in one direction it is easy to wind up the motor without the unwinding or turning of the wheels.

Die-Cast Wheels—Heavy diecast wheels are supplied on train models 5, 6, 16, 18 and 19 which insure a smooth running and well balanced engine. They also add to the realism of the train.

Steel Gears—Heavy gauge steel used in motor gears. This insures smooth running and long life.

Winding Key—Our winding keys are nickel-plated and free from rough edges. If wound up in the wrong direction the key will only screw off, making it impossible to break the spring.

Double Pawl Ratchet—All engines are equipped with double pawl friction disc winding ratchet. Makes engine easy to wind and prevents spring from unhooking. Two ratchet pawls are used instead of one, and, should one accidentally break, the other will still perform satisfactorily.

Clock Spring—Extra heavy and wide clock springs of special heat-treated steel are used to make motors longer running and stronger.

Piston Rods—Neatly proportioned, brass plated piston rods add beauty and realistic appearance.

Black Japan Finish—Two coats of durable baked on black japan are used to insure a permanent and attractive finish.

Gilt Trim—The headlight, bell, cab sides and smoke-stack are handsomely hand decorated in gilt finish.

Heavy Castings—Extra heavy reinforced castings used. Adds strength to withstand rough handling.

Speed Governor—All motors equipped with speed governor so that there is a uniform speed maintained.

Tender Features

An imitation headlight finished in brass gives additional realistic appearance.

Imitation coal is included in the tender of American Flyer Wind-Up Trains.

American Flyer Logotype, in keeping with the practice of real railroads, is featured on both sides of the tender. Tenders are finished in the same color as the cars of the train set.

THE WOLVERINE

Has the same design, clockworks motor, tender and cars as used in our highest priced Wind-Up Trains. It is finished in Sunset Red and is 27¾ in. long.

Locomotive—Model 11 is 6¼ in. long and is equipped with brake and with a more powerful speed governed clockworks motor than any other train of its size or price. Finished in jet black enamel with hand decorated gilt trim.

Tender—Model 120, is 4¾ in. long and decorated in beautiful red and gold to match the car. Imitation coal and headlights are added attractions to this tender.

Passenger Car—Model 1220, is 6½ in. long, not including its disappearing couplers. It is decorated in a two-tone Red, the roof being a darker shade than the body. Car bottom is of heavy embossed steel and gives added strength to the already strongly constructed car.

Track—32 in. of track comprising 8 curve sections forming a circle 27 in. in diameter are included

No. 1. . . . . Per set $2.80

THE PANTHER

This two car train is a very good value, as it has features found in trains selling as high as $5.00. Train is 24¼ in. long

Locomotive—Model 12, 8¼ in. long and equipped with powerful motor, brake and brass finished piston rods. It is finished in high gloss black japan and decorated with gilt and orange enamel. Winding key is easy to turn.

Cars—The tender, Model 120, and both cars are finished in orange with details neatly brought out in colors. The roofs are also finished in an orange color, slightly darker than the body. Tender has imitation coal and headlight. Baggage car, Model 1205, has two sliding doors. Passenger car, Model 1197, as well as the baggage car, are 6¾ in. long and equipped with disappearing couplers.

Track—108 in. of track, consisting of 8 curve and two straight sections, forming an oval 27 in. by 57 in. are included with this train set.

No. 2. . . . . Per set $3.50

THE RAINBOW

This three car 31 in. long train consists of a 6½ in. locomotive, with piston rods and brake, baggage, passenger and observation car. Cars are 5½ in. long and are of different colors. Eight curve and two straight track included.

No. 3. . . . . Each $3.00

THE VIKING

Blue with orange roofs. Features a figure "8" crossover track. Consists of 7 in. locomotive with brake, piston rods and heavy die cast wheels, tender with light, 6½ in. large Pullman and 6½ in. large observation cars. Length of train 26 in. Fourteen curve and one crossover track included.

No. 6. . . . . Per set $3.50

THE PRAIRIE STATE

This 34 in. DeLuxe double truck, all red train consists of a beautiful 7½ in. red locomotive equipped with brake, tender, baggage car with sliding doors, Pullman and observation car, 8 curve track and 5 straight track included.

No. 16. . . . . Per set $8.00

THE EMPIRE EXPRESS

Consists of locomotive, tender and one passenger car. Length of train 14 in. Four curve sections of track, gives circumference of 50 in.

No. 700 . . . . . Per set $1.15

EMPIRE EXPRESS

This two car 19 in. train consists of a 6¼ in. locomotive, red tender and two 4¼ in. red with green roof passenger cars. Four curve track included.

No. 732. . . . . Each $1.35

THE QUEEN CITY

The 20½ in. long orange and blue train consists of 6 in. locomotive, tender and two 5 in. cars. The tunnel, semaphore, station, danger signal, and four curve and two straight tracks are included

No. 134. . . . . Each $2.95

THE NIAGARA

Two tone red. 6¾ in. locomotive has easy winding clockworks, brake, piston rods, and decorated wheels. The new tender is very realistic. The two passenger cars are both 5 in. long. Length of train is 21 in. Eight curve tracks are included.

No. 132. . . . . Each $1.85

FORT DEARBORN

This 30 in. train offers a sensational value. Consists of 6½ in. locomotive equipped with piston rods, brake and decorated wheels, tender, sand car, box car and caboose. All cars are 6¼ in. long. Eight curve and two straight track included.

No. 17. . . . . Each $3.00

The W Bingham Co

AMERICAN FLYER WIND-UP TRAINS

THE PENNSYLVANIAN

Buff with orange roofs. Features a pair of switches with solid base, which form a flexible oval track. One switch is automatic in operation. This is an exclusive patented feature. Consists of 7 in. locomotive, tender, 6½ in. large Pullman, 6½ in. large observation car, 10 curve, 2 straight and one pair switches. Length of train 26 in.

No. 6..... Each $4.80

THE PANAMA LIMITED

Establishes a new standard of train value. Train is 26½ in. long and is colored green with red roofs. Consists of 7 in. decorated locomotive, green tender, 6½ in. passenger and 6½ in. observation car. The station, (danger signal), semaphore, enamel, clock, crossing gate, banjo signal, flashing signal and eight curve and four straight tracks are included.

No. 19..... Per set $5.98

WIND-UP TRACK EQUIPMENT

American Flyer wind-up track is built exceptionally strong, yet flexible enough so as to shape itself to fit uneven boards on which it is laid without losing any of its original rigidity

CURVED TRACK

Curved track, 10 in. long.

No. 306..... Each $0.10

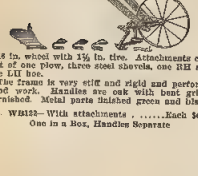
HAND GARDEN CULTIVATORS

American Gardener

14 in. steel oval spoke single wheel with 1¾ in. tire, permanent attachments, a few turns of the hand wheel releases one set of tools and allows another to be revolved into working position and locked securely in place. No wrench required. Equipment consists of a thin blade polished steel scuffle hoe or sweep, trenching plow or shovel 4½ in. wide, five heavy strong cultivator teeth, improved design, attached to the revolving head, one mulcher-pulverizer 6¼ in. Selected bent oak plow grip handles, easily adjusted to the height of the operator. Finished in red, meadow green and black, varnished. The Midget seeder can be easily attached on the revolving center casting.

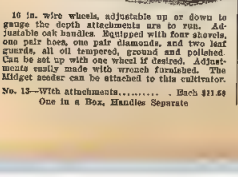
No. G2—With attachments.....Each $7.00
One in a Crate, Handles Separate



16 in. wheel with 1½ in. tire. Attachments consist of one plow, three steel shovels, one H12 and one LU hoe.

The frame is very stiff and rigid and performs good work. Handles are oak with bent grips, varnished. Metal parts finished green and black.

No. WH12—With attachments.....Each $6.50
One in a Box, Handles Separate



16 in. wire wheels, adjustable up or down to gauge the depth attachments are to run. Adjustable oak handles. Equipped with four shovels, one pair hoes, one pair diamonds, and two leaf guards, all oil tempered, ground and polished. Can be set up with one wheel if desired. Adjustments easily made with wrench furnished. The Midget seeder can be attached to this cultivator.

No. 13—With attachments.....Each $11.50
One in a Box, Handles Separate

HAND GARDEN CULTIVATORS

18 and 14 in. steel wheels, rear wheel can be raised or lowered, adjustable handles, equipped with 3 cultivator teeth, hoe, sweep, furrow shovel, reversible bull tongue and wrench. The two side standards may be taken off or removed to the rear of the center standard

No. 48—With attachments.....Each $5.50

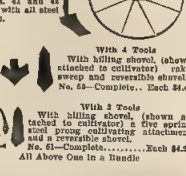
Oak wood handles, 24 in. steel heavy oval spoke wheel, balanced frame with the center of draft above and forward of the center of the wheel, insuring light draft. The slotted foot permits of changing the draft to suit different soils. Handles can be raised or lowered. Equipped with special tools as noted below, which are easily attached with wrench furnished

With 4 Tools

With hilling shovel, (shown attached to cultivator) rake, sweep and reversible shovel.
No. 43—Complete...Each $4.36

With 3 Tools

With hilling shovel, (shown attached to cultivator) a five spring steel prong cultivating attachment and a reversible shovel.
No. 42—Complete.....Each $4.70



Same construction as Nos. 43 and 42 except with all steel handles.

With 4 Tools

With hilling shovel, (shown attached to cultivator) rake, sweep and reversible shovel.
No. 58—Complete.. Each $4.60

With 3 Tools

With hilling shovel, (shown attached to cultivator) a five spring steel prong cultivating attachment and a reversible shovel.
No. 61—Complete.....Each $4.98

All Above One in a Bundle

FIVE PRONG CULTIVATOR ATTACHMENT

For use with any standard garden plow or cultivator. Five ¾ in. spring steel prongs bolted to malleable head, detachable.

No. 6—Complete with connection. Per dozen $11.00
Packed as Ordered

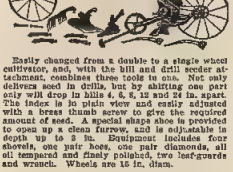
HAND GARDEN CULTIVATORS

Easy Garden Raiser

A cultivator, mulcher and weeder in one tool. Has eight blades set in a revolving reel, which break up the surface crust and work in combination with the rear stationary knife to pulverize the soil. Also has a thin, underground knife with an edge on each side, which cuts through the soil 1 to 1½ in. deep, kills every weed and scatters the revolving blades to grind up the soil. Leaf lifters on side, made of heavy wire, protect plants from injury. The 3 prong cultivator shovels are curved and crowned for easy penetration and stay in the ground. Are adjustable and removable. Operates easily and quickly. Frame is made of steel, galvanized finish. Made in two sizes complete with stationary underground knife, three adjustable cultivator shovels, and two heavy wire leaf lifters.

No. 8½—8½ in. wide. . . . . Each $9.00
No. 10½—10½ in. wide... . . . Each 9.83
One in a Box

HAND SEEDER AND CULTIVATOR



Easily changed from a double to a single wheel cultivator, and, with the hill and drill seeder attachment, combines three tools in one. Not only delivers seed in drills, but by shifting one part only will drop in hills 4, 6, 12 and 24 in. apart. The index is in plain view and easily adjusted with a brass thumb screw to give the required amount of seed. A special shape shoe is provided to open up a clean furrow, and is adjustable in depth up to 3 in. Equipment includes four shovels, one pair hoes, one pair diamonds, all oil tempered and finely polished, two leaf-guards and wrench. Wheels are 15 in. diam.

No. 9—With attachments... .....Each $22.50
One in a Crate, Handles Separate

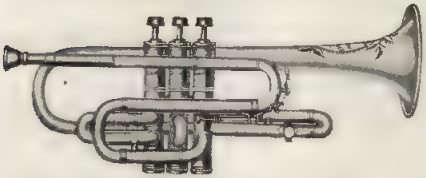
American Professional Band Instruments

Noted for Quality—the Choice of Professionals

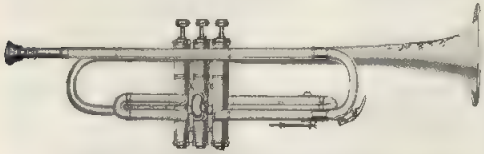


LONG MODEL CORNET—Bb QUICK CHANGE TO A

This professional long model cornet possesses tonal beauty and easy playing qualities to a degree far in excess of the ordinary model. It is built in B-flat, with quick change to A. The German Silver valves are of star construction, carefully ground. The top valve buttons are of pearl. Each cornet comes with music rack and silver plated mouthpiece. The length is 16¾ inches; the diameter of bell is 4½ inches; weight is 2¾ lbs. Your choice of two finishes. Distinctive high quality throughout.

9K70162 Highly Polished Brass Finish. PRICE..... **$48.50**

9K70163 Heavily Silver Plated, satin finish, inside of bell gold plated and hand burnished. PRICE..... **65.00**



AMERICAN PROFESSIONAL Bb TRUMPET

This is the American Professional Trumpet built in Bb with quick change to A, the same model as offered in the complete trumpet outfit. Its lines are graceful and symmetrical, its tone is rich, flexible, penetrating. Many players wonder how such a fine trumpet can be sold for the low price asked. The valves are of finest hard German silver, resulting in extremely easy valve action, low pitch, pearl top valve buttons. With it, we furnish a music holder and silver plated mouthpiece. Length 22½ inches; diameter of bell 4½ inches.

9K70381 Highly polished brass trumpet. PRICE..... **$49.00**

9K70382 Heavily silver plated, satin finish, inside of bell gold plated and hand burnished. PRICE..... **65.00**

AMERICAN PROFESSIONAL TRUMPET C, Bb AND A

As this trumpet is built in the Key of C, low pitch, you can play violin or piano music without transposition; quick slide changes to Bb and A. The top valve buttons are of pearl. Complete with music rack and silver plated mouthpiece. Length is 22½ inches; diameter of bell, 4½ inches; weight is 2¾ lbs. Your choice of two finishes.

9K70164 Highly Polished Brass. PRICE..... **$54.00**

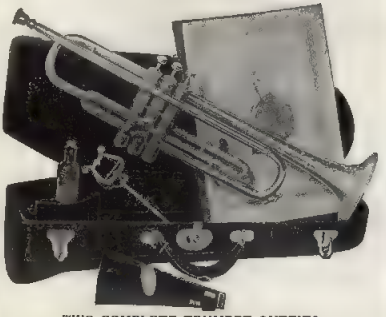
9K70165 Heavily Silver Plated, satin finish, inside of bell gold plated and hand burnished. PRICE **70.00**

LOW PITCH AMERICAN PROFESSIONAL SLIDE TROMBONE

Perfect slide action and balance, with exceptional ease of blowing feature this model. Every position is in tune. It is distinguished with graceful proportions and careful workmanship. It is only large production that makes possible the low price. Built in low pitch, complete with music holder and silver plated mouthpiece. Length 46 inches; diameter of bell, 7 inches; weight 3¾ lbs. Your choice of two finishes.

9K70166 Highly Polished Brass. PRICE. **$35.00**

9K70167 Heavy Silver Plated, satin finish; inside of bell gold plated and hand burnished. PRICE..... **55.50**



TWO COMPLETE TRUMPET OUTFITS

Supreme Values in Your Choice of Two Models

Here is a real trumpet outfit that fills every musical need. The American Professional Trumpet used in this outfit is built with precision, in a correct design and is comparable with instruments selling for a much higher price. These instruments will be found in use in the best known bands and orchestras in the country. The reason for their popularity can be summed up in a few words—they are easy to blow, they are absolutely perfect in pitch and intonation, and they are priced within the reach of all. The tone is rich, penetrating and flexible. The lines are graceful and well balanced. The valves are made of the finest German silver, ground with greatest care. They feature a great improvement, the star style, which makes it impossible to replace the valve pump wrongly. Action is as short as it is possible to have it and still retain full size air passages through the valves. Each outfit comes complete with a high quality Kemol covered carrying case, music rack, Shastock mute, bottle of valve oil, and an understandable, illustrated instruction book. Your choice of engraved, polished brass trumpet, or a handsomely engraved heavily silver plated trumpet in satin finish with gold plated bell.

9K70168 Outfit complete with engraved brass Bb Trumpet. PRICE..... **$64.00**

9K70169 Outfit complete with silver plated and bell Bb Trumpet. PRICE **90.00**

CONVERTIBLE MELLOPHONE

This instrument can be used for parts such as French Horn, Eb Alto, Ballad Horn in C, etc. The instrument is convertible to keys from F down to C. Quality is particularly necessary in a Mellophone, owing to the number of crooks and extensions. If workmanship and materials are not the best, the instrument will not be in tune. The most skilled workmanship and the highest quality of materials contribute to the perfect tone and operation of this instrument. It is built in the Key of F, with crooks to change to Eb, D and C. The valves are made of hard German Silver with top buttons of pearl. The diameter of the bell is 10½ inches; weight is 3¾ lbs. Low pitch, comes complete with music rack and silver plated mouthpiece. Your choice of two finishes. Please order by number.

9K70170 Highly Polished Brass. PRICE. **$74.00**

9K70171 Heavily Silver Plated, satin finish, inside of bell gold plated and hand burnished. PRICE **105.00**

Buy Spring Toys Now

Let the Children Play at Gardening!

"They Look Real"

Scarcely old enough to push the tiny lawn mower, little Bobby has great fun mimicking his Dad by mowing the lawn with it

Like hundreds of other children, he is very proud of this little Arcade Toy It and his "Bow-Wow" are his constant out door companions

Made by the Tiny Arcadians

Do you do a seasonable business in the Spring? Then you cannot afford to neglect toy Garden Sets and Lawn Mowers because children always enjoy miniatures of the tools their Fathers and Mothers use.

Arcade Lawn Mowers look so like the real ones that both boys and girls are anxious to have them and the toy Garden Sets are so sturdy, they may actually be used for gardening.

Parents particularly are pleased with Arcade toy garden equipment because it teaches the children to be industrious and helpful.

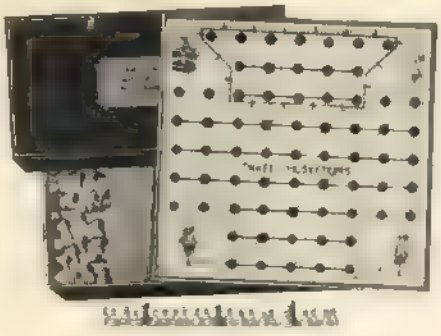
Volume and Profit always follow display of the right game

ROULETTE

A handsome edition for home playing, complete with perfectly balanced wheel, official table layout and authentic rules. The playing field is of heavy, flexible dark green material velour finish with diagram in yellow. Fine enough for the exclusive yet economical enough for the average person, this home edition of the world's most famous game offers unapproachable value. Retail $4.00.



THREE MUSKETEERS

A game of strategy for two players. Played on a folding board with fifty counters representing soldiers and three pieces representing "The Three Musketeers." This game of skill will appeal to all players through its ingenious method of play and beauty of design. Beautiful folding playing board of velour finish with imitation leather back. Size of box 19 x 9⅝. Size of board 18¾ x 18¼. Retail $4.00.

Any game to be successfully used as a headliner should have certain qualifications — popularity, newness in design or price, novelty and value. Bradley's Roulette is an ideal choice. It is a complete home edition of the world's most famous game. It is priced within the reach of thousands who never before could afford Roulette. It is so attractive in design that display will bring that much wanted volume — and profit.

There are many other Bradley games that you can well afford to display this holiday season. In fact the 1931-1932 Bradley Line shows the largest variety ever offered by a game manufacturer.

New, unusual games of skill and chance combine with attractive editions of old time favorites. A wide price range in both adult and children's games cover all gift and home needs. And in every number you have salability combined with that great essential—Profit Possibilities.

It is only logical that the first place buyers head for is Bradley's—the world's headquarters for supplying complete game departments.

BACKGAMMON

The Bradley line of Backgammon Sets is ideal for quick sale and rapid turnover. A wide range in price and style will meet all tastes and all pocketbooks. Designs, colors and construction are in line with the modern market for this old favorite. The demand of "the future greats" is for better marbles, for marbles that will shoot straight, for marbles that are round, that are perfect and of course, for marbles that are reasonably priced. Akro Agates fulfill all these demands and, in fact, go them one better in most instances. Each marble is of two colors. Each and every marble is absolutely **guaranteed perfect;** each is carefully inspected before leaving the factory. The price of Akro Agates allows attractive profits for the dealer. They are nationally advertised. Made in the following sizes.

Gifts of Beauty That Will Endure for a Lifetime

The development of the electric depositing process during the last few years has made it possible to offer these fine pieces of bronze statuary at remarkably low prices. Each statue consists of a core of everlasting material and a heavy coating of pure copper bronze—buffed, polished and lacquered in polychrome so that only an expert can distinguish it from solid bronze. The subjects are reproduced from models sculptured by accomplished artists.

Setter

N11900—SETTER AT POINT—For the true sportsman this beautiful statue will present an irresistible appeal. Finished in a statuary bronze its realistic appearance will excite comment wherever displayed. Length, 10½ inches. Height, 9 inches..... Each 11.50

Hunter

N11903—THE HUNTER—The intent, set stare of the Indian about to make a kill and the panting, straining effort of his wild pony, make this unique statue one of the most picturesque available. A beautiful gold bronze effect throughout. Length, 9 inches. Height, 6 inches..... Each 20.00

Cowboy

N11901—FANNING—This spirited statuette of a cowpuncher "fanning" his horse will bring instant attention from every lover of horses. Finished in old gold luster. Size, 3½x6½x11 inches..... Each 11.50

Young Chief

N11907—YOUNG CHIEF—Handsomely decorated and modeled table ash tray with a French amber glass insert dish. Finished in statuary bronze. Size, 8½x7½x10 inches..... Each 10.00

Dogs at Rest

N11902—DOGS AT REST—Every lover of dogs will appreciate the care with which this statue has been sculptured. The two police dogs at rest, with lolling tongues and heaving sides, gaze alertly around for some one to romp with again. Finished in statuary bronze with felt covered base. Size, 6x8x13½ inches..... Each 18.00

Wire Haired Terriers

N11904—PAL BOOK ENDS—Each of these wire-haired terriers is ready to stand alertly on guard over your choice books. Finished in natural bronze and burnished in green with bases felt covered. Size, 2¾x7x7½ inches. Packed one pair in a gift box..... Per pair 8.00

Pirate

N11908—PIRATE ASH TRAY—Here is the solution for the eternal problem of what to give the man. A handsome pirate complete from the earrings to his sagging boots surmounts a circular tray of gold finished bronze and cardinal red. In handsome green-blue and cardinal red bronze with an insert in the tray of brown glass. Equipped with two cigarette rests. A luxurious bit of statuary to brighten up the man's room, and a gift which he can actually use. Felt base. Height, 7½ inches. Width over all, 5½ inches..... Each 10.80

Rodeo Rider

N11906—RODEO RIDER—A spirited piece of sculpture is excellently reproduced in this set of book ends. Finished in new luster chrome. Bases are covered with felt. Size, 6½x2¾x9 inches..... Per pair 18.00

End of the Trail

N11905—END OF THE TRAIL—A replica of Proctor's historic statue depicting the last of the Indians on the precipice of doom. Beautifully bronzed and polychromed with bases felt covered. Size, 3x4½x8½ inches. Packed one pair in a gift box..... Per pair 17.00

Radio Ornaments and Book Ends

Elephant Radio Ornament

N11825—ELEPHANT RADIO ORNAMENT—A decorative representation of a wild elephant cast in hollow metal and finished in an effective antique green and black combination. Each foot at felt padded. Length, 10¼ inches. Height, 6½ inches. Packed each in a box.....Per doz. 18.00

Artistic Coach Models for Home Decoration

The popularity of coach models has caused eminent interior decorators to include them in their decorative specifications. No other type of decorative feature provides the satisfying dignity and refined beauty that these elegant coach models make possible.

Royal Spanish Coach Model

Authentic model patterned after the historic Spanish type of coach commonly used early in the 16th century. Entirely of wood, perfectly jointed and finished with exquisite care. Decorated in antique gold with multicolored polychrome. A beautiful model at an extremely moderate price. 16 in. long, 8½ in. high.

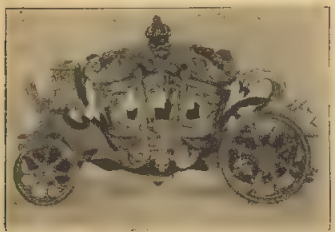
No. 106. Spanish Royal Coach Model. Each, 3.50, less 2%. Net..... **3.43**

The Covered Wagon of '49

A beautiful and fascinating ornament that recalls historical episodes of those hectic days of '49 and will arouse the interest of every one that sees it. Made entirely of wood with a real canvas top painted in several colors which reproduces the shade effects in current use at that time. 17 in. long, 10½ in. high.

No. 110. The Covered Wagon. Each, 2.50, less 2%. Net..... **2.45**

Queen Elizabeth Coach Model



A distinct English style of coach commonly used in the Elizabethan period. Its beauty and dignity promotes an atmosphere of refinement in every home having adopted a model and for those who wish the most exquisite craftsmanship, the Queen Elizabeth model will certainly meet that demand. Constructed entirely of wood finished in gold antique polychrome. Size, 19 in. long, 10½ in. high. (Complete with horses, 19.95. See below.)

No. 104. Queen Elizabeth Coach Model only. Each, 13.00, less 2%. Net..... **12.74**

Louis XIV French Coach Model

ELECTRIC LIGHTED

Said to be an exact replica of one of Louis XIV's magnificent coaches and is suggested for unique decorative effects. The design is strictly French and shows every indication of being an authentic model of that period. It is constructed of wood throughout, carefully jointed and exquisitely finished in many colored gold antique polychrome. Size, 18½ in. long, 10¾ in. high. Electric lighted model.

No. 105E. Louis XIV Coach Model. Each, 7.50, less 2%. Net..... **7.35**

Queen Elizabeth Coach Model

A rare replica of the famous Elizabethan coach of English history. Coach and horses are armored with copper, plated gold brass and hand painted, except the trimming on coach and harness, which remain gold brass. The most gorgeous coach and compares with ornaments costing several times its price.

Complete

No. 104-120. Queen Elizabeth Coach and Horses. 28¾ in. long, 11 in. high. Each, 20.35, less 2%. Net.. **19.95**

Horses Only

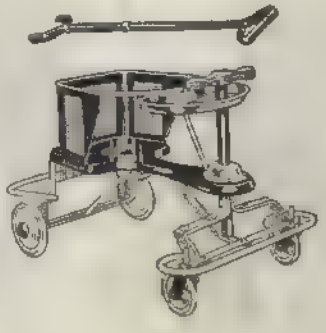
Taylor Tot Walkers



The "Standard" incorporates all the basic features which have made Taylor-Tot famous as the perfect baby walker, including the Shockproof feature. The steel pull tongue is used to form a stroller. Size—Length 22¾ inches, width 17 inches, height 16 inches. Double disc wheels with rubber tires, front wheels 3½ inches; rear wheels 5 inches. Finished in Blue.

No. 82N822. Each..... 3.35

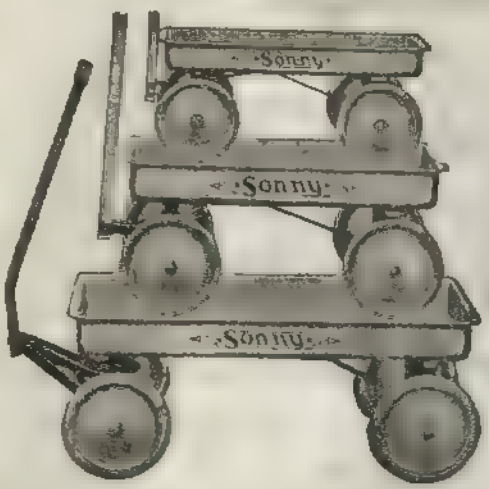
The "DeLuxe" embodies the basic baby walker features of the "Standard," plus the rigid push handle and extra-wide foot support, which together form such a handy and practical stroller. Baby's feet cannot reach the ground and drag because of the carefully planned size and shape of the foot support. Shockproof and adjustable in height. Size—Length 22¾ inches, width 17 inches, height 16 inches. Double disc wheels with rubber tires. Front wheels 3½ inches; rear wheels 5 inches. Finished in light green.

No. 82N823. Each..... 3.70

Besides performing all the duties of a baby walker and stroller, the "Sleeper" has an extending and reclining back rest which can be lowered quickly and easily so that baby can sleep comfortably. The reclining back has a pad to protect baby's head when the back is extended, this same pad acting as a cushion for baby's back when in the normal position. Size 22¾x 17x16 inches. Double disc wheels with rubber tires. Front wheels 3½ inches, rear wheels 5 inches. Finished in light green.

No. 82N824. Each..... 4.50

Wagons, Cal's Colt and Other Toys for Little Tots



Built of the same heavy steel as the larger coaster wagons, they are as strong and sturdy. One piece drawn metal beds with braces to front and rear axles makes them good for long, hard abuse. Your trade will appreciate this high quality and at the low prices they will show you a handsome profit.

Made in attractive colors and come equipped with rubber tires. These wagons are sold in original packages only.

No. 82N511. Size of body, 20½x10½x2¼ inches. Packed ½ dozen in carton.
Per dozen 8.00

No. 82N512. Size of body 25½x12x2½ inches. Packed ½ dozen in carton
Per dozen 14.50

No. 82N513. Size of body 30x12½x2¾ inches. Packed ½ dozen in carton
Per dozen 19.50

Exercise, safety, happiness, all rolled into one. This ingenious exclusive toy gives youngsters all the fun and thrills of horse back riding with none of the dangers—and in their own home. Hardwood frame, chrome vanadium flat steel spring (same as used on many automobiles) will not twist out of shape. Spring bolted through base. Reinforced seat. Head doweled to seat and braced with angle irons. Adjustable stirrups.

No. 86N267. Each 2.50

Shoofly of standard design. The horses are true to life in every detail. They are carried out in rich ivory enamel, decorated in red and black of velvety sheen. The seat, playbox and footboard are finished in soft blue. All colors are washable.

HORSE SHOOFLY SPECIAL

Plywood construction—unequalled for strength. Rockers are widely spaced for great stability and of proper slope for gentle rocking motion.

Quickly and easily assembled without the use of nails.

Length 32 inches, height 16½ inches, width 12 inches. Packed one in carton.

No. 86N268. Each 1.60

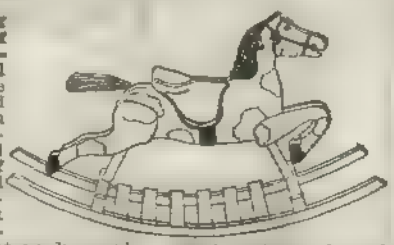
DELUXE SWAN SHOOFLY

Construction of heavy three-ply veneer, the grain of each ply running at right angles to the other, gives positive assurance against warping. A broad, roomy seat with extra high back for comfort. Safety bar

A spacious playbox, handily arranged and swivel hung to remain always upright, is also provided. Washable enamel finish throughout, the body in rich ivory decorated in orange and black, the seat, playbox and footboard in pale apple green.

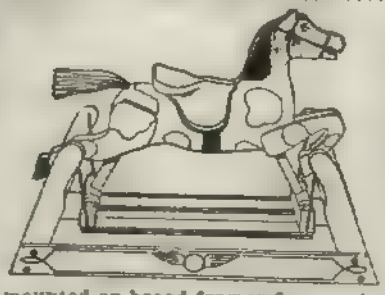
Length 32 in., height 16 in., width 12 in.

No. 86N269. Each 3.00



Coloring of chip-proof washable enamels. Full shaped saddle and firm hand holds. Each horse is mounted on a broad platform of widely spaced rockers providing abundant stability. Five-ply veneer, front rockers give greater strength and lighter weight. Their carefully considered slope and graduate rise may assure full yet gentle motion to suit child to the most timid or hardy years. Packed each in box. Length 38 inches, height 22 inches, height of saddle 13½ inches.

No. 86N270. Each 2.65



Attractively decorated in rich, washable enamels. Footrests extend full length on each side. Has metal swings, operating on cold rolled steel bearings, providing great durability and smooth easy motion. The horses are low hung and mounted on broad frames for greater stability. They are constructed of heavy Western Pine and plywood. Quickly and easily assembled by inserting two rods in frame. Packed each in box.

No. 86N271. Length 33 inches, height 24¾ inches, height of saddle, 13½ inches. Each 3.35

Bob Allan Hickory Shaft Golf Clubs

All Irons Have Drop Forged Heads

Bob Allan Clubs are low in price but high in quality. They embody many of the advantages of clubs of much higher price. The wood clubs have persimmon heads with plain faces, and selected hickory shafts with split cowhide grips. Irons have chromium plated, drop forged heads, which are far superior to the usual clubs at this price having cast heads which are subject to knicking and breaking.

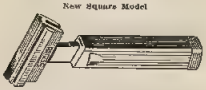
SAFETY RAZORS AND BLADES

SCHICK REPEATING

New Square Model



The Razor That Changes Its Own Blades

Twenty super sharp "Schick" blades are stored in the razor handle ready for instant service. A new sharp blade is instantly placed in the shaving head by a simple pull and push of the plunger. Not necessary to touch blade with hands. The blade is *firmly* gripped in the shaving head, eliminating vibration of the blade or edge—essential for smooth shaving. After shaving, the razor can be washed and dried without removing the blade. When new blades are wanted, a new clip is easily slipped into the handle. Gold plated frame and blade holder

No. 20. . . . . Each $5.00
One in a Box

EXTRA BLADES

No. 37. . . . . Per clip of 20 blades $0.75
Six Clips in a Box

SAFETY RAZORS AND BLADES

NEW GILLETTE

Has the following new features:

New Cap: Reinforced corners prevent damage by dropping. Blade positioning bar gives accurate alignment.

New Gillette Blades: Of new processed steel, rust-resisting and with cut-out corners which prevents "razor-pull."

Now Guard: New shape guard teeth meet skin smoothly, naturally. New shape guard channels give full shaving clearance.

No. 16R47. (Mfg No. 257) Each . **8.16**

EMERGENCY GASOLINE CANS

BROOKINS

Indispensable for carrying gasoline to cars or motor boats. A time saver for service men and customers.

Made with a flexible metal hose equipped with a tight fitting tapered plug that fits into filler at top of can, sealing the can and preventing spilling or evaporation while being carried.

A new feature of this can is the added length of hose beyond the tapered plug fitted with a screw filler tip which may be used for small openings such as vacuum tanks, outboard motors or motorcycles.

The hose reaches any inlet hole without the use of a funnel

CUP GREASE

DIXON GRAPHITE

No. 3

About the density of soft vaseline and retains its normal consistency through a wide variation in temperature.

Softer than most cup grease, because grease should flow readily into bearings and keep them cool without having to wait for bearings to heat up sufficiently to melt the grease

Combines the superior lubricating value of the best mineral oil with the simplicity and economy of hard grease

		Per Pound
1 Lb. Cans—36 in a case		$0.50
5 Lb. Pails	10 in a case	.45
10 Lb. Pails	6 in a case	.43

No. 5

5 Lb. Pails—10 in a case		.45
10 Lb. Pails— 6 in a case		.43

MOTOR GRAPHITE

DIXON

The purest and most carefully selected grade of flake graphite, ground extremely fine. Its functions are to eliminate friction and wear of parts and to increase power. Use it on cylinders, on chains, springs, tires, wheel rims, bearings and wherever friction occurs

½ Lb. Cans—36 in a case Per Can $0 75

SOLDERING PASTE

NOKORODE

Will Flux All Metals Except Aluminum

Takes the place of acid in all soldering jobs; is absolutely non-corrosive, safe as resin and rapid as acid

Not affected by heat and does not spatter or give off unhealthy fumes. It will not turn dark after using and the work has the highest tensile strength known

Size Cans	2 Oz.	1 Lb.
Wt. carton, lbs.	2	8
Per Can	$0.15	.90

2 oz cans, one dozen in a display carton; 1 lb. cans, six in a carton

MENDALL METAL

Used in Repairing Motorblock, Cylinder Heads, Crank Cases, Radiators, Pipes of All Kinds, Sand Holes in Castings, Etc.

Mends cracked auto parts in place, quicker, better, and more profitably than welding. The mend will withstand 600 degrees heat and 1200 pounds pressure. A blow torch is the only tool required. No acids or salts used and as only 250 degrees heat is required there is no danger of warping castings or spoiling the alignment. Can be used successfully on aluminum, tin, brass, copper, lead, zinc, iron or any other metal that can be heated

No. 4A Consists of one bar, packed in a round carton.... ..... Per Carton $1.00

CARBURETOR OR HEATER HOSE

CARBURETORS

KINGSTON, FOR MODEL "T" FORD

The Kingston Model L-4, one of the famous Kingston line, is the crowning achievement of the Kingston engineers. Twenty-five years of experience and research work have gone into its perfection. Four million of them are in daily use. Has an interchangeable needle head assembly suitable for any Model "T" Ford car or truck.

Will save fuel, insures quick starting and provides power-plus. Does away with carburetor troubles

Model L4—Without fuel strainer.....Each $3 00

PORTABLE DRAIN TANKS

BROOKINS

Easily shoved under car on sled like runners; sloping cover catches flow of oil. Emptied by simply turning on end

Durable Red Finish

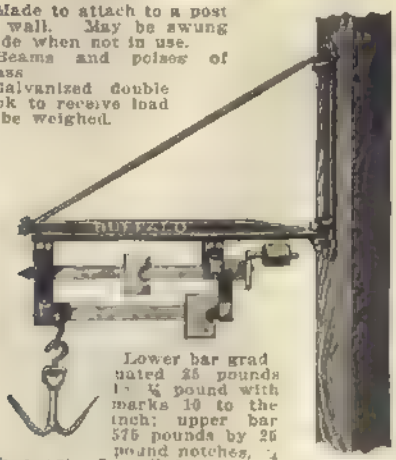
No. 450—Length 27 inches; width 11¼ inches; depth 4½ inches; capacity about 5 gallons; weight each 9½ pounds.....Net, Each $3.25

One in a box

MEAT BEAMS

*BUFFALO REVERSE ACTING

Made to attach to a post or wall. May be swung aside when not in use.
Beams and poises of brass.
Galvanized double hook to receive load to be weighed.



Lower bar graduated 25 pounds by ¼ pound with marks 10 to the inch; upper bar 575 pounds by 25 pound notches, ¼ inch apart. Overall length of iron cap 27 inches.

	Each
No. 1500—Cap. 600 lbs.; weight each 5 lbs.	$104 55

CHATILLON

Head and wall bracket of malleable iron, hangers of solid steel from which are suspended polished solid brass beams.
Bearings and pivots hardened and tempered, pressed into broached holes.
All brass parts are buffed and highly polished, other parts in battleship gray enamel.
Compact, substantially built, sanitary and corrosion-resisting. Mounted on a wall bracket and supported by a tension rod, the beam may be swung horizontally to any convenient position. Beams have marks and figures deeply stamped with sliding poises of polished solid brass.
Lower bar graduated 50 lbs. by ¼ pound; upper bar 550 pounds by 50 pounds.

	Each
No. 200—Cap. 600 lbs.; weight each 56 lbs.	$90 00

One in a box.

WAGON AND STOCK SCALES

*AMERICAN PITLESS TYPE

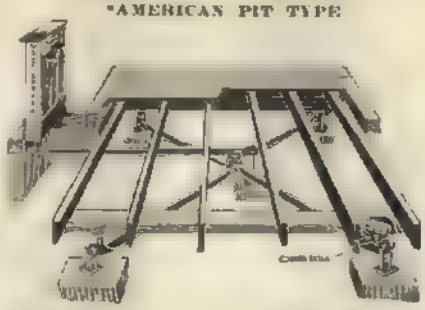
Complete with everything shown in illustration except floor boards.

Built on the five-lever plan; all levers are stationary and the jar of the load going on the scale or the vibration of the platform will not move them a particle—they always keep a true bearing and weigh correctly. Extremely wide knife edges made of very best tool steel, heat treated. Hardened ball bearings take all wear off the knife edges.

Nos.	31	36	71
Cap., tons	5	10	10
Platform, ft.	8x14	8x14	8x22
Ship. wt., lbs.	1400	2000	2700
Each	$315 00	507 00	682 50

WAGON AND STOCK SCALES

*AMERICAN PIT TYPE



Requires a pit about 28 inches deep.
Has four independent levers—one from each corner to center, and a fifth extending directly to beam. Levers are solid cast semi-steel, designed for greatest strength and rigidity, equipped with ball bearings that relieve the steel knife lever edges of all unnecessary wear. All working parts together with beam and beam box are furnished, customer supplies balance of material.

Nos.	23	46	48
Cap., tons	5	10	15
Platform, ft.	8x14	8x14	8x22
Ship. wt., lbs.	550	835	1000
Each	$183.50	304.50	375.00

WAGON AND MOTOR TRUCK SCALES

*AMERICAN SHALLOW PIT TYPE

Shows scale installed with platform view of pit, foundation, lever, steel joint, platform and beam in beam box.
Requires pit only about one-half that of regular pit scales as the 5, 6 and 8 ton require but 16 inches and larger sizes but 20 inches.
Levers are semi-steel of ample size; joists to I-beams heavy enough to carry more than capacity of scales.
Weigh beam is standard full capacity with beam box or office fixture. Easy to install.

Nos.	86	87	88
Cap., tons	5	6	8
Platform, ft.	8x14	8x14	8x14
Wt. each, lbs.	800	900	950
Each	$276 00	312 00	456 00

Nos.		89	90
Cap., tons		10	15
Platform, ft.		8x16	9x18
Weight each, lbs.		[illegible]	[illegible]
Each		$619.50	845.00

HEAVY DUTY MOTOR TRUCK SCALES

*AMERICAN PIT TYPE

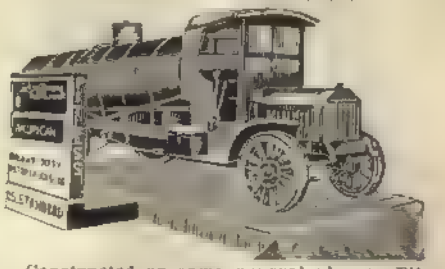
Illustration shows scale installed with phantom view of pit, foundation, lever, platform and beam in beam box.
Depth of pit varies with size of scale for 10 ton size illustrated 16 inches is required for height, bearing timber 8 inches, joists 10 inches and floor 2 inches, total depth of 34 inches. Pit must be walled up with stone, brick or cement.
Scale sets on heavy iron standards on foundations in bottom of pit and none of the weight is carried on wall. Complete illustrated directions for installing accompany each scale.

Nos.	84	85
Cap., tons	10	15
Platform, ft.	8x16	9x18
Ship. Wt., lbs	1420	1801
Each	$426.00	714 00

(*) Not in stock; will ship from factory.

HEAVY DUTY MOTOR TRUCK SCALES

*AMERICAN PITLESS TYPE



Constructed on same general plan as Pitless wagon and stock scales but built larger and very much heavier throughout; height 13 inches.

Nos.	79	80	81
Cap., tons	5	10	15
Platform, ft.	8x16	8x18	9x18
Ship. wt., lbs	2300	2500	4300
Each	$573 75	803 00	1160 25

*AMERICAN TYPE M. T.

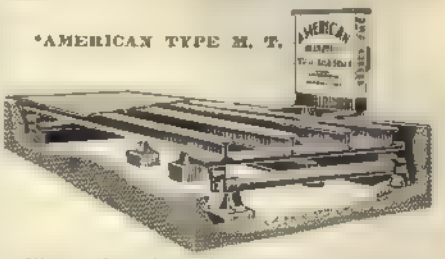


Illustration gives phantom view of how it looks set in the pit, with steel construction.
Designed to handle the heaviest kind of weighing; extra large bearing surfaces of high grade tool steel, heat treated, all bearings resting in hardened tool steel bearing seats. Levers are semi-steel castings, extra heavy.

Wood Construction

Nos.	300W	301W	302W	303W
Cap., tons	10	15	20	20
Platform, ft.	8x16	9x18	9x18	10x20
Pit to weigh beam, in.	54	48	48	42
Ship. wt., lbs	3640	3940	3940	4240
Each	$855 00	927 00	1012 50	1071 00

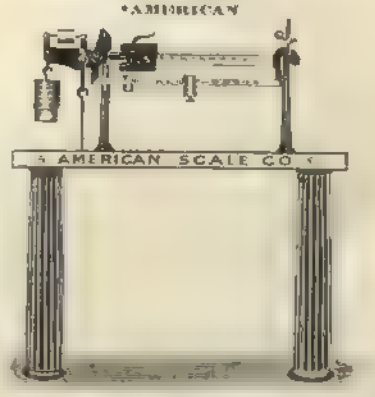
All Steel Construction

Nos.	3068	3018	3028	3038
Cap., tons	15	15	20	20
Platform, ft.	8x16	9x18	9x18	10x20
Pit to weigh beam, in.	54	48	48	42
Ship. wt., lbs	4000	4500	5700	6200
Each	$1134 00	1195 00	1309 50	1434 00

Where longer platform is wanted add $18.00 per foot for each additional foot over 18 feet in 15 ton "M. T." scale. Add $23.50 per foot for each additional foot over 20 feet in 20 ton "M. T." scale.

COMPOUND BEAM AND OFFICE FIXTURES

*AMERICAN



This beam and office fixture can be furnished, instead of regular beam box, with the various American wagon and motor truck scales shown on this page with certain variations to meet the requirements of the different sizes. Designed for extreme accuracy and convenience of operation; requires no loose weights and is easily and quickly read.

*CROSS OIL FILTERS

The Cross is designed for filtering engine and common machinery oils

Very little steam (exhaust) is required and if the filter is kept in a warm place it will not be necessary to make steam connections.

The only object in using heat is to increase the speed and capacity of the filter.

Oil cleaned by this filter is suitable for lubricating oil and not for engine oil.

Nos.	1	2	3	4
Filter'g cap. per 24 hrs., gals.	20 to 30	5 to 10	40 to 50	60 to 70
Diam. in.	18	12	24	30
Height, in.	30	26	36	54
Wt., sa., lbs.	36	22	72	163
Each	$27 60	25 00	75 00	90.00

Note—The capacity of the filter depends upon the heaviness of the oil to be filtered The above figures are the minimum and maximum capacities for the heaviest and thinnest oils

OIL SUPPLY CANS

For Carrying Oil

Made of heavy sheet steel brazed with hard brass spelter solder so that oil and grease contents can be melted over a hot fire without danger of injuring can or causing a leak.

Equipped with a screw top, bail and side handle

Dozen in a box	12	12
Per dozen	$21 00	22 50

*Not in stock, will ship from factory

OILERS

"PLEWS" FORCE FEED

The pump is of all metal construction, all parts operate in oil, no wearing out. No leather, rubber or composition plungers, diaphragms or valves.

Mechanical pressure is employed to force out the oil, will handle any grade of oil that will flow, either light or heavy—winter or summer

The shape of these oilers—the comparatively slender bodies, angle spouts, the position and size of the handles, all designed to contribute to convenience in handling and use

All spouts are lapped and soldered pattern.

Upright Spout Model

All metal action, no wear-out, lever handle makes easy pumping and assures perfect control; detachable working assembly; will pump either light or the heaviest oil—winter or summer, will feed in any position after priming; spring-actuated washer prevents any leakage past the rod; spouts, handles and working assembly copper lacquered.

All models have copper plated bodies except No. 5, which is special anti-rust finish

Nos. 5 to 45 have solid spouts. No 45D has detachable spout.

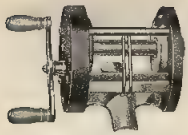
FISHING REELS

LEVEL WIND

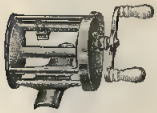


Target

Quadruple, multiplying, with side plates of Black Perma which is very light and strong and not affected by water or oil and retains a lustrous finish. Nickel plated steel pivots, phosphor bronze gears and hardened wearing parts. 90 yards capacity.

No. 12WY - .....Each $3.50

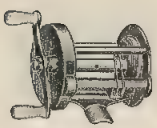
One in a Box



Level winding, quadruple multiplying with click, smooth running spool 1¾ in. wide, well balanced double handle, 2 in. plate. Capacity 80 yards. Nickel plated.

No. 300—
Each $2.50

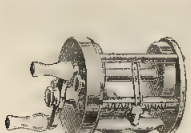
One in a Box



Level wind, quadruple multiplying with click, nickel silver throughout with highly polished linen, double white handles, bronze bearings, 1⅝ in. pillar, 2 in. side plates, sturdy one-piece reel seat, 80 yds. capacity.

No. 7237 .. ..Each $3.00

One in a Box



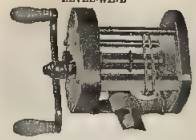
A beautiful reel, with a soft velvet finish. Cast aluminum head cap and tail plate. "S" shaped crank of double handle design, balanced for speed and weight. Bearings throughout are of highest grade, alloy metal, which gives easy action and long wear. Quadruple multiplying with phosphor bronze click.

Capacity 100 yards, diam. of plates 1¾ in., length of spool 1⅞ in., weight 6¾ oz.

No. 3005.....Each $4.25

One in a Box

LEVEL-WIND

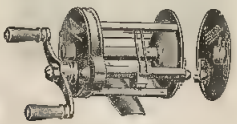


Bull's Eye

Light, strong and accurately made. The side plates are of Perma, a tough material that is not brittle. Level winding arrangement is sturdy and is protected from sand and water by hood arrangement. Gears and wearing parts hardened, with phosphor bronze removable bearings. Frame is heavily nickel plated over brass and nickel silver spool flanges and brass arbor with black side plates, 100 yards capacity

No. M100.... .. .. Each $5.00

One in a Box

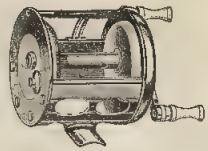


Akron

Tempered bronze gears and steel pinion and pivots, double thread shaft of selected steel, tension oil cups adjustable to any degree, line loop travels full length of spool which avoids back lash and other casting difficulties, double ivoroid handles, combination satin and polished nickel finish, 2 in. plates, 1⅞ in. wide spool. Capacity 100 yards.

No. 1893..... .. ..Each $5.00

One in a Box

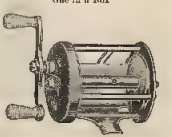


Modern

Strong frame, phosphor bronze gears, nickel silver bearings. Has a patented line carriage, all working parts are well protected against injury, dust and grit. Radiant nickel finish, highly polished. Capacity 160 yards, diam. of spool 1¾ in., length of pillar 1⅞ in.

No. 208... .....Each $3.75

One in a Box

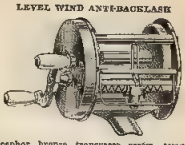


Level wind, adjustable jeweled bearings, nickel silver throughout with highly polished finish, well balanced double green handles, quadruple multiplying with click, 1⅞ in. pillar, 2 in. side plates, 80 yds. capacity. Packed in red flannel bag.

No. 7225.....Each $4.00

One in a Box

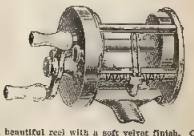
LEVEL WIND ANTI-BACKLASH



Phosphor bronze transverse screw, tempered steel shaft, combined click and drag, quadruple multiplying, double crank handle and anti-backlash. Dull nickel finish, capacity 100 yards, diam. of plates 1⅝ in., length of spool 1⅝ in.

No. 2300 .. .. Each $4.00

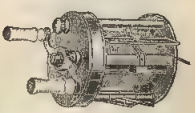
One in a Box



A beautiful reel with a soft velvet finish. Cast aluminum head cap and tail plate. "S" shaped crank of double handle design, balanced for speed and weight. Bearings throughout are of highest grade alloy metal, which gives easy action and long wear. Quadruple multiplying, anti-backlash, with phosphor bronze click. Capacity 100 yards, diam. of plates 1⅝ in., length of spool 1⅝ in., weight 5¾ oz.

No. 3100 .. .. Each $6.00

One in a Box

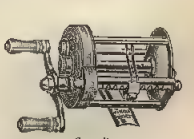


Orono

Highly silvered finish with double grip, improved rod clip of substantial construction, quadruple multiplying gear, jeweled spool caps, by simple adjustment can be converted into a straight level winding reel. Capacity 200 yards Spool diam. 1⅝ in., width 1 3/16 in., weight 9 oz.

No. 1600.. .. .. Each $3.50

One in a Box



Summit

Quadruple multiplying, nickel silver frame, phosphor bronze bearings, steel pivots, steel pinion, with genuine scarlet agate jewels. 1⅝ in. pillar, 2 in. plate. Level winding. Adjustable tension oil cup. Capacity 75 to 200 yards according to size of line. The anti-back lash mechanism is contained within the reel. "TOYS THAT TEACH"—Happy Contented Children.

NEW NUMBERS

WINNIE-THE-POOH* MODELLING SETS

These sets are ideal for children. To make modelling more interesting and instructive we give in the booklet furnished with each set a story of interest to every child, and the models shown are characters from A. A. Milne's well-known WINNIE-THE-POOH. The sets contain a generous supply of modelling material, modelling tools, and a booklet containing the WINNIE-THE-POOH story with models. In addition each set contains moulds of well known WINNIE-THE-POOH characters. Sets to retail at 50¢, $1.00 and $2.00. $1.00 set illustrated.

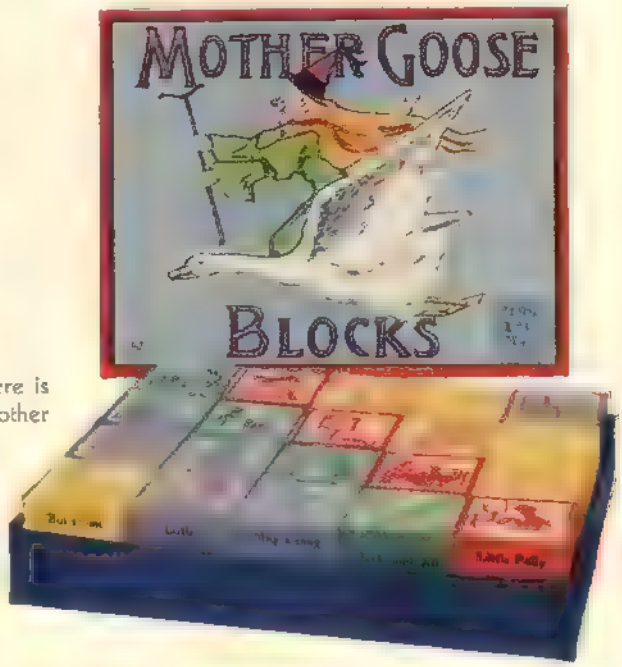
*Stephen Slesinger, Inc., N. Y., Fully Protected by Copyrights, Design Patents, Trade Marks.

No. 3111 HOUSE BUILDING BLOCKS

This is a practical house building set containing only two different shapes in addition to fire-place and chimney blocks. Therein lies the secret of simple construction and educational value. Set to retail at $2.00

No. 3105 SKY-HY BUILDING BLOCKS

Sky-scrapers of many varieties can be built in the simplest manner with this set which contains cubes and roof pieces in four sizes. Unique centering feature for piling. Set to retail at $2.00



No. 92 MOTHER GOOSE BLOCKS

The excellent sale on this item in 1930 indicates that there is a big demand for a high grade set of Toy Blocks with Mother Goose illustrations and rhymes. This set contains twenty 2-1/8" cubes embossed and printed in six colors. Each block contains a Mother Goose rhyme with the ends embossed with illustrations of the Rhyme. Sanitary washable finish. The sets are furnished in a cardboard box as shown in illustration, also in a substantial colored wagon. The set illustrated retails for $2.00

"TOYS THAT TEACH"—A Toy Department in Itself.

NEW AND POPULAR NUMBERS

ANAGRAMS is fast becoming the most popular game in the home, due no doubt to its educational advantages. Our aim in designing our sets was to offer the ideal color arrangement — black and yellow — proper size and style letters, and an embossed back so that letters could not be distinguished. Offered in three popular selling sets as follows: No. 3015 containing 90 3/4" pieces to retail at 50¢, No. 3103 as shown in illustration containing 180 3/4" pieces to retail at $1.00, and No 301 containing 150 15/16" pieces to retail at $1.00.

FIRST STEP COLORED PLAY BLOCKS

As the name indicates this type of toy should be given to the child first. The sets contain blocks in the six prismatic colors, and we teach colors and simple designing. They are made cubical by pressure so that they will pile easily and not topple over. The coloring is non-poisonous covered with the best quality varnish. Sets to retail from 50¢ to $2.00.

MODERN "TOYS THAT TEACH" BLOCKS

Each set has six educational features and is really six toys in one. The sets are furnished to retail at a few prices from 10¢ to $2.00, and the popularity of Modern Blocks is already well established. See catalog for detail of features.

POPULAR TOY BLOCKS

A new line of popular priced toy blocks to retail from 10¢ to $2.00. Very attractive sets with carefully selected embossed and printed features. Plain distinct letters and illustrations which are right for children.

The items in this insert are but a portion of our lines. For description of our complete lines, send for our latest catalog and price list.

CARBIC FLARE LIGHTS

The secret of the success of the Carbic system lies in the fact, Carbic—a compressed form of highest grade calcium carbide. The use of this product insures a slow, even generation of gas, and regardless of the rate of consumption, the gas generated is cool and of exceptional purity, insuring a clear, white, smokeless flame of great illuminating power and eliminates the clogging of burner tips and sooting of reflectors. Each cake of carbic costs as a guaranteed number of cubic feet of gas, thus eliminating the necessity attending the operation of conventional lights using ordinary carbide—of weighing or measuring out carefully, or guessing at the quantity of carbide necessary to operate for any desired length of time.

The operating cost of Carbic lights per hour is much lower than those using the ordinary loose carbide.

No. 2

No. 15

Standard Style

For general all around requirements. Light weight, portable, and can be charged in less than 3 minutes to burn 12 hours without any attention whatsoever. Strongly built for severe usage. Special swing joints are so placed that the reflector can be swung down to the side as shown, in out, or to any horizontal or vertical angle desired.

Height: Reflector up 6 ft. 7 in., reflector down 3 ft. 9¼ in. Diam at base 14 in., reflector 18x6 in. Charge—1 to 4 No. 20 cakes of Carbic, burns 12 hours. Weight, empty 36 lbs., charged 115 lbs. 4000 candle power.
No. 2 .....Each $72.00

Smaller size than No. 2, but produces a very penetrating light. Vertical swing joint permits adjustment of the reflector to any desired angle. Horizontal adjustment can easily be made by turning entire light to proper position

Height: Reflector up 5 ft. 11 in., reflector down 3 ft. 3½ in. Diam at base 12½ in., reflector 12x6 in. Charge—1 to 2 No. 20 cakes of Carbic, burns 9½ hours. Weight, empty 25 lbs., charged 81 lbs. 2000 candle power.
No. 15.....Each $60.00

No. 3

Double Burner

Double burner arrangement permits use of one or two burners at a time. Each burner and reflector are the same size and capacity as on No. 2. Swing joints are arranged to provide both vertical and horizontal adjustment of the reflectors without moving the light itself. Can be charged in a very few minutes and will operate both burners continuously for twelve hours or a single burner for twenty-four hours without attention

Height: 6 ft. 7 in., weight, empty 79 lbs., charged 209 lbs. Diam. at base 14 in. Reflectors 18 in. diam. Charge 1 to 8 cakes No. 20 Carbic. 16000 candle power
No. 3.....Each $98.00

CARBIC FLARE LIGHTS

Cadet

Extensively used by fire departments, railway wrecking crews, mines, etc., requiring extreme portability. Easily carried by one man, and equipped with water-tight cover to prevent splashing of the water from the tank. Beam of light projected is capable of penetrating fog, smoke and steam to a remarkable degree. Swing joint at top permits reflector to be swung out to any vertical angle.

Height. Up 4 ft. 7⅝ in., down 3 ft. Reflector 10x4 in.

Automobile Ornaments and Clocks

Radiator Emblems, Radiator Caps and Decorations That Add Distinctive Touch to the Appearance of a Car

A source of added profit for any accessory department or car show-room.

A page of those little extra refinements that car owners like to add to the appearance or equipment of their cars to mark their pride of possession. Such items will add a snappy seasoning to any accessory stock; and these are picked particularly for their immediate appeal.

Greyhound Radiator Cap Ornament

This is an exceedingly popular and fast selling ornament. So clearly does it typify the speed and grace of the modern cars that its aptness quickly appeals. Besides, the beauty of design and bright finish add a striking note to the appearance of a car. It is 8 inches long, over all, and weighs 3½ ounces. Solid one-piece white brass casting, with stem.

No. 218. Chromium Finish. List price, $1.25. Each **63c**

Universal Radiator Locking Cap

This cap adds a touch of beauty to the front of a car along with the security and certainty that the radiator cap cannot be lost off. Makes theft-proof mounting for motometer or ornament. Interchangeable to fit all cars.

No. 301. Chromium finish. List price, $1.50. Each **65c**

Surety Lock Gas Cap

A cap that cannot be lost off the gas tank neck is just as necessary as on the radiator. Here is one that will fit 90% of the present-day cars.

No. 303. Chromium finish. List price, $1.50. Each **65c**

Winged Indian Runner Radiator Cap Ornament

Here is a highly artistic design with immediate appeal to those who know and appreciate the modern trend of design and form in art. This winged figure poised as for flight emphasizes the streamlined grace of modern car designs. The figure is strong, solid, cast in one piece, of white brass, with stem. Stands 6¾ inches high and weighs 10 oz.

No. 213. Bright Chrome Finish. List price, $1.50. Each **68c**

New Haven Auto Clocks

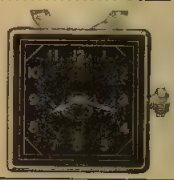
Compensated for Temperature Changes

Rear View Mirror with Clock

The two-fold convenience of time-telling and a rear-view outlook combined in one attractive fixture is offered here. The clock is a reliable timepiece with 30-hour New Haven movement, built specially to stand vibration and temperature changes of car travel. Modern square-front dial design fits shape of the mirror and harmonizes with the handsome interiors of cars today. Fine beveled plate mirror of gunmetal, non-glare mirror glass, size 2½x7 inches; fits ordinary mirror bracket

No. 1001. New Haven Rear View Mirror Clock. List price, $3.50. Each **2.10**

"Ascot" Dash Clock



Here is an up to date fitting for the modern car interior, and an up to the minute timekeeper as well. Fitted with reliable New Haven 30-hour movement designed especially for the stress of travel. Chromium finished case, 2½ in. square with novel dial design. Stem wind and set.

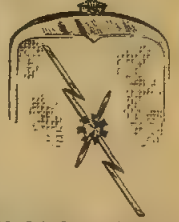
No. P4759. Plain Dial. List, $2.50. Each **1.50**

No. R3428. Radium Dial. List, $3.50. Each **2.10**

Propeller Radiator Cap Ornament

Motion, action, the flash of whirling blades, and the sparkle of color from the jewel, all catch the eye. That interest, with the timeliness of the design in this air-minded day, make this ornament exceedingly popular and quick to sell. This ornament is strongly constructed to stand the stress of its own motion and the vibration of road travel. It is cast from white brass; moving part runs free and quiet on ball bearings. Complete with bracket and bolt. 7½ in. diam., weight 11 oz.

No. 201J. Chromium Plated, with ⅝" colored cut jewel on front. List price, $2.00. Each **65c**



Lightning Streak

This ornament adds a decorative touch emblematic of swift power to the otherwise plain front of any car. 18 inches long, with bright chromium finish. Complete with rods, bolts and washers for fastening to radiator case.

No. 275. Lightning Streak only Weight 4 oz. List price, 75c. Each **34c**

No. 276. Lightning Streak and Propeller. Wt. 14 oz. List, $1.75. Each . . **1.10**

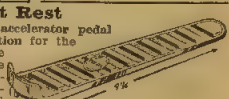
Nuart Radiator Locking Cap

This serves the double purpose of a permanent, loss-proof cover for the radiator neck and an ornament as well. The rich, engraved design with its heavy, triple chromium finish is in harmony with the design of any modern automobile. It is made interchangeable so that it can be used on any radiator neck, whether the regular cap is screw-on or slip-on type.

No. 185. 3-inch diameter, 1⅛ in. high; weight 11 ounces. List price, $2.00. Each **70c**

Eez-Zee Foot Rest

This foot rest for the accelerator pedal affords a comfortable position for the driving foot as well as a sure and even pressure on the gas control. Especially helpful for women drivers, giving confidence of sure-footed control of car speed besides ease of foot position. Can be fastened in any position, making accelerator within easy reach



No. 250. Polished, nickel plated white brass. 9¼ in. long, 12 ounces. List price, $1.00. Each . . . **53c**

The W Bingham Co

CIGAR LIGHTERS

CASCO-LITE

Standard

The most beautiful popular priced cigar lighter on the market. Equipped with 72 in. of cord and will reach any part of the car. Absolutely fool-proof. Can be used as a trouble lamp by replacing heating element with the dash bulb. Can be mounted with the new universal bracket in a jiffy, or by drilling through the dash. Guaranteed for one year against defective workmanship and material. Finished in maroon crystal and bright silver nickel.

No. 630-6V—6 volt . . . . . Each $2.50

One in a Box

REPLACEMENT HEATING ELEMENTS

Fits No. 630 Lighters.

No. 68—6 volt . . . . . Each $0.50
No. 68A—12 volt . . . . . Each .50

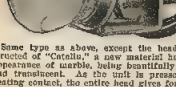
KEYSTONE CORDLESS

Quick red hot light obtained by merely pressing the bakelite bowl. Full cue to light cigar or cigarette and pass around. Clamps to any part of dash or steering post by means of a special made bracket. No holes to drill. Connects easily to ammeter terminal. Genuine bakelite bowl with special process lacquered bracket.

No. 135 . . . . . Each $1.25

One in a Carton

CASCO VISOLITE—CATALIN HEAD



Same type as above, except the head is constructed of "Catalin," a new material having the appearance of marble, being beautifully mottled, and translucent. As the unit is pressed in for heating contact, the entire head gives forth a red glow—shows when the unit is red hot, ready to take off for lighting cigar or cigarette. For wood or metal instrument board

No. 486 . . . . . Each $4.00

For Model A Fords

No. 486A . . . . . Each $4.00

For 1929 Buick

No. 486B . . . . . Each $4.00

For Mounting Through Instrument Board

No. 486M . . . . . Each $4.00

One in a Carton, 25 in a Standard Package

EXTRA HEATING ELEMENTS

For All Above Casco Lighters.

No. 53—6 volt. . . . . Each $0.50

CIGAR LIGHTERS

CASCO VISOLITE—BAKELITE HEAD

A new, different and superior wireless cigar lighter. The knob in the head shows when the unit is hot and ready to light cigar or cigarette. No danger of overheating. Prevents withdrawal before unit is hot. The unit, being in a recess, heats more quickly and holds the heat longer. The appearance of the genuine Bakelite head with nickel trim is unique and attractive. The setting is perfect—just press in the red glow shows through, the lens removes head to light smokes. Heat lasts for several lights. For wood or metal instrument panel.

No. 530 . . . . . Each $3.00

For Mounting Through Instrument Board

No. 530D . . . . . Each $3.00

Same style as No. 600 with bracket for installation on the steering column of the model A Ford car.

No. 600A . . . . . Each $3.00

One in a Carton, 10 in Standard Package

EXTRA HEATING ELEMENTS

For Nos. 600 and 600A lighters.

No. 60 . . . . . Each $0.50

CASCO DISAPPEARING ASH RECEIVER WITH WIRELESS LIGHTERS

This new Casco disappearing ash receiver in combination with Casco wireless cigar lighters makes an ideal complete smoker's outfit for the motorist. When not in use the ash receiver is under the dash, out of the way and out of sight; the small knob only is visible. To use, a slight pressure on the knob brings the ash receiver out to a convenient angle, within easy reach of the smoker. Again—a slight pressure on the bowl of the ash receiver and it slides back into its place under the dash. The motion is actuated by a small spring which holds the receiver rattle-proof in both positions.

You do not have to pound out your cigarettes, the air-tight baffle plate automatically smothers it, and further prevents any odor or possible litter of ashes.

This ash receiver is made in combination with Casco wireless lighters as follows

Combination ash receiver and No. 480 Casco Vis O-lite.

No. 1480 . . . . . Each $5.00

Combination ash receiver and No. 530 Casco Vis O-lite.

No. 1530 . . . . . Each $4.00

Combination ash receiver and No. 600 wireless lighter.

No. 1600 . . . . . Each $3.00

One in a Carton, 10 in a Standard Package

EXTRA HEATING ELEMENTS

For All Above Casco Lighters.

No. 53—6 volt. . . . . Each $0.50

AUTO CLOCKS

THE EMBASSY

The very latest word in automotive timepieces and the most popular model today in this six-jewel "Embassy" auto watch. No cutting tools needed to install it. A few turns of your screw driver fastens it over the wind shield where all may see.

Finish—Heavily nickel plated.
Dial—Radium numerals on black porcelain.
Diameter—2½ in., ⅝ in. thick.
Movement — 6-day, rim-winding, rim-setting, 6-jewels—2 adjustments.

No. 1560 . . . . . Each $16.50

One in a Box

Rich Butler nickel finish—handsome in design and modern to the minute, inexpensive—fits any car, either above the windshield or on the dash. To wind and set the clock, merely tilt it on the hinged bracket as illustrated. Screws for attaching are included.

No. 250—Plain dial . . . . . Each $2.50
No. 350—Luminous dial . . . . . Each 3.50

One in a Box

ELECTRIC

Ingraham

Made of the very best materials. The electric winding unit keeps the clock properly wound at all times. Can be installed on either the steering post with two bolts and bands furnished or to the body of car (usually above windshield), with the two screws through the cast metal bracket. When featured, attach either wire to positive wire on battery, ammeter, electric windshield wiper, cigar lighter, etc., and the other to any convenient ground, whereupon the clock starts running. Clock is easily regulated and set. Finished in chromium plate and guaranteed for one year. Furnished complete with wire, ready to install.

No. 7565 . . . . . Each $7.50

HOW FUSES PROTECT

A dark country road—stormy weather perhaps—and lights go out—

You know the dangers that lurk in the dark—car off the road, smash-up, injury—perhaps death.

It's like driving blind to drive without lights.

A spare Union Fuse will remedy the situation easily and quickly. The convenient box of 5 should be carried in every car, always available when needed.

In the daytime, too, Union auto fuses protect the expensive electrical units of the car—the storage battery, the starter, the generator, the wiring—even the car itself by preventing fires.

Chinese Cloisonne Makes the Ideal Gift

IMPORTED FROM THE ORIENT

The history of Cloisonne is perhaps the most interesting of all the ancient arts of the Orient. It dates back to the court of Kublai Khan, A. D 1275—an age of glittering splendor.

Emperor Ching T'ai, A. D 1450-1458, patron of this art, gave personal attention to the workshops and from him Cloisonne takes its name It was first called "Chung-T'ai-Lan" thus, Cloisonne held imperial prestige. Its manufacture and use was restricted until 1911 by royal edict.

Chinese Cloisonne is all hand made and comes in assorted colored backgrounds in a choice variety of floral designs and colors.

Ash Tray. Diameter, 2⅝ inches.

Games and Roulette Wheels

Electric Miniature Base Ball
Operates with Pennies

A fascinating game that has an irresistible appeal. A battery of five machines or more will result in bigger profits than anything ever put on the market. Be the first to take advantage of this entirely new machine.

Green electric light flashes and electric buzzer rings for one base hits.

Blue electric light flashes and electric buzzer rings for two base hits.

Red electric light flashes and electric buzzer rings for three base hits.

White electric light flashes and electric buzzer rings for home run.

Lights and buzzer operate from small C battery that will last many months. No wall socket needed. Worked anywhere at any time.

The flashing of the colored electric lights and the ringing of the electric buzzer captures the attention of everyone within hearing and this multiplies earnings three and four times to one. It is practical and profit as the machine costs very little and it pays for itself within a day or two.

STORE LADDERS

COBURN ROLLING

Selected hard wood, iron work finished with aluminum bronze. Ladders are 16 in. wide cut side. Sides 2 in. wide and treads 6½ in. wide.

Straight slant ladder, with solid sides

Hard Pine

No. 1-P.....Each $18.00

Oak

No. 1-O.....Each $22.00

EXTRAS

Wood Pole Track—
Including brackets .....Per foot $0.30
Rubber Tires .....Per pair 1.60

NOTE—When ordering No. 1 ladder, give height from floor to top of ledge, (A to B) also width of ledge, and height of shelving from B to C and C to D, or top of shelving, exclusive of top moulding strip.

If wanted with boat sides, advance list on both Nos. 1 P and 1 O—$2.00 each.

Boat slant ladder with solid sides.

Hard Pine

No. 3-P.....Each $20.00

Oak

No. 3-O.....Each $24.00

Wood Pole Track—Including brackets Per ft. $0.30

Rubber Tires—
Per pair 1.60

NOTE—When ordering No. 3 ladder give height from floor to top of ledge.

This boat ladder can easily be removed from the track, which makes it adaptable particularly for vaults, file rooms, linen closets and small spaces where more than one ladder would be objectionable. By having separate tracks, all four sides of a room can be served with one ladder.

Hard Pine

No. 5-P.....Each $14.00

Oak

No. 5-O.....Each $18.00

EXTRAS

Wood Pole Track—
Including brackets .....Per foot $0.30

NOTE—When ordering No. 5 ladder give height from floor to top of ledge, and from ledge to top of shelving, exclusive of top moulding strip.

If ladder with straight sides is wanted, deduct $2.00 from above list.

COBURN ROLLING

Selected hard wood iron work finished with aluminum bronze, adapted to stores where heavy merchandise is handled. Ladder is 15¾ in. wide outside. No. 1 Coburn trolley track and brackets are used. Track regularly furnished in 4, 5 and 6 ft. lengths, but can be furnished any length up to 10 ft. Brackets should be spaced not over 6 ft. apart. For plaster ceilings, ceiling strips should be used.

Straight slant ladder, solid sides

Hard Pine

No. 9-P.....Each $30.00

Oak

No. 9-O.....Each $34.00

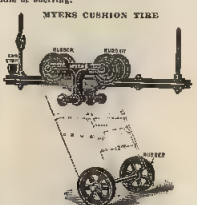
EXTRAS

Trolley track, including brackets

No. 1.....Per foot $0.30
Curved trolley track, including brackets
No. 1 Curved .....Per foot $1.00
Rubber Tires only.....Per pair 1.60

NOTE—When ordering No. 9 ladder give exact distance from floor to ceiling at both ends and middle of shelving.

MYERS CUSHION TIRE



Ladder is constructed of the best clear Georgia pine, nicely finished and varnished, showing the natural wood. Has open panel sides, 6 in. wide. Steps have 6½ in. tread. The ladder measures 12 in. overall in width.

The track is double angle steel rail, and is sus pended from ceiling by means of lag screws either jointed or rigid, or by flanged plates and wood screws.

The trolley is self-adjusting, fitted with turned steel bearings and 3 in. anti-trailer wheels, turned and bored on lathe and fitted with special rub ber tires.

The floor travelers are 5 in. in diameter, com posed of metal sides with rubber cushion tires clamped in such a position as to be impossible to get off or come loose. These wheels are placed on a steel axle.

Ladder and Trolley—For ceilings 14 ft. or less in height, complete.....Each $29.00

For each additional foot or fraction thereof, add to above list $1.50 per foot.

EXTRAS

Track—Complete with hangers every 36 in.
Per foot $0.40

Standard length hooks are 6 in. from track to joint. For extra length hooks add for each inch over 6 in. 15c per dozen.

NOTE—When ordering Myers ladder, give the exact height of the ceiling and the length of each track, and all the fitting will be done at the factory. If the height of the ceiling varies, give the height of ceiling at each end and center of each run of track.

RICHARDS-WILCOX

Selected oak or pine wood. Oak ladders finished in dark golden oak. Pine ladders are filled and varnished. Can match any woodwork by submitting sample. Straight ladders can be set close to shelving when not in use. Bent ladders have roller bearing wheels running on half-round ledge track.

Price includes standard length ladders up to 14 ft., complete with top and bottom fixtures. Track not included.

GASOLINE LAMPS AND LANTERNS

COLEMAN'S NEW INSTANT-LITE

These lamps and lanterns light instantly, no preheating required. They make and burn their own gas from ordinary gasoline. Produce 200 to 300 candle power light, according to pressure used.

The new Roto-Type burner has an extra large oversize generator providing more space for carbon, insures longer life and improved service.

Generator is equipped with gas tip cleaning needle, which provides an easy, quick and sure method of cleaning the gas tip either before or after lighting. Generator and cleaning needle are only parts that need to be occasionally replaced. All other mechanical parts for operating the cleaning needle are built in as a part of the burner.

Brass fount is equipped with hand-operated filler plug.

With Separate Air Pump

Fount and handle finished in new brown-gold Colac stippled [illegible] Equipped with new Roto-type burner No 443 Kremelite [illegible]

GASOLINE IRONS

COLEMAN INSTANT LIGHTING

Coleman Self Heating Iron. Lights instantly—no preheating. Double pointed nickel plated base highly polished, nickel plated steel lid and handle frame. Blue enameled wooden handle and blue porcelain enameled body to match—unusually attractive. Fount and valve unit constructed of brass throughout. Fount fuel capacity ½ pint.

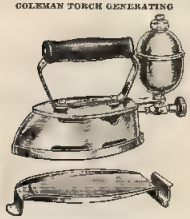
Has brass generator with self-cleaning tip. Burner extends full length of the iron heating the entire bottom with the point the hottest. Two-piece ventilated lid prevents tarnishing and keeps handle cool. Heat can be regulated for light or heavy work.

Sixteen square inches ironing surface, perfectly balanced for easy ironing.

Complete with stand, pump wrench and measuring can. Overall dimensions: 5⅜ in. wide by 10¼ in. long by 6½ in. high. Net weight filled 6½ lbs. Shipping weight each approximately 8 lbs.

No. 4.....Each $8.75
One in a Carton. Twelve in Shipping Case

COLEMAN TORCH GENERATING



Coleman Self-Heating Iron—torch generating. Double pointed nickel plated base highly polished; nickel plated steel lid and handle frame. Green enameled wooden handle and green porcelain enameled shell to match. Fount and valve unit constructed of brass throughout. Fount fuel capacity about ½ pint.

Has heavy-duty brass generator with self-cleaning gas tip. Burner extends full length of the iron, heating the entire bottom with the point the hottest. Two-piece ventilated lid prevents tarnishing and keeps handle cool. Heat can be regulated for light or heavy work.

Sixteen square inches ironing surface. Perfectly balanced for easy ironing.

Complete with stand, pump wrench, alcohol bottle, torch and funnel. Overall dimensions: 5⅜ in. wide by 10½ in. long by 6½ in. high. Net weight filled 6½ lbs. Shipping weight each, approximately 8 lbs.

Scene-in-Action Electric LAMPS

Beautiful Natural Colors that Actually Move

Low Priced!—SOMETHING DIFFERENT IN A TORCHIER—Fast Selling!

MARINE SCENE

New and original. You see a ship with full sails plowing through the water with waves splashing against the sides and prow. A lighthouse blinks its signal to ships that "pass in the night." It gives you a day at sea in your own home.

No. 2000. Marine Lamp Each **3.43**

NIAGARA FALLS

Fascinating, beautiful and decorative. An exact reproduction of Niagara Falls. It shows you the water majestically pouring over the Falls and the mist and spray floating gently through the air. Very realistic.

No. 2004. Niagara Falls Lamp. Each .. **3.43**

Combination Action Lamp and Aquarium

Novel lighted aquarium on action-lamp pedestal with scene of submarine life. 2 gallon bowl, lighted through crystal rock bottom plays colors on fishes. Equipped with metal base, bulb, switch and cord and plug.

No. 30. Action-Lamp Aquarium Each **4.41**

FOREST FIRE

Not only an action lamp but an incense burner. Every one has a concealed incense cup in its top. Ingenious creation of lighting effects shows a raging forest fire dooming everything in its path. Stately pines are consumed; smoke clouds pour up—all in action.

No. 2003. Forest Fire Lamp. Each **3.43**

MOONLIGHT

A romantic masterpiece showing a peaceful night in a tropical moonlit bay with shimmering glistening water. Has a hypnotic effect of which you never tire. Complete with incense burner, bulb, cord and plug.

No. 2002. Moonlight Lamp. Each..... **3.43**

The SERENADER

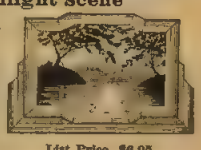
List Price, $6.95

These latest creations of unusual lighting effect have a universal appeal. The SERENADER is one of our new deluxe models that has distinction and uniqueness. Illuminated from behind and even without motion would attract by its beauty. The action gives a sparkle of animation. The SERENADER is created from beautifully molded white metal, finished in antique bronze and gracefully set off by a panel of ground edged glass. It pictures a dreamer's castle in the air, with a pool of glistening water. When lighted it gives forth a blend of colors never before produced. We call special attention to the fineness in design of metal and glass. If you appreciate statuary bronze, you will want this for the lifelike detail of the base. Rippling, moonlight rays, concerted with shifting shadows create untiring interest. Complete with switch, silk cord and plug.

No. 44. The Serenader Scene-In Action Lamp. Each..... **4.41**

Japanese Twilight Scene

The mechanical construction of Scene-in-Action lamps like this fascinating Japanese scene model is extremely simple. Increase the attractiveness of a room a hundredfold and immediately adds animation and beauty. May be used on the radio, on the table or anywhere to liven up a dark nook or spot. This design is one of the most fascinating home lighting effects ever created. Turning on the switch, you behold a softly lighted scene depicting the tranquil waters of a hidden lake at the base of Fujiyama in its ageless glory, as seen through the eyes of an artist traveling in the Orient. You see the silver beams of a full Japanese moon reflected by the rippling water. This delightful scene is encased in a beautiful white metal frame of strictly modernistic design, finished in antique silver. Complete with switch, bulb, silk cord and plug.



List Price, $6.95

No. 12. Japanese Twilight Scene-In-Action Lamp. Each..... **4.41**

NEW DE LUXE MODEL COLONIAL FOUNTAIN

Universal Appeal

FAST SELLING AND PROFITABLE

ONLY **4.41** Each

Scene-In-Action lamps like this Colonial Fountain deluxe model are the very latest contribution to artistry in lighting effects. It will brighten the dark corner, beautify the radio or decorate the mantel. Softly colored rays make them particularly adaptable as night lights. A few drops of perfume with an equal quantity of water will rapidly permeate an entire house. Operates on either A. C. or D. C. current.

No. 46. List Price, $6.95

A Modern Creation

Scene-In-Action lamps like this marvelous Colonial Fountain Model are new and original means of endowing beautiful pictures with color, life and movement. Beautiful in design and color, the COLONIAL FOUNTAIN'S gentle spray never fails to command intense interest. The graceful fountain continuously spouts a gentle stream of phosphorescent water, which, as it again descends, is transformed into rainbow hues of mist. Surrounding the fountain is a beautiful colonial court backed by stately columns. In the background, huge southern pines rise in splendor against a flawless summer sky. Encased in a beautiful lightweight metal frame, finished in pewter. Complete with bulb, switch, silk cord and plug.

No. 46. Colonial Fountain Scene-In-Action Lamp. Each **4.41**

Community Silverplate

BIRD OF PARADISE PATTERN

DEAUVILLE PATTERN

NOBLESSE PATTERN

THE GROSVENOR PATTERN

PATRICIAN MODERNE PATTERN

Distinguished Quality at Modest Prices

Community Silverplate has won a place of rare distinction in the homes of social leaders, among hostesses who can well afford any investment. Quality alone has placed Community Plate in so many of these discriminating homes. On your table too, Community Silverplate is a signal of good cheer and good taste.

The five charming patterns pictured above, rival the best that has ever been produced in Sterling, at a mere fraction of Sterling's cost.

Community Silverplate is unreservedly guaranteed by the makers for fifty years. In ordinary home use, it will last a lifetime. The separate pieces are priced on the opposite page in sets of six, but may be had in any quantity at the same rate.

Noblesse Design is Community's newest pattern. The other four are Community's best loved designs, all carried in open stock, all gray Platinum finish. The fancy pieces include gift boxes without extra charge.

TUDOR PLATE

ONEIDA COMMUNITY MADE—MARY STUART PATTERN—BRIGHT BUTLER FINISH

A new triumph of the Oneida Community. A new line with a 25-year replacement guarantee. Heavily plated overall with special sectional plating at the wearing points.

Baits That Are Real Fish Getters

PIKAROON MINNOW

The Paw Paw Pikaroon is a real fish getter. It has the shape and finish that fools the fish and is a sure lure for bass and other game fish. Once tried by a fisherman it immediately becomes a favorite. Attractive in appearance and has an excellent finish. Each in box.

No. 18R265. Per dozen..... 6.12

METALLIC BASS SEEKER

The Paw Paw Metallic Bass Seeker has the activity of all other plugs with a few wiggles of its own. In addition the metallic bass seeker is covered with metal flakes that reflect the light from every angle. It gives a luminous effect that is irresistible. Each in box.

No. 18R263. R. H. Red Head Silver Body.
Per dozen 7.20

HAIR MOUSE

Paw Paw Hair Mouse is the only casting mouse that looks and acts like a mouse in the water. It is made with plug base covered with deer hide with the hair left on. Waterproofed it is a surface bait and gets the fish because it is a natural food lure. Each in box.

No. 18R262. R. H. Red Head. Per dozen..... 7.20

INFALLABLE ROTAREX

The Infallable Rotarex is a lure that has both a wobbling and a rotating motion. It has been tried out by many expert fishermen and has established a reputation for itself as being an excellent killer for Pickerel, Lake Trout, Wall-Eyed Pike, Bass, Muskallunge and other game fish. Polished nickel on convex side, gold plated on concave side. Each in box.

No. 18R268/1. 2⅝x⅞ inch blade. Per dozen.. 7.84
No. 18R268/2. 3⅜x1 inch blade. Per dozen.... 9.00

CRIPPLED MINNOW

Paw Paw Crippled Minnow is a dancing surface lure that will jig and sidestep. Cast this bait fly-rod style, one of the sportiest methods of casting bass and just pause to let the bait quiet down, then a little twitch will cause the bait to dance and teeter in a real life like manner, which is sure to cause a strike. Each in box.

No. 18R266. Silver scale. Per dozen..... 6.48

JOINTED PIKAROON

Paw Paw Jointed Pikaroon is a lifelike, attractive lure that is very effective. This bait will sure get the big ones. The jointed feature allows it to twist and turn in such a way that the bass can't resist jumping for it. Each in box.

No. 18R264. Gold Scale. Per dozen..... 7.20

THE FEROCIOUS FINN

The Ferocious Finn is a minnow shape bait and makes a lure with a rotating and wobbling motion. Has an established enviable reputation as an unsurpassed killer of bass, lake trout, northern pike, pickerel, wall-eyed pike and muskallunge. Polished nickel on convex side and gold plated on concave side. Made in a choice of two sizes of blade. Each in box.

No. 18R267/1. 3⅛x1¼ in. blade. Per dozen... 7.84
No. 18R267/2. 4x1⅝ in. blade. Per dozen..... 9.00

GEE-WIZ RUBBER FROG

Gee-Wiz Rubber Frog is a lure with a real lifelike action. A jerk makes it kick—and that gets them quick. Size of frog is 4⅝ inches long, mounted with 5/0 Sprout hook, equipped with line and swivel. Finished in natural green Frog color. An ideal bait for Bass, Pickerel, Pike and other game fish. Each in box.

No. 18R269. Per dozen..... 9.00

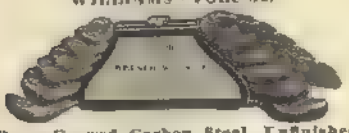
WRENCH SETS

WILLIAMS "VOLUME"



Drop Forged Carbon Steel, Unfinished

Have smooth surface, accurately milled openings and are hardened over all. Strong and dependable with thin heads and slender jaws for work in close quarters.

Per set

No. VU Set—Consists of 6 carbon steel wrenches with 12 different openings for driving all U. S. S. nuts ¼ to ½ in., screws ⅛ to ¾ in. and S. A. E. set nuts and cap screws ¼ to ⅞ in. Weight per set 2¾ lbs. $0 98

One set in a convenient metal holder

WILLIAMS "PONY," TAPPET

Drop forged from special analysis alloy steel carefully heat treated and accurately milled with close tolerance.

These tappet wrenches are correctly designed and the heat treatment gives them maximum strength.

Per set

No. 32 Set—Consists of 6 wrenches, as listed below, with openings from ⅜ to ⅞ in., will service majority of popular cars, put up in a leatherette roll, weight per set 1¾ lbs. .$2 65

Contents of No. 32 Set Two Each Nos. A90, A90-D and A92-F

Per set

No. 42 Set—Consists of 8 wrenches, as listed below, with openings from ¼ to ¾ in.; will service practically any make car; put up in a leatherette roll; weight per set 2½ lbs. $3 [illegible]

Contents of No. 42 Set

Two Each Nos.	A90	A90-D	A92-F	A94
Openings, in.	¼-⅜	½-⅝	⅝-¾	¾-⅞
Length, in.	4½	5	5½	6
Price	$0.35	.36	.45	.51

WILLIAMS "81 PERRENCH," WATER PUMP

For use in adjusting the packing gland nut on water pumps.

Forged from chrome-molybdenum steel, heat treated and chrome plated with polished heads.

A double headed pattern with 12-point openings. Will service practically all cars. Per set

No. 8000 Set—Consists of 5 wrenches as listed below, with 10 openings from ⅜ to 1⅛ in.; put up in a leatherette roll, weight per set 2¼ lbs. $20 25

Contents of No. 8000 Set

Nos.	Size Openings, in.	Length, In.	Thickness of Heads, In.	Each
8000	¼ & ⅜	6½	⅜	$3 50

1—No 019—9 in auto
1—No. 0111—11 in. auto

This case contains the best selling items They were selected after a careful study of sales records and none of them are slow movers.

Each tool is easily removed for the purpose of demonstration to a customer. The method of mounting tools in the case is the ideal way. Each tool is held by a steel clip which is slipped over a bolt and tightened down by means of a wing nut.

The case is made of a quartered oak veneer panel with a glass door. The door is hung upon strong hinges and when closed, excludes all dirt and dust from the case. A lock is mounted in the door. The glass is fastened securely in place and is of good clear quality.

Under each tool on the board is a tag which gives the catalog number, size and retail price of tool.

No. WC3—Consists of 57 assorted pliers and wrenches, as listed above, in a 24½x48½x3¾ in. case; weight per case 111 lbs
One in a box.

Each $120.15

One assortment in a box.

The Crosley Buddy Boy
is now the fastest selling Radio

FROM the time of its introduction, The Crosley BUDDY BOY has enjoyed phenomenal and amazing success. Many midget radio receivers have been put on the market but none have met with such popular favor as this new sensation of the Crosley line

The BUDDY BOY is equipped with Crosley TENNABOARD, a flexible material not much thicker than a calling card and is fitted into the top of the set. It eliminates the necessity for both antenna and ground when bringing in local, near-by and powerful distant stations. This makes The Crosley BUDDY BOY suitable for use in any room of almost any home. Hotel managers are particularly enthusiastic about this radio wonder.

Without a doubt The Crosley BUDDY BOY is the radio sensation of the year. It requires three Screen Grid tubes, type -24, one type -45, and one type -50. Investigate this radio marvel. It sells at the amazingly low price of only $59.50

Complete with tubes and Crosley Tennaboard

DAZEY CHURNS

GLASS BODY

The New Improved

Heavy clear glass with smooth finished neck and sloping rounded upper corners; heavily plated screw cap top; white maple dasher; cast frame and gears finished with double coat of aluminum bronze; perforated removable strainer in cap enables the operator to make butter, pour in wash-water, and complete churning without once removing the top.

The new style jar has no sharp upper corners to collect cream that would remain unchurned.

This improved jar is far easier to clean, more attractive, and more durable.

It also has the famous Dazey patented dasher which does not strike the butter globules a direct blow but rolls up the whole globules in their natural condition and produces more and better butter.

EXTRA GLASS JARS FOR DAZEY CHURNS

New Style Jar

Heavy clear glass jar with smooth finished neck and sloping rounded upper corners where there is no chance for cream to collect and remain unchurned.

This improved jar is far easier to clean and more durable.

Nos.	20J	40J	60J
Capacity, quarts	2	4	6
Weight doz., boxed, lbs.	40	63	80
Per Dozen	$10.00	16.80	21.20

One dozen in a box

The Dazey Principle and Why it is Better

The principal butter-making property of cream is butter fat, which is an oil contained in a tiny, delicate tissue and best compared to a soft-shell egg. The principle of ordinary churns is to break these tiny butter fat tissues, allowing the fat to gather in a mass at the top of the cream; but with the **Dazey**, it is different and better.

As the cream is rolled along under the wings of the patented **Dazey** dasher the whole fat globules are **rolled-up** in their natural condition, in uniform sized grains

Cream contains other valuable butter-making properties which are usually lost with ordinary churns, but by the **Dazey** System are **rolled-up** with the fat globules. This is the reason the **Dazey** produces more and better butter.

Just sufficient working to salt evenly is all that is necessary, because the **rolling-up** of the whole globules has squeezed out all milk from inside of grains. This means saving of labor.

The powerful dasher produces a scientific agitation that results in the production of butter in from five to twenty minutes.

The receptacles are non-absorbent; no cracks to harbor the cream and become rancid. The receptacle lifts out of frame and can be cleaned as easily as an ordinary pail. There are no complicated parts in the **Dazey**.

DAZEY CHURNS

METAL BODY

The New Improved

Frame strong and rigidly constructed of steel and iron, finished with double coat of aluminum bronze; receptable of triple coated charcoal dairy plate, enameled outside; covers and dashers of hard white maple; round cornered and raised bottom receptacle of improved design. No cream left unchurned in corners; strong; sanitary; easily cleaned.

Equipped with a specially designed sanitary faucet for drawing off the buttermilk and the wash-water

Balanced fly-wheel makes turning far easier and smoother than churns with only a crank handle.

PERFECTION

These water coolers are tested under most rigid and severe conditions for durability, cleanliness, ice saving and general economies, with perfect refrigeration and minimum cost of upkeep. The cooler tub has an inner and outer wall of heavy, especially prepared galvanized steel, firmly bonded together, making the tub practically indestructible. One inch of ground cork packed between the two walls. Ice packed around the stoneware container quickly cools but never comes into contact with the water. Separate interchangeable cover, making it possible to remove entire top for icing or cleansing. Large flow waste faucet.

Diameter of tub 15 inches, liquid capacity of container 5 quarts, ice capacity 25 pounds. Height to top of cooler proper 41 inches; 19 inches of floor space required.

and he realized for the first time what his record had done for him, and wished he could write it over.

As John goes out the Boss sends for Jimmy. Is Jimmy worried? Not the slightest bit. He expected the boss was ready to give his consent to some of the improvements he (Jimmy) had suggested they make immediately after the first of the year.

Jimmy arrives and is also asked to be seated. But instead of talking about Jimmy's suggestions the boss opens the big book to the page written by James Brown. Instead of reading from the record the boss, after looking over the page, turns to Jimmy and says: "Brown, you are the type of a man we are always searching for; a type of man we can never seem to find enough of.. You have been with us only two years but you seem to have discovered the fundamentals of how not only to keep our business going but to make it grow. The ideas and suggestions you have made for bettering our service and increasing our sales together with your remarkable showing as a salesman, entitle you to an increase in salary of 20% for the year 1931."

Was Jimmy ready for the "Judgment Day"? Was he? And how! He knew what to write in his record to assure himself of being "wanted".

Every employee who will write in his record the things that Jimmy wrote will always be "wanted" either in the store where he now is employed or in some other progressive store. There are never enough Jimmies to go around. There is always a surplus of Bills and Johns.

Pattern your record after Jimmy's and you will never fear, but will welcome, the "Judgment Days" of tomorrow.

DIETZ LANTERNS
-Scientific Construction Makes Them Always Dependable

STRUCTURAL niceties, high lighting power and dependability in all kinds of weather, are qualities which have made Dietz Lanterns the Standard of the World.

The uniformly dependable performance of Dietz Lanterns is due to scientifically correct control of combustion—producing the brightest, steadiest flame of which kerosene lanterns are capable.

Sell Dietz Lanterns! They safeguard your profits against come-backs and dissatisfaction. They give your customers money's worth every time.

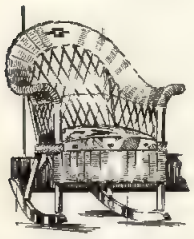
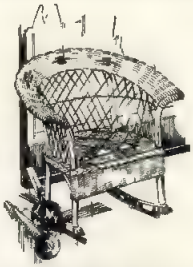
Juvenile Furniture Saves Wear on the Home Furnishings



A neat, sturdy little rocker, for the child, up to seven or eight, with padded seat, and attractive cretonne covering. Made with the same construction standards as the larger patterns, and furnished in the same colors. Height of rocker 23", seat size, 13½"x11½".

No. F86N262. Each . . . $4.70

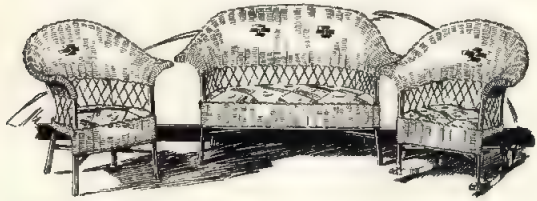


Here is a rocker for the children, made and patterned just like the "grownups," with a softly padded removable cushion, and regular durable enamel finish. Made with hardwood frame, and woven with steel-core uprights. It will stand the hardest use. Very comfortable graceful design our mustang cretonne cover. Contrasting hand painted decorations. Height 23 inches. Seat size 13"x13"

No. F86N263. Each $5.50

A rocker for the children, in the new "arte moderne," just like the new adult furniture. The upright slakes are reinforced with heavy wire, to protect them from the roughest usage. Removable cotton padded cushions, upholstered with appropriate, colorful and harmonious cretonne. Height of chair or rocker, 23". Seat size, 12"x13". Approximate shipping weight, 12 lbs.

No. F86N264. Each $7.00



A suite of furniture for the children, just like the one mother has in the sun parlor; nothing could be more joyful and real to the children when they "play house." Removable, cotton padded cushions, hardwood frame, and hand woven with steel core uprights. Chair and Rocker. Height, 23 inches; seat size, 13x13 inches. Settee: Seat size, 30x13 inches.

No. F86N265. Each set $27.00

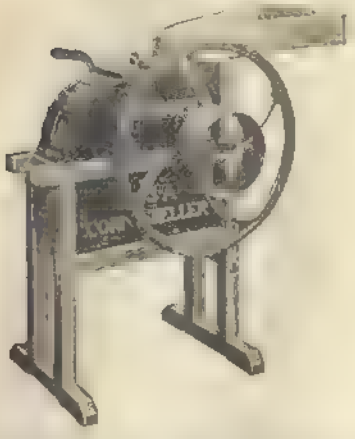
CORN SHELLERS

EAGLE'S ONE-HOLE



This sheller will shell Indian corn and large size pop corn without adjusting the springs, but will not shell the small or Chinese pop corn, nor will it shell shuck corn.

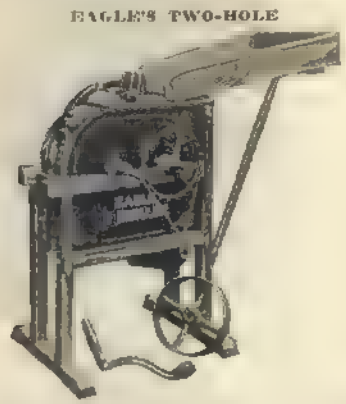
Made of the best material. Equipped with fan, table and pulley

No. 2AF—With Fan; weight each 128 lbs $42 50

No. 2A—Without Fan; weight each 125 lbs 39.75

Open stock.

EAGLE'S TWO-HOLE



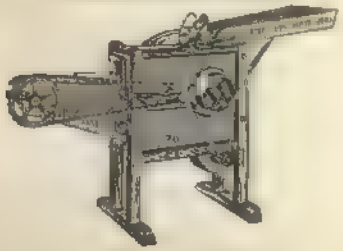
Constructed of hardwood and bolted together. A very good sheller for the small feeder. Equipped with coil springs, fan, table, pulley and crank.

Each

No. C—Capacity about 30 bu. per hour; speed 350 R.P.M.; weight each 260 lbs. $30.00

Open stock

*HOCKING'S TWO-HOLE



Hand or Power

Hardwood frame, unusually rigid, maintaining perfect alignment of working parts.

All bearings are bored and reamed to a machine fit on shaft and bolted to side rails.

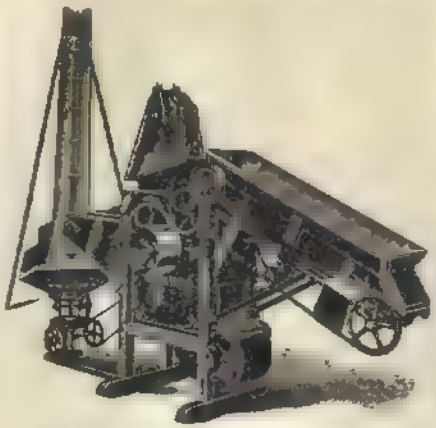
Mortised and tenoned joint cross rails. Bored and reamed gearings. Turned shoulder crank shaft. Shelling and feed wheels machine fitted and solidly keyed to shaft. Equipped with crank, fan, feed table and pulley

Each

No. CC—Capacity 50 to 60 bu. per hour; pulley 10x4 in., 450 to 500 R.P.M.; weight each 300 lbs..... $105 00

CORN SHELLERS

*HOCKING'S SELF-FEED TWO-HOLE



With Sacking Elevator and Swivel Cob Stacker

Made from a new pattern throughout. Every grain is separated from the cobs without grinding or marring them and comes out clean enough for the mill.

It is strong and durable, thoroughly well made of the best materials and handsomely finished and is guaranteed to give entire satisfaction. It is equipped with fan, self-feed table and pulley

For power only

The cob stackers, wagon box elevator and sacking elevator are not interchangeable on the cob carrier and self-feed shellers.

Each

No. A—Capacity 90 to 120 bu. per hour, 6 to 8 horse power; pulley 8x6 in.; 600 to 700 R.P.M.; weight each 645 lbs..... $291 00

BLACK HAWK

Malleable iron frame, hopper, separator and crank, extra long fully chilled bearings. Clamps to any barrel or tub.

Per dozen

Black Hawk—Capacity 8 to 14 bu. per hour, weight per dozen 180 lbs..$84.00

Open stock.

RED CHIEF

Malleable iron frame, closed hopper makes it impossible for operator to pinch hand. Patented oval shape teeth; patented fastener clamp, with large strong wing nut, fastens securely by hand on box, barrel or tub, tension directly on cob, making it run easy. Shaft is cold roller steel pinion, very strong, with 1¼ in. bearing on the hub; long strong crank with wooden handle.

Red Chief—Capacity 8 to 12 bushels per hour, weight each 12 lbs.... $06.00

Open stock.

(*) Not in stock; will ship from factory.

GRINDING MILLS

RED CHIEF

Malleable iron castings; large roomy hopper fastens to frame; special triplex burr, long, strong crank assures ease of operation; wooden handle securely riveted to crank; spring tension instantly regulating degree of fineness, large clamp with strong wing nut, very easy to fasten or unfasten, holds securely to box, barrel or tub.

Each

No. 1—Capacity 1 to 2 bushels per hour, 9 in. high, 7½ in. wide; 11½ in. crank; weight each 14½ lbs..... $9 75

One-third dozen in a carton.

Each

No. 2—Capacity 2 to 3 bushels per hour; 10 in. high, 7½ in. wide, 11½ in. crank; weight each 17 lbs..... $12 75

One-quarter dozen in a carton.

RED CHIEF

Malleable iron castings; large roomy hopper fastens to frame, special triplex burr; heavy flywheel with extension crank makes easy operation; inside hopper enameled white, extra hardened, self-sharpening burrs.

Grinds whole wheat or graham flour, corn meal, chicken feed, coffee and spices, oyster shells, dry bones, cracks peas and soy beans and pulverizes sugar

With Clamp to Bolt on Box or Tub

No. 5—Capacity 2 to 4 bushels per hour, weight each 35 lbs $17 25

Open stock.

With Stand

Each

No. 10—Capacity 2 to 4 bushels per hour; weight each 50 lbs..... $21.75

Open stock.

Wt. each, lbs.	12	15
Price	$12 00	15 00

One in a carton.

(*) Not in stock; will ship from factory.

FRUIT PRESSES

ENTERPRISE

A standard model which has long given satisfactory service in extracting juices for making wine, jellies, and fruit butters. It is especially adapted for pressing out juices from berries of all kinds, grapes, currants, tomatoes, quinces, pineapples, etc.

So constructed that the contact between the scroll and the strainer is always perfect. This prevents clogging of the strainer.

Wear on the feed screw and cylinder is continually taken up by the lock-nut. This also simplifies the taking apart and putting together of the machine.

No rehandling is necessary with this machine. It extracts the juices and ejects the skins and seeds in one operation. This machine is not intended for making cider.

One coarse strainer is furnished with each machine. The fine strainer can be supplied at a small additional cost

Each

No. 134—Capacity of hopper 1 qt.; length 12½ in.; height 13½ in.; wt. each 12¾ lbs. $9.00

One-half dozen in a case.

GRAPE CRUSHERS

*CORN AND FEED MILLS

MEADOWS

Best grade Northern Carolina pine frame. Constructed in two sections securely tied with heavy bolts. To open the mill for dressing, only two bolts to be taken out, two nuts to loosen and sections of casing slide apart.

Very best obtainable hard, sharp, white flint granite burrs are used.

Weevil sprout combined with high speed cleaning fan supplied on all sizes except 12 in. which has no fan.

Quick and positive patented locking device. By simply pressing down the lever, the burrs are locked in any position at which they are set.

Sifter driven from same eccentric which operates weevil sprout, oscillates endways, and has a collecting bottom which thoroughly mixes meal before discharging into meal box or sacking elevator.

Single motion of one hand sets the feed of grain from hopper. No screwing down of hand wheel to change.

Patented grain retriever allows grain to be fed from hopper at any desired volume, yet cob ends or any coarse trash may escape without choking the slowest feed.

Famous Eastman Hawk-Eye Cameras

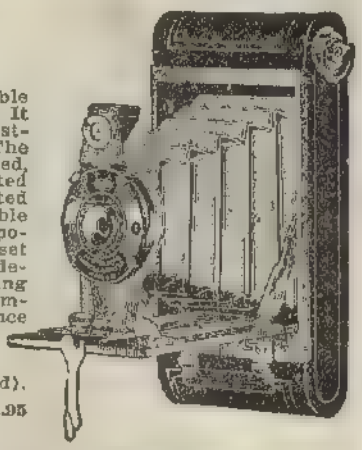
The famous line of Hawk-Eye cameras is made in the equally famous factories of the Eastman Kodak Company. Each camera bears the Eastman name, and brings the user the opportunity for a year's free subscription to the photographic magazine Kodakery. Our selection of Hawk-Eyes includes the latest new Rainbow models finished in gorgeous fashionable colors.

No. 2 Hawk-Eye Model "C." A thoroughly dependable camera in spite of its extremely low price. It makes 2¼x3¼ vertical snapshots in the simplest way possible, and appeals to both youngsters and grownups. Supplied in black and in these colors, blue, green, vermillion, maroon. Loads with Kodak Film No. 120.

No. 99J224. Each..... .65
(Specify color wanted)

No. 2 Folding Hawk-Eye Model "C"

An unusually compact and capable camera, offered at an unusual price. It takes pictures 2¼x3¼. Like all Eastman cameras it loads in daylight. The metal body is covered with fine, grained, black imitation leather and assorted colors. Fitted with a carefully tested lens, and new Kodo shutter adjustable for either time or instantaneous exposures. Simple focusing scale can be set at "fixed" or universal focus when desired. This model combines the folding type of construction with extreme simplicity of operation, neat appearance and low cost. It uses Kodak Film No.120.

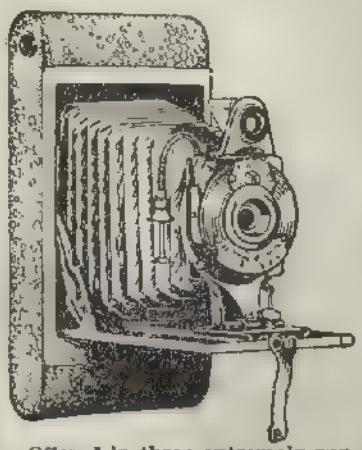


No. 2 Model "C" (Specify color wanted).

No. 99J227. Each..... 3.95

Folding Hawk-Eye Model "B"

Nos. 2, 2A and 3A.



Offered in three extremely popular sizes. The 2 and 2A sizes come in color as well as black. All are fitted with dependable lenses, accurate Kodex shutter, cable and finger releases, focusing lock. The finish of the body is fine imitation leather. Trimmings are in nickel, with bellows, shutter, etc., in the same color as the body. Colors are brown, old rose, blue, green.

No. 2 makes pictures 2¼x3¼, loads with Kodak Film No 120.

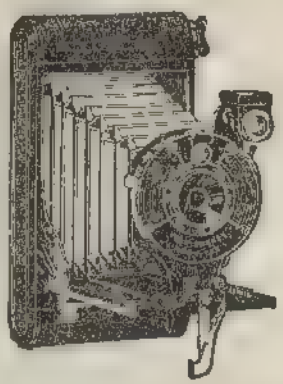
Vest Pocket Hawk-Eye

One of the smallest cameras ever produced—and one of the most beautiful. It is supplied in black and in four charming color combinations. The key colors of the colored models, orchid, marsh green, steel blue and rose, are carried out in a rich damaskene lacquer finish. Blended with them are harmonizing tints on bellows, shutter and finder. Nickeled trimmings and a gold or silver sheen on the body set off styles that represent the peak of new-day camera design. The black model is covered with imitation leather and trimmed in brilliant nickel. Picture size, 1⅝x2½. Loads with Kodak Film No. 127.



No. 99J49. Vest Pocket Camera, Black. Each 3.00
No. 99J120. Vest Pocket Camera (Specify color wanted). Each..... 3.35

Nos. 2 and 2A Hawk-Eye Model "B"

These box cameras make splendid snapshots and time exposures — either vertical or horizontal. They are great favorites because they are utterly simple to operate. Made in green, blue, vermillion and maroon, as well as in standard black finish. No. 2 takes pictures 2¼x3¼; loads with Kodak Film No. 120. No. 2A takes pictures 2½x4¼; loads with Kodak Film No. 116.

Welcome Gifts—Useful and Lasting

Out-of-the-ordinary Gift Suggestions that are New and Attractive

BEACHFIRE SAND
Flaming Colors

New! Full pound of Beachfire Flaming Sand packed in hand-made unglazed, waterproof pottery jar. Toss a little of this sand in the open fire, either blazing logs or coal and the most brilliant and beautiful colors will blaze up for a long time. At this low price you can use the flaming sand liberally. The pottery jar makes a very nice bud vase or candlestick after the sand has been used. Surprising value!

2K40207 PRICE..... **$1.50**

INCENSE BURNER

Illustrated above is a very clever incense burner, richly modeled of metal in true life-like colors. The rug on which the native is sitting is amazingly realistic in its fancy shaded colorings, portraying the actual texture and color of the hand woven original. The figure of the native is remarkable with a space for the incense. The incense burns through the figure spiraling lazily from the mouth. A superior and artistic incense burner of the finest grade, which you have to see to appreciate.

2K40213 Specially priced..... **$3.40**

BEACHFIRE FLAKES
Flames of Beauty

A new Beachfire product of impregnated flaked woods, which produces most brilliant and lasting colors in the open fire. Use a small quantity at a time on a small log fire or even on twists of paper. It burns with a beautiful blue flame with variations of green, lasting a long time. The Beachfire Flakes are packed in attractive round cans, 7 inches high, 3½ inches in diameter. Inexpensive, you can have a few boxes on hand all the time.

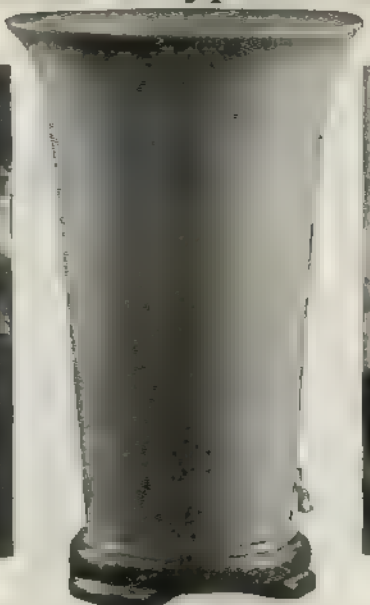
SKYLITE—A New Type of Indirect Lamp

The Dark Way

With Ordinary Light



The Light Way

With Skylight

The Skylite is an entirely new type of indirect lamp. It stands on any mantel, radio, piano or bookcase and lights up the entire room with a uniform diffused light. It lights the room from one source with reflected light from the ceiling. It casts practically no shadows. It does away with annoying bright lights that are harmful to the eyes. It eliminates the fuss and annoying of drawing up special lights when playing cards. Because its light is so soft many people prefer Skylite for every purpose.

Skylite is beautifully shaped and finished and by day when not in use forms an exquisite vase that fits in with any decorative scheme. It is finished in beautiful porcelain luster. It is made from a special fibre and mineral composition, much stronger that pottery. It remains cool during use. The reflector is of highly polished zinc. It has nothing to get out of order and will last a lifetime.

Skylite is 11½ inches tall 7¾ inches wide at top, operates from any lamp socket and uses only one bulb. Complete with 200 Watt clear lamp and 10 feet of cord.

BAITS

BABY JOINTED PIKIE

This peppy little wiggler is about the size of the live bait generally used and comes closer than any lure to representing a live minnow in a hurry to get away. It is very effective for all kinds of game fish, both in rivers and lakes.

	Per Doz.
No. 2760—Natural pikie, scale finish	$12.00
No. 2736—Silver flash	13.80

PIKIE MINNOW

Slim body 4½ in. long, weight ¾ oz., scale finish, rust-proof bronze hooks to blend with color of body. A near surface wiggler or by tapping up the screw eye a few times and reversing the mouth-piece you have a surface splutter.

	Per Doz.
No. 700—Natural pikie, scale finish	$12.00
No. 701—Natural perch, scale finish	12.60
No. 702—White, with red head	12.60
No. 718—Silver flash	12.00

PIKIE MINNOW ASSORTMENT

This famous slim body, which has become so well known as a fish getter. Length 4½ in., weight ¾ oz. Contains three pikie finish, one perch, one white and red head, and one silver flash.

STERLING SERVICE IN THE DANISH MANNER

Silver design takes a Danish trend and from the far-off shores of Denmark comes the inspiration for the Elsinore, newest of Sterling Silver Services—a design of reposeful harmony and blending beauty.

Named for Hamlet's historical castle, on the waters of the Oresund, Elsinore follows the age-old principles of pure design, and with them commingles a touch of present day feeling, giving to the flatware and matching hollow ware, unusual grace of line and beauty of proportion.

The five-piece Tea Service and Waiter illustrated below are a striking example of the adaptability of the Elsinore motif to hollow ware. Those who have a feeling for fine line and shapely contour will love its smart decoration—its exquisite form and solid weight.

C323 Tea Service

Coffee, Cap. 3¼ pts.	$148.50	Waste, Gold Lined	$33.75
Tea, Cap 3 pts.	135.00	5-piece Set	438.75
Sugar, Gold Lined	67.50	W300-25 Waiter, Length 24 in.	337.50
Cream, Gold Lined	54.00	6-piece Set	776.25

The ELSINORE

THE ELSINORE

STERLING SILVER

Gray Finish

Balance—Weight—Finish and Construction are things that, in addition to Design, influence the choice of a silver flatware pattern

Elsinore enjoys perfection in each and offers, in addition to the regular dessert knife and fork and in place of the usual dinner knife and fork, the practical and modish Viande knife and fork, about which so many smart hostesses are wildly enthusiastic.

Just consider for a moment the moderate prices at which the various pieces in this exquisite design may be had, and then picture a service with your monogram beautifully cut on the back of each piece.

PEACH PARERS

SCOTTS "GENUINE" ROTARY

For Paring Peaches and Apples

Cast iron frame, gearing and clamp, steel axle and fork, tempered steel circular revolving knife [illegible] shaft, detachable clamping post [illegible] lacquered finish.

Per dozen

Scott — Ht. over all 8 in., wt. per doz. 45 lbs. $57 00

One dozen in a case.

CHERRY SEEDERS

ROLLMAN

Cast iron tinned. The seed extracting knife drives the seed into one dish and actually throws the cherry into another

The marks of the knife can scarcely be seen on the seeded fruit—does not crush cherries, cause any loss of juice. Seeds from 2 to 3 quarts per hour

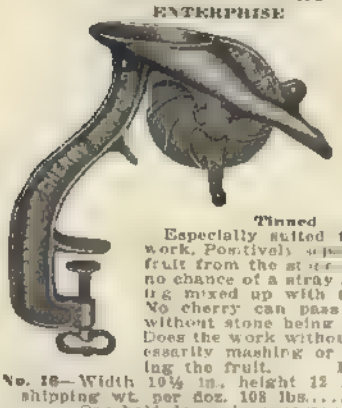
Per dozen

No. 8—Width 8 in., height 14 in., [illegible] 1½ in.; wt. per dozen 34 lbs. $31.50

One-half dozen in a box.

CHERRY STONERS

ENTERPRISE



Tinned

Especially suited for rapid work. Positively separates the fruit from the stone—there is no chance of a stray stone being mixed up with the fruit. No cherry can pass through without stone being removed. Does the work without unnecessarily mashing or disfiguring the fruit. Per dozen

No. 16—Width 10½ in., height 12 in., shipping wt. per doz. 108 lbs..... $33 00

One-half dozen in a carton.

POTATO SLICERS

LIGHTNING

For slicing Saratoga chips or [illegible]

Best quality steel knives. Sliding plate holds vegetables firmly against the revolving knives [illegible] completely sliced

Per dozen

No. 16—Japanned finish, wt. per doz. 48 lbs. $47 25

One dozen in a case.

PARERS AND CORERS

Plain steel blade, plain handle

Per dozen

No. 97—10½x3⅝x3 in., wt. per dozen 1⅛ lbs. $2 85

One dozen in a box

WASHING MACHINES

HORTON PERFECT 36 ELECTRIC

Sealed Mechanism — Worm and gear type Timken roller and ball bearings used to prevent wear and for noiseless vibrationless operation. Centrifugal splash oiling system assures thorough lubrication.

Belt and Worm Drive— Power transmitted from motor to agitator by means of V type belt.

Agitator— Submerged type makes it possible to wash a single piece or a full load. Three wings cast in one piece, made of virgin aluminum.

Chassis—Rolled and stamped steel, an integral unit of great strength and rigidity with a minimum of weight. A steel band encircles lower portion of tub and clamps to frame, holding tub rigidly in exact place.

Tub—Porcelain enameled inside and out. New self draining bottom with positive shut off drain cock. Tub is 23 in. in diameter, 14 in. deep, and when filled to water line, holds 15 gallons of water. Clothes capacity is five to six double sheets or equivalent. Recessed top tub flange with inset lid rubber cushioned. Guaranteed not to rust, corrode, chip, crack or warp under ordinary usage.

Pressure Cleanser—Strong pressed steel. Oversize balloon rolls 12 in. long, 3 in. dia., semi-soft rubber. Swing gear reversible, with new handy control lever.

Electric Motor—Heavy duty, ½ HP. [illegible]

No. 36G—Italian green porcelain tub, harmonizing green chassis $49.75

One in a carton, shipping weight 250 lbs.

*HORTON PERFECT 36W DeLUXE ELECTRIC

This is the same as the Horton Perfect 36 except that the tub is white porcelain enameled, lid, wringers and clamp skirts are nickel plated and legs are finished in black Duco.

Each

No. 36W ..... $[illegible]

One in a carton, shipping weight 220 pounds.

HORTON'S EMERALD ELECTRIC

Sealed Mechanism—With "Nilo", "Duro" and "Hoover" bearings. Belt drive completely encased.

Wringer—New style Lovell Flume type—2 in. wide with 2¾ in. balloon semi-soft rolls.

Agitator—New 4 vane or wing, cast virgin aluminum agitator giving a powerful washing action. Attractive finish. Easily removable for cleaning. Outside gear [illegible] located and [illegible] separate.

Frame—Pressed steel tub support or base with pressed steel legs welded not bolted. Nagel Casters for easy rolling.

Tub—Porcelain enameled inside and out—corrosion proof. 23 in. diameter, depth 14 in. When filled to water line holds 15 gallons of water. Clothes capacity is five to six double sheets or equivalent. Tub is cushioned in rubber.

Lid—Dome style pressed steel lid with rubber rim, cadmium plated and enameled.

Electric Motor—¼ HP.

Each

Emerald—Nile green tub, emerald green trim $79.50

One in a crate, shipping weight 192 pounds.

With Briggs & Stratton Gasoline Engine

Each

***Emerald**—Nile green tub, emerald green trim $119.50

One in a crate, shipping weight 236 pounds.

WASHING MACHINES

*HORTON PERFECT 36 GASOLINE With Gasoline Engine

Briggs & Stratton Gasoline Engine

These washing machines are identical with the Horton Perfect 36 [illegible] except that they are equipped with gasoline engine.

With Briggs & Stratton Gasoline Engine

Each

No. 36G-B—[illegible] green porcelain tub, harmonizing green [illegible] ..... $[illegible]

One in a crate, shipping weight 256 pounds.

*IRONERS

HORTON AUTOMATIC ELECTRIC

Beautiful, small, compact [illegible] efficient and [illegible]atic.

Operator's hands always free to guide work over feed board and roll, as control is by conveniently located foot pedal. Well padded roll carries garments against properly heated shoe with even pressure at rate of [illegible] feet per minute and the 165 square inches of polished ironing surface of shoe produces a lustrous finish.

A complete piece of equipment [illegible] requiring no accessories. Requires [illegible] 2x4 ft. of floor space. Mounted on rollers and can easily be moved out of the way [illegible].

Heavily padded roll supported by roller steel shaft, held rigid by arm extension integral with body. Shaft revolves on oilless bearings giving smooth positive action. Mechanism has machine cut gears.

Can be operated from the standard service receptacle.

Each

Automatic—Height 34 in., length of roll 30 in., ¾ HP. motor, weight crated 330 lbs. $130.00

HORTON ROTARY-ATTACHMENT ELECTRIC

Light in weight and can be installed easily on any Horton washing machine simply by removing the wringer and slipping the [illegible] can be used for pressing suits, [illegible] woolens, etc.; a special control keeps the [illegible] for the pressing of these garments.

Padded roll, carefully padded so that large bulky [illegible] can be ironed through the shoe without [illegible].

Special steel shoe with heating element built in as an integral unit. Ironing surface of shoes is 91 square inches and heats as quickly as a hand iron. Heating element must be plugged into a standard service receptacle separately and not into the same socket to which the washer has been connected.

Each

Rotary—Roll 26 inches long, 8 in. in [illegible] revolves at rate of 5¾ ft. per [illegible] wt. each crated 48 lbs. ... $49.50

(*) Not in stock, will ship from factory.

*IRONERS

HORTON DO-ALL ELECTRIC

Roll—Standard 26-in. length; full open end type. Rust-resisting, non-warping metal base. Heavily padded with jute and cotton covered with duck backing. Diameter 6 in., revolves at rate of 8½ ft. per minute.

Shoe—Cast steel, chromium plated. Ironing area 91 square inches. Heats as quickly as a hand iron. 1150 watt heating element. Element replaceable through polished plate in back of shoe.

Electric Motor—1/2 HP., 115 watt consumption on exclusive of shoe.

Mechanism—Entirely free from complicated parts. Silent worm and gear principle. All gears machine cut running in oil.

Operation—Easy to understand and operate. Plug in one combination motor and heater cord into any standard service outlet—no special wiring required—turn on current, and in five minutes the shoe will be hot enough for ironing, then proceed by following carefully written instruction booklet.

Console Model

Handsome cabinet in walnut finish, a piece of fine furniture for any room in the house. [illegible] easily be moved to wherever the ironer is to be used.

ECO TIREFLATORS

Standard equipment with major oil companies, individual service stations, tire dealers, car agencies, storage garages and fleet owners They can be depended upon to provide the consistent accuracy that the owner and customers expect from equipment of this type.

Pre-tested tempered spring and diaphragm automatic control and ball action are marvelously simple and practical in operation. Controlled directly by air pressure in diaphragm chamber When desired pressure is reached, valve shuts off air supply automatically Bell keeps ringing until the exact amount of air has been delivered.

Large authentic dial typifies the clean-cut, definite and accurate automatic air service provided by the Tireflator. When the pointer is set for 35 lbs., it delivers 35 lbs. exactly.

The Eco reel incorporates such valuable and proven features as: cut-off valve, automatically adjusted speed regulator, readily adjustable, extra large motor spring sealed in oil bath, sturdy construction throughout. Positive rewinding of the Eco reel assures hose protection

An air-cleaner (sediment trap) with convenient blow-off, assures clean dry air at all times

ECO MODEL 40

The Aristocrat of all Servicing Equipment

Attractive and imposing in appearance—a beacon of modern air service.

Chromium plated dial ring handle and roller plate The large dial is brightly illuminated for night service.

Hose lock prevents theft of hose. Dependable rewinding reel with positive speed regulator Cut-off valve prevents loss of air through leakage. Air cleaner assures clean, dry air for tires

Base shown on cut is not furnished

Standard color is red and the equipment is regularly supplied without water connections.

10 inch Top Air Globe.

Each

Model 40—Height over all 67 in., width 14 in., depth 26 in.; anchor bolts; base dimensions and complete installation instructions furnished, shipping weight 285 lbs. $146 00

ECO MODEL 39

Same as Model 40, described above, except that it does not have the light globe and supporting stand

It has proven very satisfactory and popular for installations where lighting effects do not make the top light desirable. Without water connections.

Each

Model 39—Height over all 52 in., width 14 in., depth 26 in.; anchor bolts, base dimensions and complete installation instructions furnished, ship. wt. 270 lbs $130 00

Base shown on cut is not furnished. Standard color is red.

Note—The Eco Tireflator is furnished regularly with dial calibrated from 20 to 75 lbs. for automatic inflation over this range. Unit has high pressure release feature for straight air inflation above 75 pounds.

Models 40, 39, 46, and 61 are drilled to accommodate water connections, which include 12½ ft. of best grade hose with self-closing faucet; hose hook and all necessary connections

Complete unit

Water Connections—Specify model for which intended ..... Extra, $5.00

ECO MODEL 61

The Leader of All Tower Type Air Equipment

For those who prefer tower-type equipment Eco offers this improved model with several exclusive features.

Chromium plated dial ring and handle. Large dial, brightly illuminated for night inflation. 12 ft. high quality air hose. Cut-off valve; rotary packing chamber allows full revolving of service arm Air cleaner assures clean, dry air for tires.

Standard color is red and the equipment is regularly supplied without water connections.

Each

Model 61—Height over all 156 in., width 18 in.; base dimensions and complete installation instructions furnished, shipping wt. 290 lbs. $115.00

ECO MODEL 46

An Effective and Attractive Air Servicing Unit at Minimum Investment

Fluted column type. Chromium plated dial ring and handle Large dial is brightly illuminated for night service. Cut-off valve operated by hose hook. Air cleaner provides clean, dry air for tires.

Furnished with 25 ft. of highest quality air hose.

Standard color is red and the equipment is regularly supplied without water connections.

10 Inch Top Air Globe

Each

Model 46—Height over all 76 in., width 15 in., depth 15 in.; base dimensions and complete installation instructions furnished, shipping weight 175 lbs. $87 80

ECO MODEL 45

A Wall Type Installation. For Every Type of Air Service

Chromium plated dial ring and handle with large dial brightly illuminated for night service. Cut-off valve is hose hook operated. Air cleaner assures clean, dry air for tires

Mounting and installation easily made

Standard color is red. 25 ft. highest quality air hose furnished

Each

Model 45—Height over all 18½ in., width 13 in., depth 12½ in.; installation instructions furnished; shipping weight 75 lbs. $73.60

AIR HOSE

THERMOID COMPLETE AIR LINE

A quality hose constructed to withstand severe abuse, and give satisfactory service at high pressure.

Inner tube is of good quality and will not harden or crack. Piles of fabric firmly bound together by a high grade rubber friction, reinforce the tube, and offer strong resistance to kinking, which means longer life.

The red cover is extra tough, and will resist the hardest kind of wear resulting from dragging over sharp edges and rough surfaces

With Female Coupling, and Schrader Chuck

In 25 Foot Lengths

Size, in.	¼	⅝
No. of plies	5	8
Weight, each, lbs.	4½	6½
Each, complete	$11 25	12 75

Each coil paper wrapped.

PLAIN

For use on high pressure garage air pumps. A very high quality hose made from best materials and furnished without chuck or couplings

5-Ply Construction

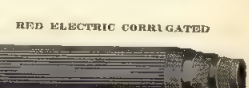
Per foot

¼ **in. Size**—Weight per 100 ft. 21 lbs... $0.36

⅝ **in. Size**—Weight per 100 ft. 34 lbs... .45

25 and 50 foot lengths

RED ELECTRIC CORRUGATED



"Electric" Pneumatic Hose is stronger, more pliable, lighter in weight and will stand shorter bends without kinking than any other hose made. Made of high grade corrugated rubber giving it the long wearing qualities for which it is noted. Will withstand higher than 500 lbs. hydraulic pressure without bursting.

Seamless tube of Ceylon rubber covered with tubular jackets of heavy cotton seine cord built up layer upon layer and vulcanized into a solid unit

Per foot

⅝ **in. Size**—3-ply; weight per 100 ft. about 34½ lbs $0 45

Furnished in any length desired; without couplings.

AIR HOSE CLAMPS

For use on air hose ¼ or ⅜ in. inside diameter.

Per dozen

⅜ **in. Outside Diameter**—For ⅜ in. plain air hose $1.05

½ **in. Outside Diameter**—For ⅜ in. red electric air hose 1.05

Open stock

CURTIS AIR COMPRESSORS AND FITTINGS

CURTIS SINGLE CYLINDER COMPRESSORS

Timken Bearings

"Centro-ring" oiling system. Positive lubrication, no intricate parts. Honed cylinders, ground piston, piston rings, piston pin and crankshaft, Timken tapered roller main bearings, die cast connecting rod bearing, disc valves.

The "Centro ring" oiling system makes possible clean air, free from excessive lubricating oil.

"S" SINGLE STAGE AUTOMATIC UNITS

Timken Bearings

"Centro-ring" oiling. With fan flywheel, honed cylinder, disc valves; ground piston, crankshaft and piston pins. Automatic starting and stopping device including positive centrifugal unloader.

Steel pressure tank with pop valve gauge and drain cock. Seamless copper tubing used between compressor and tank with disc type check valve.

Rigid all steel base over tank. Universal motor mounting

Outfit includes compressor, motor, tank intake strainer, "V" belt drive and steel base; also 20 ft. of ¼ in. air hose with chuck.

Automatic device cuts in at 120 pounds and out at 150 pounds

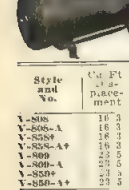
"V" DUPLEX, SINGLE STAGE, AUTOMATIC UNITS



Timken Bearings

Recommended where the volume of air required is larger than can be furnished with the single cylinder outfits. Particularly where outfit is used in shop for various purposes.

General construction and features same as above

Outfit consists of duplex compressor, intake strainer, motor and tank, automobile type "V" belt drive, 20 feet of hose and tire chuck; automatically cuts in at 120 pounds and out at 150 pounds.

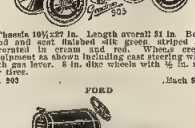
No. 903 . . . . . Each $8.30

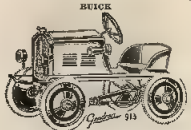
FORD



Chassis 12x36 in. Length overall 37 in. Body, hood and seat finished red, striped in yellow. Wheels red with yellow striping. Equipment as shown including cast steering wheel with gas control. 10 in. disc wheels with ½ in. rubber tires.

No. 909. . . . . Each $9.50

BUICK



Chassis 12x30½ in. Length overall 36 in. Body, hood and seat finished goldenrod yellow, striped and decorated in red and black. Wheels yellow, striped in black. Equipment as shown including spring gear. 10 in. disc wheels with 1 in. rubber tires.

No. 913 . . . . . Each $12.20

OLDSMOBILE

Chassis 12x34 in. Length overall 36 in. Body, hood and seat finished maroon, striped and decorated in yellow and red. Wheels yellow enameled, striped in black. Equipment as shown, including spring gear. 10 in. disc wheels with 1 in. rubber tires.

No. 916 . . . . . Each $14.60

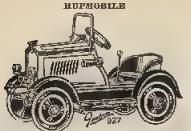
WILLYS-KNIGHT

Chassis 12x34 in. Length overall 42 in. Body, hood and seat finished vermillion, striped and decorated in cream and silk green with cream bands. Fenders silk green. Wheels cream. Equipment as shown, including adjustable rubber pedals, instrument board and spring gear. 10 in. balloon type disc wheels with ¾ in. rubber tires.

No. 928 . . . . . Each $19.50

AUTOMOBILES

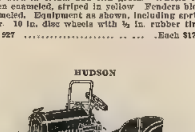
HUPMOBILE



Chassis 12x34 in. Length overall 42 in. Body, hood and seat finished pigskin tan, striped and decorated in cream and silk green. Wheels silk green enameled, striped in yellow. Fenders black enameled. Equipment as shown, including spring gear. 10 in. disc wheels with ½ in. rubber tires.

No. 927 . . . . . Each $17.70

HUDSON



Chassis 12x30 in. Length overall 38 in. Body, hood and seat finished silk green, striped and decorated in yellow. Fenders black. Wheels silk green striped in yellow. Equipment as shown, including spring gear. Adjustable rubber pedals. Instrument board. 10 in. disc wheels with ½ in. rubber tires.

No. 923 . . . . . Each $16.50

MARMON

Chassis 14x41 in. Length overall 54 in. Body, hood and seat finished Acosta green, striped and decorated in cream, Essex green and black. Wheels cream. Equipment as shown, including steel chassis, Bosch type horn with instrument board control. Instrument board, spring gear, adjustable steering rod, padded leather seat, nickel plated bumper. 10 in. balloon type disc wheels with ¾ in rubber tires.

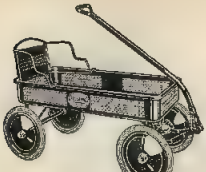
No. 931 . . . . . Each $22.80

DE SOTO

Chassis 14x43 in. Length overall 46 in. Body, hood and seat finished in a light straw, striped and decorated in deep wine and red. Deep wine bands and cowl. Fenders red. Wheels cream. Equipment as shown, including steel chassis, Bosch type horn with instrument board control. Instrument board, spring gear, adjustable rubber pedals, adjustable steering rod, padded leather seat, nickel plated bumper. 10 in. balloon type disc wheels with ¾ in rubber tires.

No. 932. . . . . Each $25.50

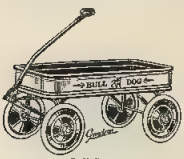
COASTER WAGONS



Taylor-Way

Has a folding back support, which prevents child from falling out backwards or sideways. This back folds flat against the body when wagon is used as a coaster. Length of body 37 in., width 18 in., one piece steel with bead or roll at the top and a groove around the inside of the bottom for extra strength. Gears are of wide stock, well braced. Front gear revolves on large double discs, giving great stability during every degree of turn. Wheels are 8¼ in. diam., double disc, with rubber-tained roller bearings and ¾ in. corrugated rubber tires. Nickeled hub caps. Tongue is tubular steel, curved to promote easy steering. Special stop prevents tongue from striking the body. Finished in red or light blue, both colors having attractive cane-effect ivory panels.

No. 882—Light blue and ivory finish. Each $4.50
No. 89B—Red and ivory finish ..... Each 4.50
One in a Carton



Bull Dog

Heavy steel beaded body with large ¾ in. roll around top. Top and bottom are joined in a heavy double lap seam making a firm and rigid box. Tubular steel handle. Box finished in red, stenciled in gold, wheels in red, gears and handle black. Size of body 15½x38 in., wheels 9½ in. with ¾ in. tires, nickeled hub caps.

No. 83..... Each $6.35
One in a Carton

Pierce-Arrow

Heavy gauge sheet steel body, 15½x33 in., large ¾ in. roll around top of box, sides beaded. Has 16 in. balloon type disc wheels, roller bearing, with ¾ in. tires, nickeled hub caps. Improved pressed steel gear with unusual strength, tubular steel curved handle with attachment to keep it from bumping body. Box is finished in silk green, stenciled in black. Wheels in silk green, gears and handle black.

No. 86..... Each $6.50
One in a Carton

COASTER WAGONS

Pioneer All Steel

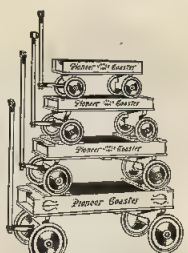
Heavy gauge steel body, 15½x33½ in., made of one piece formed over dies. Bottom of box is of one piece extra heavy sheet steel. Has 16 in. balloon type disc wheels, roller bearing, with 1 in. corrugated tires, flat steel brake with roller on end, heavy channel steel gear, ½ in. cold rolled steel axle, wide braces on body, curved tubular steel handle with bracket which prevents tongue from striking roll on top of box. Body is red enameled, stenciled in gold. Gear and handle are black enameled. Wheels red enameled.

No. 81..... Each $8.00
One in a Carton

Oriole Flyer

Hardwood lumber body with four cleats under bottom, full rail around top, bottom attached with screws, heavy steel gear well braced to bottom, rear gear has double brace to body. Body is natural finish, varnished, with printed decorations, top rails in red, gear black enamel, wheels bright red. Wheels are disc, roller bearing with ⅝ in. corrugated tires, body 14x36 in., wheels 9½ in.

No. 46..... Each $6.00
One in a Carton



Little Tot Wood

A small coaster wagon, high grade in all respects. Hardwood boxes, wood bolster gears, double disc plain bearing steel wheels. Body finished natural waterproof spar varnish, bottom rails and end cleats red. Wheels red.

GIBBS BANG-BALL GAMES

Are Big Holiday Sellers—and They Sell the Year Round—too!

Wherever and whenever people are buying gifts for children, Gibbs Bang-Ball is in big demand. This is one of the fastest selling games on the market today and will make an interesting gift as long as there are children who like to play exciting games.

Bang-Ball Court Game, played with a standard as shown at right, was one of the most popular games at hundreds of boys and girls camps this summer. It is an indoor as well as an outdoor game, being equally popular on playgrounds and private lawns, in gymnasiums and private recreation rooms.

Every game and gift shop or department should keep these popular items on display. They will make many sales.

BANG-BALL PASSING

NO 300 BANG-BALL COURT GAME

No. 150—BANG-BALL

Two ten-inch guns, finished in five bright colors, and two brightly colored celluloid balls make up the set which is packed in an attractive five-color display box. Each box contains complete directions for playing several games. Packed, set up ready to sell, one game in display box. Priced to show a good profit at $1.00 retail.

No. 300—BANG-BALL COURT GAME

Outfit consists of the standard—strongly made of wood and standing seven feet high, set up as shown—two ten-inch guns finished in five colors—and four brightly colored celluloid balls—all packed complete in carton 25x25x4 inches. Compact and light to carry. Easily and quickly set up. Priced to show a good profit at $3.00 retail.

greater credit were granted, buying would pick up and our factories and industries would be quick to respond with increased activity offering more employment, thus putting more money in the consumer's pocket to buy still more.

One large hardware wholesaler makes this statement and backs it up by adopting just this policy with his dealers:

In every community there are men of outstanding character who have always cared for their obligations promptly and satisfactorily. Such men will always pay, even though tardily. If they should pass away, their bills will be assumed by the family remaining. Some of these men, because of unemployment, lack of income through investments, depressed prices of products, or a crop failure, are not in a position to purchase hardware as they have heretofore, for needed repairs and improvement of farms, residences, business blocks, rental property, or equipment such as autos, trucks and machinery. Such men hesitate to ask for credit if indefinite extensions are required.

We think under such circumstances a dealer should *offer* to extend credit with the understanding that long extensions will be given if needed, with a provision for a nominal interest after an agreed date. Such credits will be sound and good assets on the books of any dealer. Through such credit an individual may do necessary work during a period of enforced idleness, and thus be free when the period of activity returns. The dealer will transact just that much additional business in a period when his trade is light, and he has plenty of time to consider special deals of this nature. Most important, perhaps, he will also help to inspire optimism and confidence.

Some dealers may find such a plan of considerable value at this time if customers are of high character and the dealer makes definite long credit terms in advance of the sale. But the success of any such plan depends largely on the skill of the credit man.

2K12164 Set of 2 ... **31.00**

Everybody has heard of "synthetic precious stones" but few realize how remarkable they are. About thirty years ago, a French scientist named M. Verneuil announced to the world that he had manufactured a beautiful ruby of the highly prized pigeon-blood red color, by crystallizing the natural chemical elements which are found in the natural ruby. For the first time in the history of the world Man had succeeded in taking the raw chemical elements and combining them into a beautiful genuine jewel. The new rubies made by M. Verneuil are called Synthetic Rubies for "synthetic" is the scientific term for "manufactured." As they are made from exactly the same elements as the natural ruby, there is no way of telling one from the other—both have the same hardness, the same brilliance, the same chemical composition. M. Verneuil followed his success still further and produced genuine synthetic sapphires so that today synthetic rubies and sapphires are the only jewels that are made synthetically. All other jewels are either genuine or imitation.

Miss Marion Davies, whose rare beauty and exquisite gowns have made her an important personage in the world of films. Miss Davies according to recent newspaper reports has forsaken Paris styles for the smart creations of American designer.

Square, Revolving

Each

No. 112—Without base, with square corners, has 112 drawers; 56 for bolts and 56 for screws height 50 inches; square 24 inches; weight 300 lbs. $127.50

No. 130—With base 30 inches square and 20 inches high, contains 18 drawers for ⅝ and ¾ inch bolts; height over all 72 inches; weight 430 lbs. 136 75

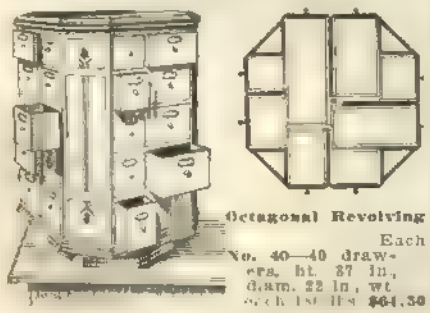
No. 112 Is Labeled as Follows

Washers ¼ ⅜ ½ ⅝
Bolts —¼x1, 1¼, 1½, 1¾, 2, 2¼, 2½, 2¾, 3, 3½, 4, 4½, 5
Bolts —⅜x1¼, 1½, 1¾, 2, 2¼, 2½, 2¾, 3, 3½, 4, 4½, 5, 6
Bolts —½x1½, 1¾, 2, 2½, 3, 3½, 4, 4½, 5, 5½, 6, 7, 8
Bolts —⅝x2½, 3, 3½, 4, 4½, 5, 6, 7, 8, 9, 10, 11, 12
Screws ⅜, 4, 5 (in the drawer)
½, 3, 4, 5, 6.
⅝, 4, 5, 6, 7, 8.
¾, 5, 6, 7, 8, 9.
1, 6, 7, 8, 9, 10, 11.
1¼, 8, 9, 10, 11, 12
1½, 9, 10, 11, 12, 13, 14
1¾, 11, 12, 13, 14
2, 11, 12, 13, 14

This leaves 14 small drawers, with blank labels which can be used for tire bolts or stove bolts, etc

No. 130 Is Labeled the Same as No. 112 with the Following Additions

Washers—⅝, ¾
Bolts —⅝, 5, 6, 7, 8, 9, 10, 11, 12,
Bolts —¾, 7, 8, 9, 10, 11, 12, 14, 16.



Octagonal Revolving

Each

No. 40—40 drawers, ht. 37 in., diam. 22 in., wt. each 150 lbs. $64.30

No. 40 Is Labeled as Follows

⅛x1½, 1¾, 2, 2¼, 2½, 3, 3½, 4, 4½, 5
¼x1½, 1¾, 2, 2¼, 2½, 3, 3½, 4, 4½, 5, 6.

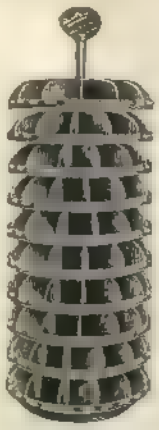
½x2, 2½, 3, 3½, 4, 4½, 5, 6, 7, 8, 9, 10

One in a crate

*REVOLVING BOLT CASES

"REVOLVO" BALL BEARING



This case has ten sections, revolving either way on steel ball bearings. While only 28 in. in diameter it has the display value of ten shelves over 7 ft. long. Comes equipped with 130 compartments, 7 in. wide at face, 12 in. long tapering to center and 6 in. deep. Six of twelve compartment dividers in each section are electric welded and riveted in place to support section base to main central casting. Six remaining compartment dividers are bolted in place, removable, which permits increasing size of compartments. Sub-dividers can be furnished to make small compartments 3½ in. wide at face. Compartments can be 3½ in., 7 in., 10½ in., and 14 in. wide at face. Minimum compartments 60, maximum 240, regularly equipped 120. By removing one divider, drawer unit of twenty-four compartments can be placed in any section.

28 inches wide

Each

No. RS77—Height 63 in., number of sections 10, number of compartments regular equipment 120, wt. each 440 lbs. $275 00

Prices—On drawer units and sub-dividers furnished on request.

*REVOLVING NAIL BINS

"REVOLVO" BALL BEARING

Each steel section revolves either way on ball bearings and has 5 compartments. Each compartment holds 110 lbs. of nails. The stem which supports sections is 2 in. double strength steel. Cast iron base. Nothing to wear out or work loose. Bins are made of steel, electric welded and bolted construction.

Cut shows scale attached to bin

Without scale; 48 in. wide

Nos.	15B	20B	25B	30B
Height, in.	34	46	58	70
Sections	3	4	5	6
Compartments	15	20	25	30

Sections	3	4	5
Compartments	12	16	20
Wt. each, lbs.	230	280	280
Each	$216 00	255.00	287 00

*NAIL BIN COUNTERS

"REVOLVO"

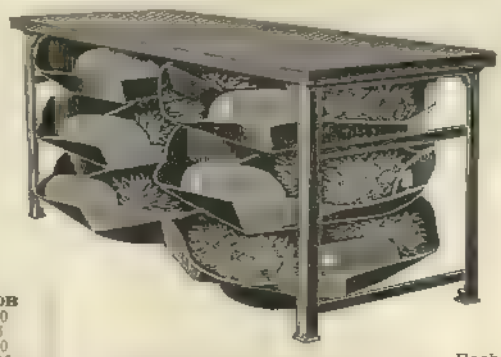
For selling, displaying, wrapping and serving.

The frames of "Revolvo" counters are 1¾ in. tee steel, electric welded and braced with 16 gauge steel triangles. Counter legs are 2 in. by ⅛ in. angle steel with flat cast iron foot to give firm base and protect floor.

Counter tops are 32 in. wide, 5 ply laminated wood, ⅝ in. thick, set in counter frame and covered with surface of durable, green counter linoleum, bound with polished stain-proof metal

Each

No. NBC120—Three revolving section cabinet will stock 12 different sizes of nails or other merchandise; capacity of each compartment 120 lbs.; requires floor space 41 in. wide and 42 in. long, wt. each 400 lbs. $180 00

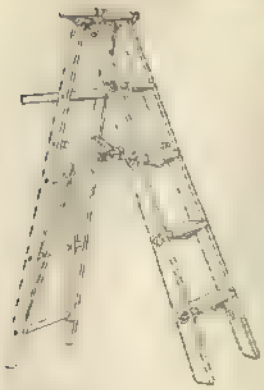


Each

No. NBC240—Two cabinets, each cabinet has three revolving sections of four compartments, 24 compartments will take care of more than 24 kegs of nails, capacity of each compartment 120 lbs., requires floor space 41 in. wide and 7 ft. long, wt. each 750 lbs. $324 00

STEP LADDERS

LE CONTE



Solid risers of genuine selected spruce, ⅝ in. rod and truss block under each step with malleable iron washers; four arm steel lock with wood handle, malleable ears, wide cap and steps; dowel in back legs opposite each step, "V" shaped brace; "U" iron on back legs, angle iron brace under bottom step.

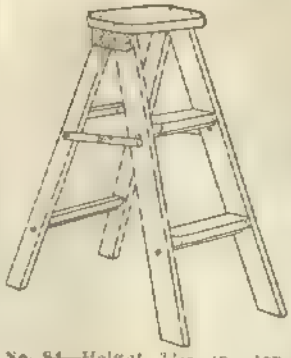
STEP STOOLS

RICH



A necessity in every home, serves as a step ladder and stool.

Folds perfectly when not in use, [illegible] when in use.

Made of selected stock, oiled; finished in natural wood

Each

No. 84—Height 25-2 in., top measures 7x13 in., wt. each 5 lbs. . . $

*STORE LADDERS

ROLLING CEILING LADDERS

For use with unusually high shelving where side ladders will not meet the requirements. Self-adjusting upper fixtures of malleable iron, provided with four steel-cased wheels with hard fibre tread, an equipment that operates easily, noiselessly, and cannot jump the track. Floor wheels also have durable fibre tread

Double track applied with ceiling brackets which may be spaced as desired. Brackets regularly furnished for two foot spacing

Each

No. 95—Oak ladder; complete with fixtures, **without track**; up to 12 ft wt. per ft. 4 lbs $50 00

Per foot

No. 11L—Track for No 95 ladder; complete with brackets, wt. per ft. 1¾ lbs. $0.60

Note—If distance from floor to ceiling exceed 12 feet, add $3 00 to the price of the ladder for each additional foot or fractional part

Illustrating Detail of Trolley and Track

Illustrating in Detail Bottom of Ladder

(*) Not in stock; will ship from factory.

*STORE LADDERS

ROLLING BENT SIDE LADDERS

Intended for use where projection of base shelf is too great for a straight ladder.

The top fixture is self-adjusting with a perfect bearing on the track, allowing the ladder to roll easily whether perpendicular or at an angle, to pass over uneven places in the floor and to be placed close to the shelving when not in use, taking up practically no floor space. Wheels of laminated fibre reinforced with steel and with brass bushings as bearings; treads are lathe turned for smooth rolling. Certified malleable iron frames give utmost strength combined with light weight.

The two large floor wheels are rubber tired, making the ladder perfectly noiseless and easy running

Track regularly furnished in four, six, eight and ten-foot lengths. Brackets regularly furnished for three foot spacing.

Each

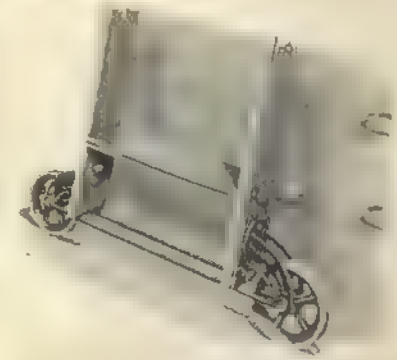
No. 85—Oak ladder, complete with fixtures, **without track**; up to 10 ft wt per ft. 4½ lbs $60.00

Per foot

No. 1L—Track for No 85 ladder, complete with brackets; wt. per ft. ¾ lb. $0 25

Note—If distance from floor to center of track exceeds 10 feet, add $3 00 to the price of the ladder for each additional foot or fractional part

Illustrating Detail of Trolley and Track



Illustrating in Detail Bottom of Ladder

SHELF REACHERS

THE GIRAFFE

For taking down bottles, cans, lamp chimneys, etc., from high shelves. Three-piece construction; handle jointed like a fish pole. Jaws open automatically, and are closed by pressure of hand lever. A simple locking device in middle of handle locks jaws at any point. The steel jaws are covered with heavy rubber which eliminates slipping when handling glassware, etc.

Each

No. 338—Length over all 4½ ft.; wt. each 2 lbs $3 00

One in a carton

BUTT GAUGES

Have three separate cutters arranged with the necessary clearances so that no change of setting is necessary when hanging a number of doors. They are also Rabbet Gauges, Marking Gauges and Mortise Gauges, and have a scope sufficient for all door trim, including lock plates, strike plates, etc.

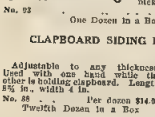
Cutter "A" marks from the jamb in the rebbet
Cutter "B" from the edge of the door changed.
In closing.
Cutter "C" the thickness of the butt.

For Rabbeted Jambs or Nailed Strikes

Graduated in 16ths for 2 in., nickel plated.
No. 94 Each $1.35
One in a Box

For Rabbeted Jambs

Graduated in 16ths for 2 in., nicke. plated.
No. 95 Each $1.75
One in a Box



For Rabbeted Jambs or Nailed Strikes

Steel head, brass slide, graduated in 16ths for 2 in., nickel plated.
No. 93 . . . . . Each $1.60
One Dozen in a Box

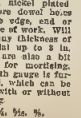
CLAPBOARD SIDING MARKER

Adjustable to any thickness. Used with one hand while the other is holding clapboard. Length 8½ in., width 4 in.
No. 88 . . . . Per dozen $14.00
Twelfth Dozen in a Box

JOINTER GAUGE

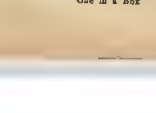
Cast iron and steel, nickel plated. For use on all sizes of iron jack or jointer planes to plane here p of any angle or to square up the edges of boards. Rosewood Knob. Length 11 in.
No. 886. . . . . Each $2.50
One in a Box

BIT GAUGE



Can be attached to any bit up to 1 in. in diam Exact depth can be regulated and bores of uniform depth can be bored 2½ in. long, nickel plated.
No. 49. . . . . Each $0.95
One in a Box

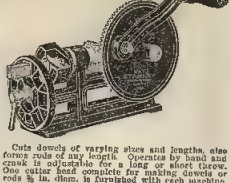
DOWELING JIGS



Made entirely of metal, nickel plated To bore dowel holes in the edge, end or surface of work. Will take any thickness of material up to 3 in. They are also a bit guide for mortising. A depth gauge is furnished, which can be used with or without the jig.

No. 59—With 5 guides, 1 each ⅜, 9/16, ⅝, ¾ and ⅞ in . . . . . Each $3.00
No. 60—With 9 guides, 1 each ¼, 5/16, ⅜, 7/16, ½, 9/16, ⅝, 11/16 and ¾ in . . . . Each 4.25
One in a Box

DOWEL AND ROD TURNING MACHINE



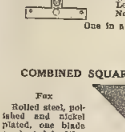
Cuts dowels of varying sizes and lengths, also forms rods of any length Operates by hand and crank is adjustable for a long or short throw. One cutter head complete for making dowels or rods ⅜ in. diam. is furnished with each machine. Additional cutter heads with cutters from ¼ to ⅝ in can be furnished. Cutters are adjustable for a tight or loose fit.

No. 77 -Complete with ⅜ in. cutter head.
Each $15.60

EXTRA CUTTER HEADS

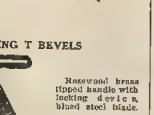
Sizes ¼, 5/16, 7/16, ½, 9/16, ⅝, 11/16 and ¾ in.
No. 77CH . . . . . Each $1.50

ANGLE DIVIDERS



For fitting mouldings or other woodwork into odd angles. Any angle can be found at one setting Handle is graduated on one side for laying out 4, 5, 6, 8 and 10 sided work. Iron body, steel arms, nickel plated. Length 7⅞ in.
No. 89 . . . . Each $2.35
One in a Box

COMBINED SQUARE AND MITRE



Fox

Rolled steel, polished and nickel plated, one blade graduated in 8ths.
No. 3—10 in.
Per dozen $10.75
Half Dozen in Box

SLIDING T BEVELS

Rosewood brass tipped handle with locking device, blued steel blade.

Nos.	25-6	25-8	25-10	25-12

Per dozen	$7.55	8.50	9.90	10.80

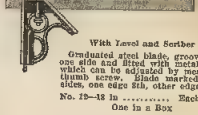
Half Dozen in a Box

Iron handle, steel blade, nickel plated, patent locking device.

Nos.	18-6	18-8	18-10
Blade, in.	6	8	10
Handle, in.	4¾	6¼	6¾
Per dozen	$11.25	14.85	15.75

Half Dozen in a Box

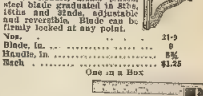
CARPENTERS COMBINATION SQUARES



With Level and Scriber

Graduated steel blade, grooved on one side and fitted with metal head which can be adjusted by means of thumb screw. Blade marked both sides, one edge 8ths, other edge 16ths.
No. 19—18 in . . . . . Each $1.30
One in a Box

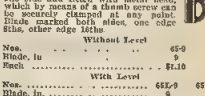
TRY AND MITRE SQUARES



Iron handle, nickel plated, steel blade graduated in 8ths, 16ths and 32nds, adjustable and reversible. Blade can be firmly locked at any point.

Nos.	21-9	21 12
Blade, in.	9	12
Handle, in.	5⅝	4⅝
Each	$1.25	1.50

One in a Box



Graduated steel blade, grooved on one side and fitted with metal head, which by means of a thumb screw can be securely clamped at any point. Blade marked both sides, one edge 8ths, other edge 16ths

Without Level

Nos.	65-9	65-12
Blade, in	9	12
Each	$1.10	1.25

With Level

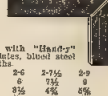
Nos.	65L-9	65L-12
Blade, in.	9	12
Each	$1.35	1.50

One in a Box

Iron handle, nickel plated, steel blade, graduated in 8ths.

Nos.	1-8	1-8
Blade, in.	6	8
Handle, in.	4	5½
Per dozen	$3.25	31.25

Half Dozen in a Box

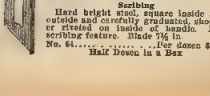


Rosewood handle, with "Hand-y" feature, brass face plates, blued steel blade graduated in 8ths

Nos.	2-4½	2-6	2-7½	2-9	2-12
Blade, in.	4½	6	7½	9	12
Handle, in.	3	3½	4⅝	5⅝	5⅝
Per dozen	9.30	10.35	12.00	14.30	18.30

Half Dozen in a Box

Iron handle, steel blade, nickel plated, graduated in 8ths. Blade 7½ in., handle 5 in. A light tool designed for manual training schools.
No. 17. . . . . Per dozen $12.00
Half Dozen in a Box



Bright hard steel, steel shoulder riveted on handle, graduated in 8ths, mitre end. Blade 7½ in.
No. 62 . . . . Per dozen $2.20
One Dozen in a Box

Scribing

Hard bright steel, square inside and outside and carefully graduated, shoulder riveted on inside of handle. Has scribing feature. Blade 7½ in.
No. 64. . . . . Per dozen $3.50
Half Dozen in a Box

*GAS RANGES

HARDWICK

Hardwick gas ranges provide the utmost in value in the price fields in which they have been designed to sell. Every trend in range design and manufacture has been anticipated—beauty and color for the modern kitchen, performance pronounced perfect by skilled engineers of the American Gas Association Laboratories, and many refinements available hitherto only on the most expensive ranges.

Special angle iron base and top provide strength and rigidity. Entire front constructed of cast iron, new springs give positive action and long life to all doors; strong steel doors with unbreakable hinges

All Porcelain Enameled

Enamel [illegible] Marble bottom and ivory porcelain enamel finish; porcelain enameled oven linings; cool pendant handles; ventilated oven with insulated oven door; scientifically designed oven and top burners

Cooking top 20x20 in.; cooking height 32 in.; oven 16x19x13 in.; broiler 16x19x7 in.; floor space opening 12x16 in., floor space 20½x38 in

	Each
No. 3966G—Right hand oven	$90 00
No. 3965G Left hand oven	90 00

Shipping weight 220 pounds.

All Porcelain Enameled

	Each
No. 630—Cooking top 19½x6[illegible] in., oven 19x13½x12½ in., height over all 33 in., drip pan broiler, grate 5 in.; shipping weight each 75 lbs.	$24 45

(*) Not in stock; will ship from factory

The "Haughton" Elizabethan Period Dining Group

Much of the furniture used in the buccaneer days of Elizabeth was massive because men of daring and adventure required ample and substantial accommodations; yet the furniture of that dauntless age possessed an inwrought beauty in the harmony and grace of its general lines and carved ornamentation. The latest symmetry and beauty of the early models has been faithfully recreated in this "Haughton" dining room suit. The tops of all pieces are five-ply veneer faced with finely striped Walnut. Posts, stretchers and framing are of Maple. The top drawer of the buffet and the compartment doors are faced with hand selected curly Maple. A decorative overlay appears on the top drawer front on either side of the Maple entablature, while a high lighted ring carving of Maple on an octagonal overlay enriches the compartment doors. The mouldings are particularly reminiscent of the carved embellishments of Elizabethan originals. The China is made especially useful by the addition of a drawer for reserve linens and table appointments, while the glass door is fitted with an ornamental grill of Walnut veneers.

No. 53F28.	Buffet. Top, 22x66 inches. Shipping weight, 220 lbs. Each	$104.00

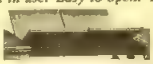
Tudor in Character—Modern in Convenience

THE PEMBURY SUITE

In the days of Henry VIII merry making and feasting were of prime importance. Henry gave more thought to his stomach than he did to politics, leaving those irksome problems to his princely Chancellor, Wolsey. While Wolsey was winning greater popularity than the King, the gluttonous Henry was [illegible] feasts and barbecues. The furniture of his time reflected the [illegible] of the Tudor court. And in this Pembury group much of the [illegible] has been preserved and convenience improved to meet modern [illegible]. The solid parts are of genuine quartered gum for strength while the [illegible] are of five-ply walnut. Decorative overlays are of figured Marble [illegible] has been carefully finished inside and out. The drawer [illegible] are of mahogany.

No. 22F32.	Buffet. Height, 37½ in.; width, 66 in. Shipping weight, 210 lbs. Each	$108.00
No. 22F33.	China. Height, 67 in.; width, 40 in. Shipping weight, 165 lbs. Each	$105.30
No. 22F34.	Server. Height, 35½ in.; width, 38 in. Shipping weight, 120 lbs. Each	$62.70
No. 22F35.	Table. Top, 44x64 in. Shipping weight, 275 lbs. Each	$108.00
	One arm chair and five side chairs, packed together. Shipping weight, 200 lbs.	
No. 22F36.	Side Chair. Each	$18.70
No. 22F37.	Arm Chair. Each	24.00

Note: Patented Seng Construction. Leaves concealed in table top when not in use. Easy to open. Easy to close.



*HAY CARRIERS AND HAY CARRIER TRACK

Illustrating How Track, Rope Stop and Pulley Should Be Placed in the Barn

Place pulley to draw the carrier back into the mow directly under and in line with track, as shown in cut. Do not allow steel track hanging hooks to project below casting under track through which they are screwed, as they will interfere with the carrier.

Fig. 430 shows how steel track should be put up and how rope is tied from one rafter to the other close under the track to make stop for carrier at end of barn. Also shows how rafter brackets are placed.

DIRECTIONS FOR ERECTING MYERS PATENT STEEL TRACK

Scaffold by placing rope from rafter to rafter, say 6 feet from ridge pole or peak and about 10 feet apart. Then place extension ladder across the ropes with board to stand on. Now nail one rafter bracket at each end of barn and draw a line from one end to the other and stretch tight. Then nail all rafter brackets even with this line. You are now ready to put up the track, which can be done in sections. Hoist near to rafter brackets by ropes. Then place hanging hook over rafter bracket and finish by putting in bolt.

Material Required for a Steel Track Outfit for Different Length Barns

FOR A 40 FOOT BARN—One Hay Unloader. 36 feet Steel Track. 19 Hanging Hooks. 19 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 110 feet ¾ inch Manila Rope. 50 feet ⅝ inch Check Rope. 40 feet ⅝ inch Reverse Rope.

FOR A 50 FOOT BARN—One Hay Unloader. 48 feet Steel Track. 25 Hanging Hooks. 25 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 130 feet ¾ inch Manila Rope. 55 feet ⅝ inch Check Rope. 50 feet ⅝ inch Reverse Rope.

FOR A 60 FOOT BARN—One Hay Unloader. 54 feet Steel Track. 28 Hanging Hooks. 28 Rafter Brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 160 feet ¾ inch Manila Rope. 60 feet ⅝ inch Check Rope. 60 feet ⅝ inch Reverse Rope.

FOR A 70 FOOT BARN—Hay Unloader. 66 feet of Track. 34 Hanging Hooks. 3½ pounds Bracket Nails. 6 Fig. 1120 Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 190 feet ¾ inch Draft Rope. 70 feet ¾ inch Check Rope. 70 feet ⅝ inch Reverse Rope.

FOR AN 80 FOOT BARN—Hay Unloader. 78 feet of Track. 40 Hanging Hooks. 40 Rafter Brackets. 4 pounds Bracket Nails. 5 Fig. 1120 Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 210 feet ¾ inch Draft Rope. 80 feet ⅝ inch Check Rope. 80 feet ⅝ inch Reverse Rope.

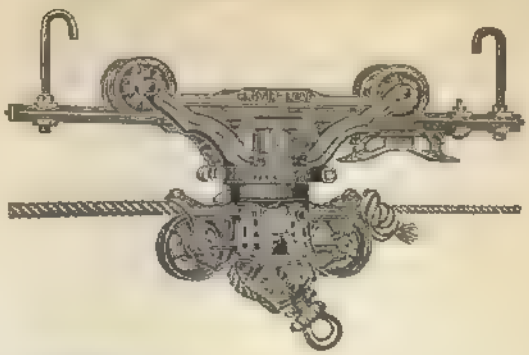
Different lengths of barns will use track, hanging hooks and rope in same ratio as above.

If required to take hay in at end of barn and have rope pass down at far end to horse, same amount of draft rope. If draft rope be returned to same end of barn and then down, this requires about one fourth more draft rope.

HOW TO REVERSE CARRIER

Set fork in hay. Tie ends of rope together, to which horse and weight are attached. Pull on small rope until knot comes to the floor, then untie ropes. Fasten weight G on small rope, change pulley A to floor hook H. This reverses carrier for opposite direction without leaving the floor or climbing up. Use all knot passing pulleys. For taking in hay at end of barn use V shaped brace for track support, as shown in cut.

MYERS CLOVER LEAF UNLOADER



Bottom view of carrier, illustrating the wide open mouth to receive the fork pulley when approaching in any direction.

For Double Steel Track

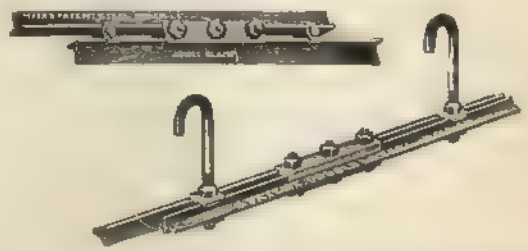
Swivel and reversible; rope draft; made of malleable iron throughout; 16 inch truck; heavy and substantially made; fitted with wide open mouth to receive fork pulley when approaching in any direction; has swinging fork pulley, which relieves the carrier from all strain when drawing hay over a high beam or into a well filled mow; the 3¼ inch track wheels revolve on ⅞ inch turned steel axles; rope sheaves have longer hub than any other make of carrier.

The lock is composed of three parts and has no springs; the locking device grasps the fork pulley on either side and permits it to swing free.

No. 114—Weight 28 pounds . . . . . Each $10.75

Open stock

MYERS PATENT, DOUBLE STEEL TRACK



With Joint Clamps and Bolts, without Hanging Hooks

Made by placing two T steel rails together; held in place by clamps and hanging hooks, with space between so hanging hook can be placed where it coincides with rafter, thus making is a very convenient track to put up. Hanging hook serves as a clamp also, and adds much in holding track to place, serving for clamp and hanging hook.

When track is clamped together it becomes very stiff, and is the most complete device known for a hay or merchandise carrier track; easily put up; no riveting; a wrench is the only tool needed; it is a complete system.

Joint clamp is composed of two pieces of malleable iron and three ½ inch bolts by means of which the track is clamped together with what is known as a broken joint. This gives the same strength at the joint as in any other part of the track.

Note—Track is furnished complete with joint clamps and bolts but without hanging hooks.

Weight per foot about two pounds.

No. 824—Length, feet	6	12
Per Foot	$0.25	.25

★Not carried in stock; for factory shipment only.

ELECTRIC VENTILATING FANS
R. & M.

Six-Blades, Drawn Steel Frame, Fully Enclosed Motors

These fans are excellent for keeping the air in a room fresh and removing smoke, dust or objectionable odors.

The outfit is complete and ready to fasten to the wall or ceiling wherever the necessary opening can be made.

The motor and supporting ring are finished in baked black enamel. The fan blades are brass, polished and lacquered.

Dimensions: 12 in. size—diameter of fan blades 12 in.; diameter of ring inside, 13⅝ in.; outside, 16 in.

16 in. size—diameter of fan blades, 16 in.; diameter of ring, inside 17⅝ in.; outside, 20 in.

12 Inch Size

No. 4054—AC current, 60 cycles, 100 to 120 volts ... ... Each $25.00

16 Inch Size

No. 4079—AC current, 60 cycles, 100 to 120 volts .....Each $27.50
One in a Box

WALL REGULATOR

For starting and stopping ventilating or ceiling fans from a convenient point away from the fans, also gives two speeds below full speed.

For Nos. 4054 and 4079 A.C. current fans.
No. R—AC.....Each $5.00

NOTE—When ordering, state number of fan the regulator is to be used on.

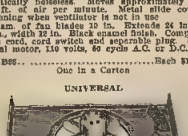
ELECTRIC VENTILATING FANS
PULAK TYPE

New extension type ventilator, made entirely of heavy metal, finished in black. Powerful motor is suspended by strong springs to make it practically noiseless. Moves approximately 500 cu. ft. of air per minute. Metal slide covers screening when ventilator is not in use.

Diam. of fan blades 10 in. Extends 24 in. to 35 in., width 12 in. Black enamel finish. Complete with cord, cord switch and separable plug. Universal motor, 110 volts, 60 cycle A.C. or D.C.

No. 8S6.....Each $11.50
One in a Carton

UNIVERSAL



Fits snugly in top of window without shutting out light or interfering with operation of window.

Eagle Hump type propeller motor housing, ring and brackets of cast aluminum highly polished, panel sheet metal finished in baked enamel green.

110-220 volts, 60 cycle A.C. Complete with cord and sheet metal plug.

INDUSTRIAL SIGNALS

Heavy Duty Non-Weatherproof D.C.

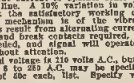
Pressed steel body with insulated side entrance for open wiring. One-piece drawn brass bell type projector is rigidly attached to heavy pressed steel cover, which also carries the mounting bracket. Wire connections easily accessible by loosening two screws and removing back. Baked black enamel finish.

No. S324A—Brass bell projector.... Each $13.50

ALTERNATING CURRENT INDUSTRIAL HOWLERS

May be operated on multiple or series circuits, or in connection with vibrator or single-stroke gongs or other electrical signal equipment. When used in series with other electrical devices, special windings are furnished which allow passage of sufficient current to operate other devices on the same line. A 10% variation in voltage does not affect the satisfactory working of howler. Sounding mechanism is of the vibrator type. Vibrations result from alternating current cycles, no make and break contacts required, no adjustments needed, and signal will operate continuously without attention.

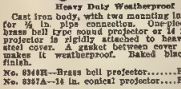
Standard voltage is 110 volts A.C., but any voltage from 6 to 250 A.C. may be specified at an advance of 40c each, list. Specify voltage on orders.



Heavy Duty Weatherproof

Cast iron body, with two mounting lugs, tapped for ¾ in. pipe connection. One-piece, drawn brass bell type sound projector or 14 in. conical projector is rigidly attached to heavy pressed steel cover. A gasket between cover and body makes it weatherproof. Baked black enamel finish.

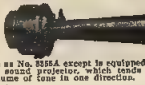
No. S348R—Brass bell projector.....Each $13.50
No. S387A—14 in. conical projector....Each 13.75



Heavy Duty Non-Weatherproof

Pressed steel body with insulated side entrance for open wiring. One-piece drawn brass bell type sound projector is attached to heavy pressed steel cover which also carries the mounting bracket. Wire connections easily accessible by loosening two screws and removing back. Baked black enamel finish.

No. S325A . . . . . Each $10.50



Same as No. S325A except is equipped with 9 in. conical sound projector, which tends to confine the volume of tone in one direction.

No. S182R.....Each $6.75

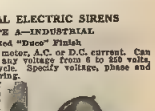
FEDERAL ELECTRIC SIRENS

TYPE A—INDUSTRIAL

Red "Duco" Finish

Has Universal motor, A.C. or D.C. current. Can be furnished in any voltage from 6 to 250 volts, any phase or cycle. Specify voltage, phase and cycle when ordering.

Weather proof sheet steel double horn and motor housing for factories, mines, schools and institutions. Used as an industrial signal for starting and quitting and emergency signal. Can be connected to any standard time recording system to sound automatically at regular intervals. Can be wired in multiple and operated from any number of locations by H. P. motor.



Total length 14 in., horn diam. 10 in., weight 17 lbs. Mention voltage.

No. A-I.....Each $37.50

HEATING AND VENTILATION DATA

HELPFUL SUGGESTIONS

In order to counteract the quite general impression that it is difficult to figure the average exhaust fan installation we believe the following information will clearly indicate there is no reason to assume that ventilating problems are at all complicated.

If a five-minute air change is desired, or to change the air in a room every five minutes, all that is necessary to do is to figure up the cubical contents of the room by multiplying the length, width, and height. After getting the cubical contents, divide the same by five, which gives you the amount of air a fan should handle.

As an example: Take a room 100 ft. long, 25 ft. wide, with a 14 ft. ceiling. By multiplying 100×25×14, it is found that the room contains 35,000 cubic ft. of air space. Dividing this by 5, equals 7000. This is the amount of air, namely, 7000 cubic ft., which a fan should handle to create a five-minute air change in the room.

By referring to our catalog, you can find the fan that has this capacity, or slightly more.

Exhaust fans should always be placed at the directly opposite end of intake, so a complete circulation is created through entire room. All openings on same side of room where fan is placed should be kept closed.

Experience and past practice have taught that it is necessary to change the air at certain specified intervals, and the following data has been worked out

Restaurant and Hotel Kitchens—Every two minutes.
Offices and Stores, depending on climate—Every five or ten minutes.
Workrooms and Factories—Every five or ten minutes.
Residence Kitchens—Every two minutes.
Garages—Every five to ten minutes.
Theatres—Every two to five minutes.
Halls—Every five minutes.
Laundries—Every two to five minutes.
Farm Barns—Every ten minutes.

INDUSTRIAL SIGNALS

DIRECT CURRENT INDUSTRIAL HOWLERS

For multiple operation on direct current only and may be employed on circuits as high as 250 volts. Standard voltage is 110 volts, D.C., but any voltage from 6 to 250 D.C. inclusive may be specified at an advance of 50c each list. Specify voltage when ordering.

When six or eight D.C. howlers are to be used on one circuit, not less than 32 volts should be used.

Sounding mechanism is of the vibrator type with oversize make-and-break contact points of silver. An especially constructed condenser across contact points prevents arcing.

Vibrator springs are mounted independently of the armature.

Adjustment of tone volume and pitch of note is made by turning an adjustment screw, which is self-locking so vibrations will not jar it loose.

Heavy Duty Weatherproof

Cast iron body, with two mounting lugs, tapped for ¾ in. pipe connection. One-piece, drawn brass bell type sound projector or 14 in. conical projector is rigidly attached to a pressed steel cover. A gasket between cover and body makes it weatherproof. Baked black enamel finish.

No. S236R—Brass bell projector..... Each $15.00
No. S258A—14 in. conical projector.. Each 16.25

The W Bingham Co

FEDERAL ELECTRIC SIRENS

TYPE A FOR FIRE APPARATUS

For operation direct from storage battery, furnished with bracket suitable for mounting on either vertical or horizontal surface. Reduces accidents and speeds up the movement of the fire department. Nickel plated horn. ½ H.P. motor. Total length 14 in., horn diam. 6 in., weight 7¼ lbs. Specify voltage when ordering.

No. A-F. .....Each $40.00

TYPE A FOR MOTOR BOATS

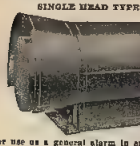
An ideal signal for yachts, motor-boats and other electrically equipped vessels requiring a shrill penetrating sound signal. Comply with all government regulations.

Polished brass or nickel plated finish, double horns, weatherproof motor housing. Length 14 in. Weight 10 lbs.

½ H.P. motor. Specify voltage.

No. A-M..... .....Each $50.00

SINGLE HEAD TYPE B



For use as a general alarm in small towns, or as a starting and quitting signal at factories, farms, etc. The distance penetration is approximately ½ of a mile. Weight 240 lbs.

ALTERNATING CURRENT

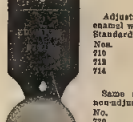
MONITOR BELLS

For battery or transformer operation. An entirely self-contained bell of neat appearance. The hammer-rod moves on a straight line and strikes the inside of the gong. This makes the bell weather, bug and dust proof. The springs are phosphor bronze, the contacts pure hard-drawn silver. 8 in. gong, base finished black. Vibrating type. Standard resistance 1 ohm.

No. 156..... .....Each $1.80
One in a Carton

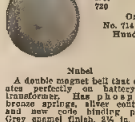
IRON BOX BELLS

For battery or transformer operation. Hammer rod, ball and armature are all one piece. Rod is swaged to prevent bending in operation. Hammer ball is under the gong to prevent disarrangement. Armature is pivoted at nearest possible point to cover, where there is practically no side motion, the hole therefore is only slightly larger than the rod itself and bell is practically weather, dust and bug proof. Has new-code binding posts.



Cadet
Adjustable, finished in black enamel with nickel trimmings. Standard resistance is 2 ohms.

Nos.	Size, In.	Each
710	2½	$1.04
712	3	1.18
714	4	1.52



Same as above, except is non-adjustable.

No.	Size, In.	Each
720	2½	$0.92

One in a Carton
No. 714 Fifty, Balance One Hundred in Std. Pkg.

Nubel
A double magnet bell that operates perfectly on battery or transformer. Has phosphor bronze springs, silver contacts, and new code binding posts. Grey enamel finish, 3½ in. bell.

No. 735..... Each $0.84
One in a Carton
100 in a Std. Pkg.

Tubel
Two double magnet bells of different tone on one frame with the complete mechanism except the binding posts under a neat cover. Grey enamel finish.

No. 736..... .....Each $1.20
One in a Carton
50 in a Std. Pkg.

COMBINATION BELLS AND BUZZERS

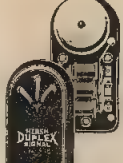
Buz-a-Bel
A bell and buzzer on one frame under one cover. Adjustable, standard resistance is 2 ohms. One binding post is for the common battery supply, one for the buzzer and one for the bell. Finished in black enamel with nickel trimmings, 2½ in bell.

No. 730.....Each $0.95
One in a Carton
100 in Std. Pkg.

Combet
A double magnet bell and double magnet buzzer on one frame with the complete mechanism under cover (except the binding posts). Grey enamel finish.

No. 737 .....Each $1.12
One in a Carton
50 in a Std. Pkg.

COMBINATION BELLS AND BUZZERS



Herah
Bell and buzzer combined. Cover protects the signal from injury and from effects of dust and dirt. This, coupled with their superior construction, is evident assurance that these signals under all conditions will last longer and give greater satisfaction. Grey enamel finish. 2½ in. bell.

No. 101....Each $1.26
One in a Carton
50 in Std. Pkg.

LUNGEN BELLS

8 ohms, 6-8 volts D.C. standard. Have phosphor bronze springs, double locking adjustment, pure hard-drawn silver contacts. Tight fitting covers. All metal, up to 4 in size are nickel plated, 5 in. size is all black. Size 1 to 3 in. will operate on transformer.

	Each
No. 12-1—1 in. bell.....	$2.00
No. 12-1½—1½ in. bell.	1.20
No. 12-2½—2½ in. bell.	1.30

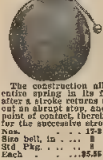
No. 12-4—4 in. bell.....	2.30
No. 12-6—6 in. bell...	9.45

One in a Carton
10 Assorted Std. Pkg.

SKELETON BELLS



Used where heavier duty bell than iron box style is needed, but where a weatherproof or covered bell is unnecessary. The new vibrating coil gives great intensity and power, long life and operation without adjustment. New code connectors make it impossible for wires to spread or loosen. Contact points are pure hard-drawn silver 5 ohms, 6 to 8 volts D.C standard.

The construction allows free operation of the entire spring in its full length. The armature after a stroke returns to its normal position without an abrupt stop, and continues past the normal point of contact, thereby gaining extra momentum for the successive stroke.

One in a Carton, 6 Assorted Std. Pkg.

ALTERNATING CURRENT BELLS

For all purposes where transformer or A.C. lighting circuits are available. No contact to wear or stick, gives more volume and better quality of sound.

The binding posts and all parts are completely covered and as the hammer rod operates in a straight line, the hole in the cover is but little larger than the rod itself which makes the bell weather, dust proof, and with the addition of a rubber gasket the bell is weatherproof. Approved by the National Board of Fire Underwriters.

A WORLD-MARKET UNDER ONE ROOF

THE FIFTH AVENUE BUILDING

MORE THAN AN OFFICE BUILDING

THE Fifth Avenue Building, 200 Fifth Avenue—junction of two of the world's most famous trade arteries—saves precious time for busy buyers. Instead of having to elbow or taxi their way through congested areas to reach a number of scattered dealers, they come to The Fifth Avenue Building and concentrate all their New York buying under one roof. This is the wise buyer's haven. While others go from street to crowded street, he heads for 200 Fifth Avenue and goes from room to room.

Truly, The Fifth Avenue Building is a world-market. In these broad halls Russian traders meet merchants from Peru. While in one office a manufacturer from Ohio is quoting the prices of his talking dolls to a toy-buyer from Havana, on the floor above buyers from San Francisco are comparing prices in the offices of leading makers of women's wear. Here a man from Denver has just completed his seasonal requirements in cards and stationery. There a bronzed Texan is inspecting the displays of a leading glassware concern.

This massive structure houses the leaders in numerous lines—toys, xifts, china, men's wear, laces, office equipment, metal products, housefurnishings, art goods, and many others. An information clerk in the lobby will cheerfully supply detailed information concerning any of these lines. Efficient elevator service adds to the convenience of both buyer and tenant.

And The Fifth Avenue Building is readily accessible from any part of New York. A subway enters the building. Pennsylvania Station is ten minutes away, Grand Central thirteen. Busses and surface cars pass the doors. There is an elevated line a block away. The shopping and financial sections are at either hand.

The next time you are in the city, won't you let us show you through the building?

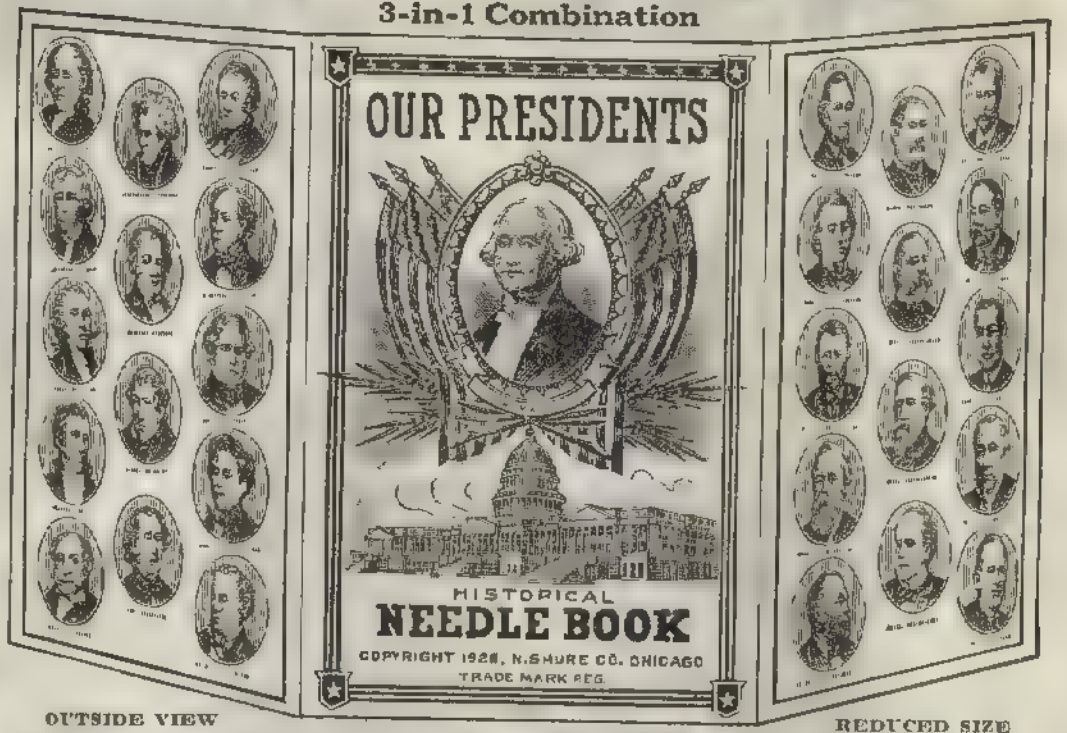
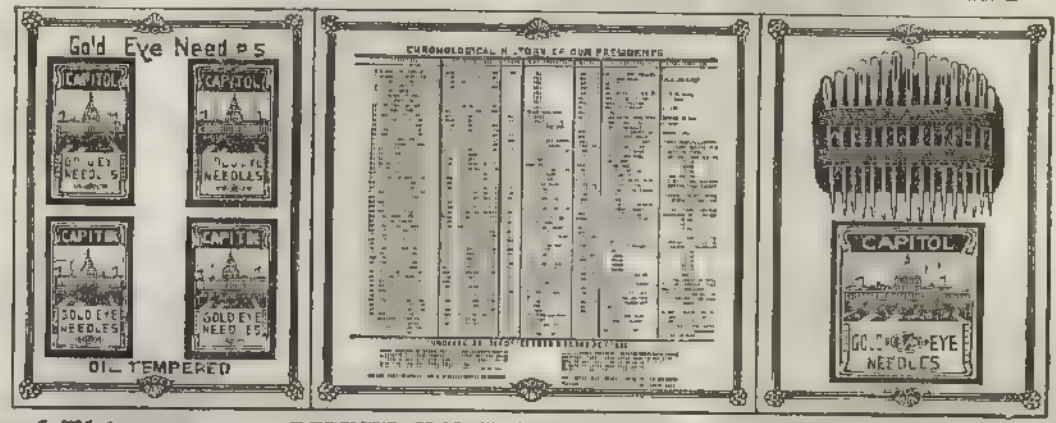
Our Presidents Needle Book

3-in-1 Combination



OUTSIDE VIEW

REDUCED SIZE



REDUCED INSIDE VIEW SHOWING CONTENTS

Read This—

Our Presidents, the world's best combination 3 in 1 needle book and handy historical reference. In 1909 we created the original Army & Navy needle book which for sales has surpassed anything that has ever been put on the market. It has always been our aim to bring out something entirely different, and we believe that the above needle book will fill a long felt need for something better. We are justly proud and we feel sure that after you have made a careful examination of the lithographing, general make-up and the all gold-eye needle feature, you too will share our enthusiasm. For the Premium user it has the appearance of a $1.00 value.

Each in individual envelope marked as follows: Introductory Price, 50c

Contents—All Gold-Eye Needles

4 papers 10 needles each, assorted 1-5, 3-9, 4-8, 5-10.

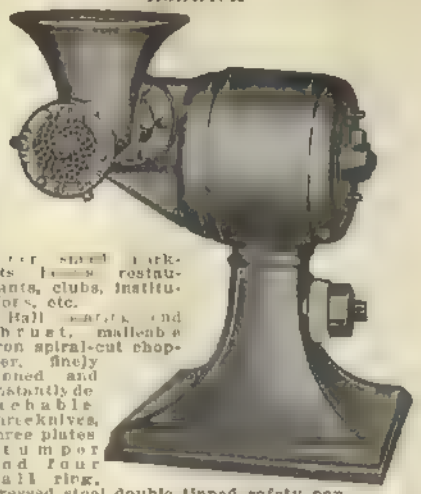
No. 9B Diam. 4 in., 160 teeth	18 00

*Not in stock, will ship from factory

ELECTRIC MEAT GRINDERS

BOLWICK

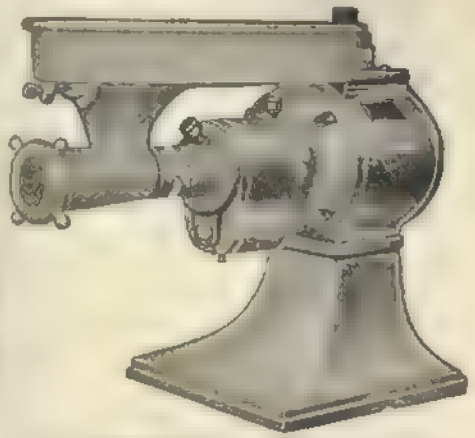


For steel markets, hotels, restaurants, clubs, institutions, etc.

Ball bearing end thrust, malleable iron spiral-cut chopper, finely tinned and instantly detachable three knives, three plates, stumper and four ball ring, pressed steel double tinned safety pan.

Robbins & Meyers motor, wound for 110 and 220 volts, about 3 lbs. per minute capacity, size 12x18 in., height 20 in. Aluminum and red color.

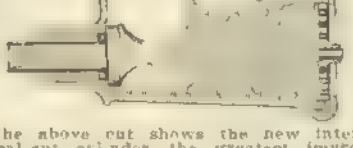
	Each
No. 12 For A. C. current, ¼ h. p. motor, shipping wt. each 110 lbs.	$288 45
*No. 13—For D. C. current, ¼ h. p. motor, shipping wt. each 110 lbs.	300 00



For meat markets, spiral cut chopper, three knives, three plates, stumper and white enameled pan. Steel gears operate in oil.

Oversize Robbins & Meyers motor, wound for 110 and 220 volts, cap. 4 to 5 lbs. per minute, size 12x26 inches, height 18 inches. Aluminum and red color.

	Each
No. 18—For A. C. current, ½ h. p. shipping weight	$180 00
*No. 19—For D. C. current, ½ h. p. motor, shipping wt. 150 lbs.	181 00



The above cut shows the new internal spiral-cut cylinder—the greatest improvement ever made in the meat grinding industry. Shears the meat into strips before it reaches the knife and plate, grinds faster and better. Saves one third of the cost for current. Contains less meat when the batch is through.

Delivers a nice, clean meat on the platter because it is not heated and more thoroughly mixed. Easier to clean. With brass wire brush sent with it. Double plated with chromium and will never rust or break.

For grinding hamburg or sausage meat it is far superior and the meat is finer when once through it, than when twice through the old style.

DAZEY CHURNS

*ELECTRIC

Tank made of triple plated copper bearing charcoal tin; blue enameled on outside, cast gray iron and steel frame, finished two coats of bright aluminum; high base to permit a pail being set under it to catch milk or washing water; sanitary faucet in tank; two piece maple cover, natural finish four paddle turbine dasher heavily nickel plated dasher rod; gears at top inclosed high grade motor mounted on churn 10 ft. heavily insulated cord with attachment plug and belt. HORSMAN-HENDREN DOLLS

200 FIFTH AVENUE, NEW YORK

FLOSSIE FLIRT
with Rubber Legs, Rubber Arms, Rubber Bust

FROM MAINE TO CALIFORNIA
FROM THE GULF TO THE GREAT LAKES

TICKLETOES and FLOSSIE FLIRT are being demonstrated and sold in thousands of the country's leading department and specialty stores. The roster of these stores reads like the Blue Book of American retailing; for example:

J. N. Adam & Co., Buffalo, N. Y.
Bamberger's, Newark, N. J.
J. L. Brandeis & Sons, Omaha, Neb.
Crowley, Milner Co., Detroit, Mich.
Daniels & Fisher Stores Co., Denver, Colo.
Elder & Johnston Co., Dayton, Ohio
The Fair Store, Cincinnati, Ohio
Famous & Barr Co., St. Louis, Mo.
Gimbel Brothers, Philadelphia and Pittsburgh, Pa.
D. H. Holmes Co., Ltd., New Orleans, La.
J. L. Hudson Co., Detroit, Mich.
The Geo. Innes Co., Wichita, Kansas
The Jones Store Co., Kansas City, Mo.
S. Kann Sons Co., Washington, D. C.
Kaufman Straus Co., Louisville, Ky.
Kresge Dept. Store, Newark, N. J.
Lit Brothers, Philadelphia, Pa.
Fredk. Loeser & Co., Brooklyn, N. Y.
The May Co., Los Angeles, Baltimore, and Cleveland
A. I. Namm & Son, Brooklyn, N. Y.
New Bedford Dry Goods Co., New Bedford, Mass.
Owen, Moore & Co., Portland, Maine
Sears, Roebuck & Co., Chicago, Ill.
Sibley, Lindsay & Curr Co., Rochester, N. Y.
Wanamaker's, New York City
R. H. White Co., Boston, Mass.

and hundreds of other stores of similar standing and prestige.

TICKLETOES
with Rubber Legs and Rubber Arms

Naturally, TICKLETOES and FLOSSIE FLIRT are extremely gratified at this widespread recognition of their sterling merit, and unite in wishing all their friends a very Merry Christmas and a Prosperous New Year.

The fact that no store has cut prices on IDEAL DOLLS is due to their exclusive features which place them above competition.

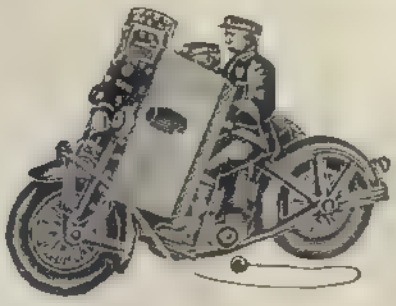
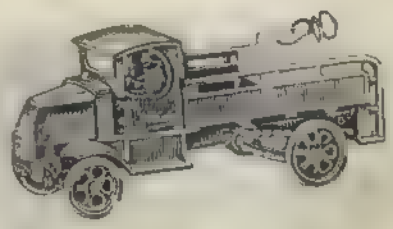
IRON TOYS



No. 13—Indian Armored Car. A pull toy beautifully lithographed. Length, 8 inches. One in box. Each..... $2.25

No. 45—Motorcycle. The four cylinder Motorcycle is 9 inches long. Assorted colors, and has demountable rider, rubber tires and imitation motor exhaust. Each $1.00

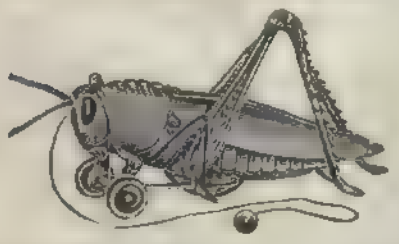


No. 227—Mack Ice Truck. The finish is blue trimmed in gold with nickeled man. One piece of ice and nickeled tongs. Length 8½ inches, with 3 inches, height 3⅞ inches. Each. . .$1.00

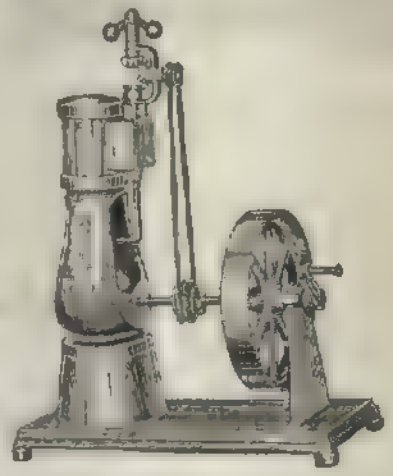
Jaeger Concrete Mixers. Top crank, by means of cable, lifts hopper which automatically empties into bucket. Wheel turns gear wheel, engaging teeth on bucket gears which turn bucket to thoroughly mix contents, while a side lever provides quick dumping. Uprights finished in blue with chassis of bright orange trimmed with gold bronze. Wheels, bucket and hopper of highly polished nickel. Made in two lengths—7¼ and 8½ inches.

No. 650. Each... .. .. $1.25

No. 652. Each..... ..... 2.00

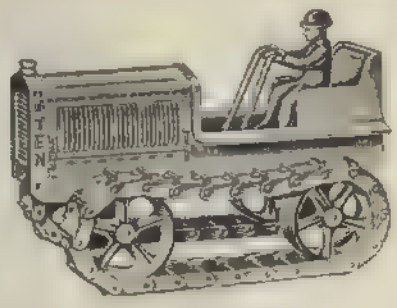


No. 9—Grasshopper. An iron pull toy lithographed in realistic colors. Length, 12 in., width, 4 in., height, 5½ in. 1 in box. Each $2.00

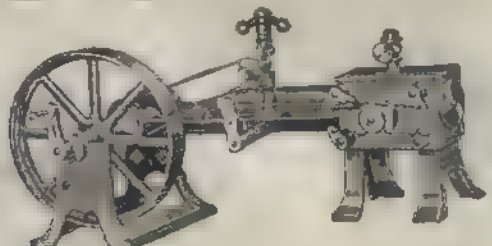


No. 502—Vertical Engine. The finish in red and green with nickel trim forms a real eye appeal. All parts work direct from crankshaft, except governor, which operates by belt from pulley on crankshaft. Piston works in vertical position, and also operates valve on cylinder head. A small pulley placed beside crank on crankshaft allows for operating of other toys, or the engine being powered by an electric motor. Length, 6⅝ in., width, 3¼ in., height 8½ in. Each $1.25

No. 508—Buckeye Ditcher. The buckets of this unique toy operate on an endless chain and bite into a sand pile with realistic ability. Two cranks are provided which operate sprocket drives, one to move the buckets and the other one to raise or lower into position the boom on which the buckets operate. A slide carries sand dumped by the buckets off to [illegible] type which move over obstructions easily on chain tread. Easy to operate by hand or motor. Length [illegible] in., width, 4¼ in., height, 6¼ in. Each.....$3.00



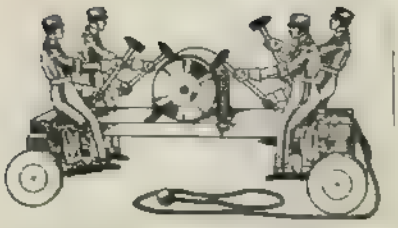
No. 288X—Caterpillar Tractor. Colors assorted red, green and blue trimmed in gold. Nickeled man and chain. Chain drive off of wheels. Length 5¾ inches. Each $0.50



No. 500—Horizontal Engine. By turning the crank all working parts of the engine are put into operation. By contact with pulley on crank shaft with round rubber belt, a small pulley operates the governor by means of gears. The eccentric pulley on crank shaft operates rocker arm which in turn moves the valves on steam chest in realistic manner by means of connecting wires. On the opposite side, the rotating crank head operates connecting rod which moves the piston back and forth in realistic manner. A pulley on the crank shaft, beside the crank, provides for running of other toys or the attaching of an electric motor. Patterned after a well known engine, it is real in everything but size, and especially attractive with its color combination of red, green, polished nickel and gold bronze trim. Length, 8 in.; width, 5¾ in.; height, 5 in. Each.....$1.50

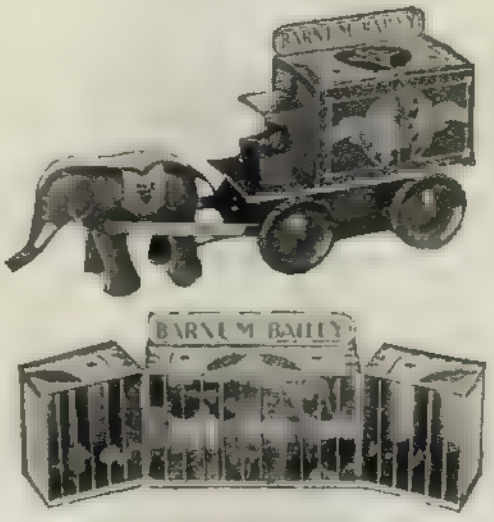
No. 412—Panama Dump Wagon. Length, 14⅛ inches, width, 3½ inches; height, 4¾ inches. Color: Assorted colors, trimmed in gold. Nickel plated man. Black horses with gilded bridles. Pick and shovel furnished. Packed 1 in a paper box, 1 dozen in a case. Case net weight, 45 pounds; gross weight, 50 pounds. Each $1.00

TOY SPECIALTIES



No. 44—4 Mac Brothers. Beautiful Big Action Toy. Four busy boiler makers striking the big gongs give continuous action and chimes. 14 inches long, 7 inches high. Each **$1.00**

Giant Roller Coaster. A really handsome durable toy, 43 inches long Decorated in bright colors. A very ingenious and durable spring motor operates the toy over twenty-five times at one winding Separates in two parts for packing, but assembled instantly by the youngest child. Packed in a handsome, three-color, individual box. Each **$2.50**



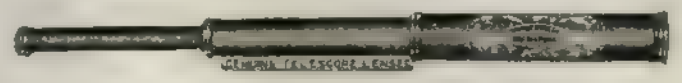
No. 215—Circus Wagon. When wound up, the elephant walks along, pulling the truck in a very realistic manner. Equipped with circus-performing Clowns and Wild Animals, all on wheels Length 17 inches Each **$1.00**

No. 216—Circus Wagon. Same general description as No. 215. Lift off the wagon body, open it up to its surprising length of 47 inches. Wagon closed 37 inches long Each **$5.00**

Dutch Mill

No. 26—Dutch Mill. This is a Gravity Sand Toy, that is sure to gladden the heart of every youngster—girl or boy. Dumping sand through the hopper into the mill will set the little Dutch Man into motion and rotate the wings of mill. Will entertain the children by the hour. Each Dutch Mill—set up ready for action—beautifully lithographed, fitted out with bag of sand and steel container —packed in separate, highly colored box. Each **$1.00**

No. 320—Telescope—Covered with black artificial leather paper, lithographed colored label showing various methods of play. Finished off with brass rings. Real telescope lenses Made to slide easily. 14½ in. long when closed 30 in. long when opened. Packed each in cardboard box. Weight per dozen 8 lbs. Each..... **$1.25**



TOY TELEPHONES

Talkafone comes two to the set A regular party line for the youngsters They are equipped with twenty-five feet of flexible speaking tube, employing the age old method of voice transmission.

TOBACCO CUTTERS

ENTERPRISE "CHAMPION"

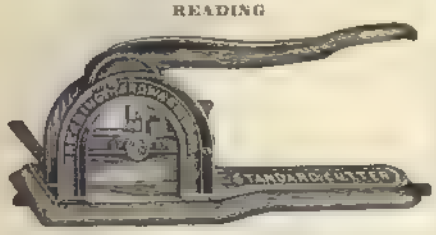
Tempered steel blade with draw cut movement effecting a quick, clean, shear cut. Japanned iron frame and handle.

Each

No. 1—Cuts blocks 4¾ in. wide; wt. each 10 lbs. $10.50

Twelve in a case.

READING



Cast iron frame, japanned; ornamented in bronze; tempered steel sliding knife, with 4 in. cutting edge.

Each

No. 10—Cuts blocks up to 8¼ in.; base 17x4 in.; wt. each 8 lbs. $8 75

Six in a case.

BOX OR HAY HOOKS

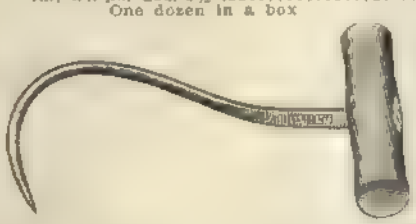
SARGENT

Cast steel, bright finish, white hardwood handle.

Per dozen

No. 10—Length over all 8¼ in.; length of handle 5¾ in., diam. of hook ⅝ in., wt. per doz. 6½ lbs. $10 50

One dozen in a box.



Cast steel, bright finish, white hardwood handle.

Per dozen

No. 12—Length over all 8¾ in.; length of handle 5¾ in., diam. of hook ⅝ in.; wt. per dozen 6½ lbs. $9 00

One dozen in a box.

NAIL CLAWS

Solid Steel

Blue enamel finish, four prongs

Each

No. 1260—Length over all 14 in., wt. per dozen 11 lbs. $2 25

Open stock.

NAIL GRIPS

Solid Steel

Blue enamel finish

Each

No. 1170—Length over all 18 in.; wt. per dozen 35 lbs. $4 50

Open stock.

NAIL PULLERS

MORRILL

Lever section, shank and foot drop forged steel, forge finish, jaws polished; ram cast iron, japanned.

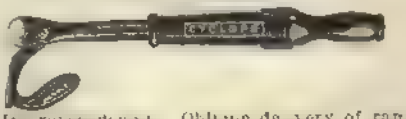
Has handle and hand guard to protect hand, foot centrally mounted in box joint to keep jaws from spreading; no spring to break; straight arm pull and increased fulcrum pulls nails twice as easily as any other puller.

Each

No. 1 Length 18 in., thrust 5 in.; wt. each 4 lbs. $3 00

One dozen in a case.

UNION "CYCLOPS"



Power design. Oblique delivery of ram. Nose spring to keep jaws open. Constructed entirely of steel. Will not mar head.

Will not pull off inclined surface. The handle or pressure foot saves the hand from injury and guides the jaws directly to the nail. It will pull more nails to the minute than any other on the market.

Each

Cyclops—Length 18 in., wt. each 11 lbs. $5 55

One dozen in a case.

GOODELL-PRATT POCKET

Drop forged steel; small enough to be dropped into the pocket, yet as strong as a tool of this kind needs to be.

To use this pocket nail puller, open jaws and place them over the nail head. Drive in the jaws by pounding on the head of the puller with a hammer. When the jaws have engaged the nail head, insert the claws of the hammer under the head of the puller and the compound leverage enables any nail to be pulled with ease. It will pull cement coated nails out of knots without difficulty.

This pocket nail puller is quicker, more convenient, and easier to operate than a large nail puller.

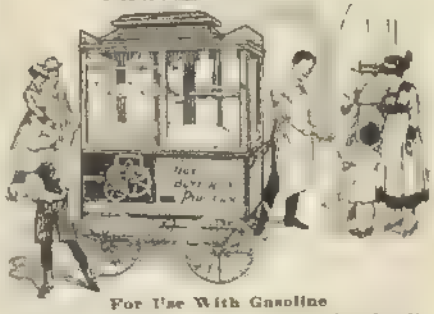
Each

No. 634—3¾x3⅛x¾ in.; wt. each 6 ozs. $2 10

One in a carton.

*POPPER AND ROASTER

IMPROVED BONANZA



For Use With Gasoline

Popper allows corn to be buttered and salted before popping; each kernel being seasoned the same. Aluminum skillet is sanitary and will not corrode.

Attractive and neatly designed showcase of selected oak provides plenty of space for storing peanuts in bulk and in sacks.

Body of machine painted bright red, artistically striped and lettered with gold and black.

Generator and one long burner under peanut cylinder and eight-pronged sunflower burner under kettle.

Each

Bonanza—Width 33⅛ in.; length 51 in., height to top of dome 75 in.; height to top of gasoline tank 81 in., cap. 8 lbs. of nuts per roast; two to three bushels seasoned corn per hour; wt. each 550 lbs. $275 00

(*) Not in stock; will ship from factory.

*POPCORN MACHINES

STAR "PROFIT"

Electric

Raw corn, salt and seasoning are poured into the [illegible] two-piece hinged door funnel which also acts as a ventilator, allowing steam and delicious odors to come out through top of cabinet.

Small electric heater under corn pan to keep popped corn hot. Two-piece hinged door folds down, lower half forming a 5½ inch extension for additional working space.

Cabinet panels of pickled steel finished in four coats of snowy white duco. Top of cabinet and all trimmings of polished sheet aluminum.

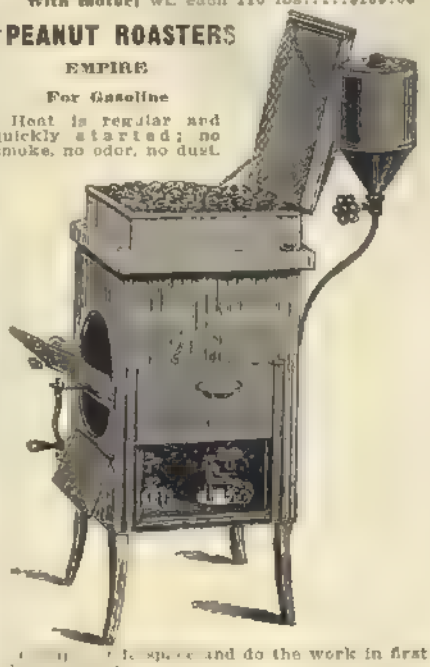
Each

Profit—Height without motor 71 in.; length 22 in.; width 16 in.; 750-watt element, two electric light bulbs, with motor; wt. each 110 lbs. $139.00

*PEANUT ROASTERS

EMPIRE

For Gasoline



Heat is regular and quickly started; no smoke, no odor, no dust.

[illegible] space and do the work in first class manner.

Copper and brass trimmings.

Full directions accompany each [illegible].

Each

Empire—Floor space required 16x16 in., height 45 in., wt. each 75 lbs. $84 00

One in a crate.

FOOD WARMERS

STAR ELECTRIC

A steam table in itself. Ideal for soups, spaghetti, chili, vegetables, etc.

[illegible] body finished in beautiful [illegible] porcelain, paneled in blue.

Guaranteed chromolax elements.

Three-heat button switch.

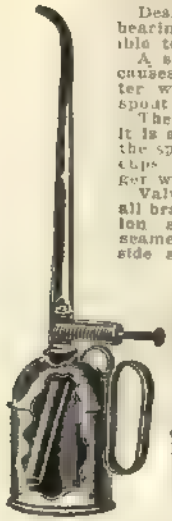
Contains two 4-quart porcelain removable pots with lids and costs only 6 to 8 cents per day to operate.

Each

Star—Length 16½ in., width 8¾ in.; height 13¼ in.; wt. each 30 lbs. $22 00

OILERS

CANNON FORCE PUMP



Designed for oiling overhead bearings and places not accessible to ordinary oilers

A slight pressure on springer causes a free flow of oil, no matter what position or angle the spout is in.

The spout will not clog up for it is always full of oil. Even if the spout is used to clean out oil cups one pressure on the plunger will start the oil.

Valves, springs and pumps are all brass, machine air tight. Union spout connections, double seamed reinforced bottom, inside soldered, sweated seams

Bright Charcoal Tin Nos.	1	2	3

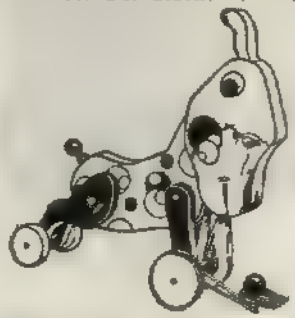
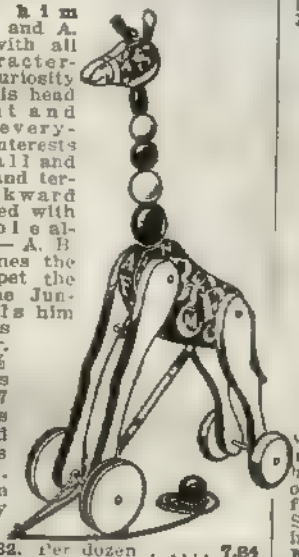
Wood Pull and Mechanical Toys

Humpty Hump, mild eyed dromidary dressed in gay colors, golden tassels and a tinkling bell. When pulled the camel nods his head. Size 10 inches high, 9½ inches long. Packed each in display carton.
No. 39N379. Per dozen. . **7.84**



Children all love Billy. An utterly ridiculous animal. Pull him and he'll come with you, but don't push, for like all goats his hind legs are very active. An honest to goodness sisal rope goatee hangs where goatees always do. His horns are decorative but not dangerous. Size 9½ inches long, 10½ inches high. Packed each in display carton.
No. 39N380. Per dozen. **7.84**



Pull him along and A. B. C. with all his characteristic curiosity twists his head to right and left — everything interests him. Tall and gawky and terribly awkward — spotted with the whole alphabet — A. B. C. becomes the family pet the first time Junior pulls him across the floor. Size 13½ inches high, 7 inches long and 4 inches wide. Each in display box
No. 39N382. Per dozen **7.84**

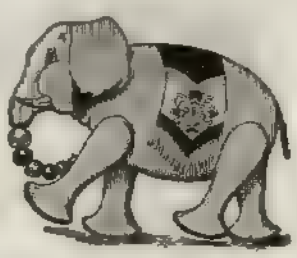
Doctor Doodle struts along in his waddling way. Neck rising and falling, bill opens and closes. Quack! quack! all the time. Finished in four-color photo-lithography. Has concealed squawker. Size of toy 7x11½ inches. Packed each in a handsome display box
No. 39N391. Per dozen. **8.25**

Barky Puppy is a noisy, frisky little fellow. He crouches on his four legs tilts up his head and barks mock protest as he is pulled along. Has a loud bark and finished in four-colored photo-lithography, which makes him very attractive. Size 10½x10 inches. Packed each in a handsome display box.
No. 39N392. Per dozen. **8.25**

Drummer Bear, eager to delight youngsters by beating his drum and bowing his head in rhythm as he is pulled across the floor. Lots of action in this toy. Finished in four-colored photo-lithography. Size 7x10¾ inches. Packed each in a handsome display box
No. 39N393. Per dozen . . . . .

Lookee Monkey, his head turns from side to side as he peddles along with his busy legs racing. This toy is full of pep and has lots of play value. Finished in four-colored photo-lithography. Size 9x10¾ inches. Packed each in a handsome display box.
No. 39N394. Per dozen. **8.50**

Go 'n' Back Mule. Propelled by faultless motor. These toys walk forward and back up. The action is not regulated—you never know when they will go forward or backwards. This mule is finished in bright colors. Measures 9x10 inches. Packed in a handsome display box.
No. 39N395. Per dozen. . . . **12.50**
Each **1.10**



Go 'n' Back Jumbo. Motor driven mechanical wood toy that walks forward and backwards, not automatically, but at unforseen times, like a live conscious animal. Jumbo plods along at a determined gate, body swaying from side to side and trunks swinging. Size 9x8¾ in. Packed in a handsome display box.
No. 39N396. Per dozen. **12.50**
Each **1.10**

Rich Mahogany Woods Distinguish This Suite

Refinement is Shown in Every Line

To the owner of this lovely dining suite there will be a distinct pride in showing guests the dining room. For these pieces were created by skilled craftsmen who planned that this suite should retain its original freshness for years. Even the most careless custom in the home cannot deny the good taste and everlasting charm that is in every single piece. Note the private overlook the rich beauty of its exquisitely grained Mahogany. The tops of all pieces are of five-ply veneered with a beautiful striped Mahogany surface. Table and doors, drawer fronts and apron of the table are of seven-ply construction veneered with the magnificent tones of crotch Mahogany. Structural parts, where strength is needed most, such as legs, posts and stretchers, are of quarter sawed Red Gumwood. All drawer interiors are of Mahogany and are nicely finished. The small center drawer of the buffet is partitioned for silverware. A genuine inlaid marquetry ornaments the fronts of the pieces.

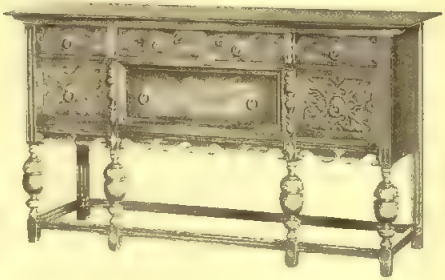
Jacobean Loveliness Reflected in This Suite



The "Wardley" Suite

Jacobean furniture in the times of James I was stately dignified and sturdy of construction. Entertaining was the pastime indulged in at the court, with [illegible] of principal interest. Much merriment held forth and as the lords and ladies of the court gathered in the dining room, there was much that went on which took to mind one of our present day jazz-mad youth. A contemporary writer expressed his feelings of the doings "Sadly the maides drank heartily with the tipples, which did disgust me muchly." If the times were lusty, the furniture was magnificent with broad panels and carvings of Oak to distinguish its qualities which this lovely modern Jacobean suite delightfully retains. The popularity of Early English groupings for medium sized dining rooms is responsible for the "Wardley" suite, shown here in Oak and decorated with characteristic stencil type carvings. The refectory top table English cupboard, and attractive chairs are additional features which make this correctly fashioned suite appear to be more expensive than its modest price implies.

No. 22F112. Buffet. Height, 37 inches; Width, 66 inches. Weight, 215 lbs. Each $118.70

No. 22F113. China. Height, 59 inches; Width, 42 inches; Weight, 185 lbs. Each $122.70

No. 22F114. Server. Height, 36 inches; Width, 40 inches; Weight, 135 lbs. Each $78.70

No. 22F115. Refectory Table. Top, 38x64 inches; Extended, 100 inches; Weight, 265 lbs. Each $126.70

No. 22F116. Straight Chairs. Each $24.00

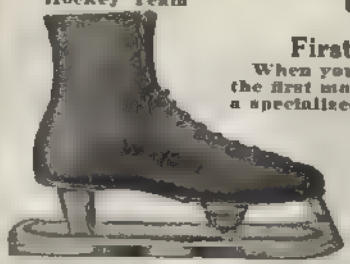
No. 22F117. Arm Chair. Each $33.40

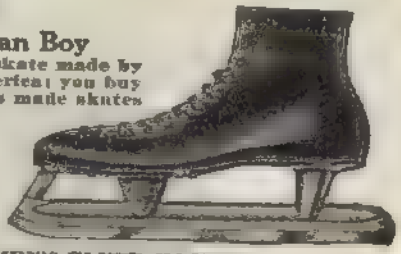
One arm chair and five straight chairs packed together. Weight, 205 lbs.

First Choice of All-American Hockey Team

JOHNSONS

First Choice of Racing Champions





First in the Heart of the American Boy

When you buy Nestor Johnsons you buy the skate made by the first manufacturer of tubular skates in America; you buy a specialized product made by the firm that has made skates and nothing but skates for 38 years. The superiority of Johnsons' specialized production and balanced designing is demonstrated by the fact that more people skate on Johnsons than any other skate in the world.

JUNIOR JOHNSONS

High quality, comfortable, well-fitting child's shoe with regular hockey type skates, especially designed and made for children. Aluminum finish, varnished tool steel runners, that hold a keen edge and stay sharp longer. Sizes 11 to 14. Complete with shoes.

No. 20R84. Per pair. 4.25

LADIES' FLYER HOCKEY

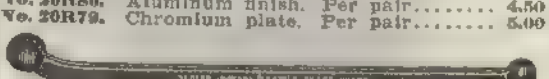
Because they are both light and strong Johnson Flyers give ladies the skating ease and security which begets confidence. Made in two finishes, chromium plate over nickel and copper or aluminum finish. Sizes 1 to 9, complete with shoes.

No. 20R82. Aluminum finish. Per pair. 4.50
No. 20R81. Chromium plate. Per pair 5.00

LADIES' FLYER RACER

For Racing, women want the same type of skates that men use, but adapted to ladies' requirements. Shoes are comfortable and skates come in either aluminum finish or chromium plate over nickel and copper. Sizes 1 to 9, complete with shoes.

No. 20R80. Aluminum finish. Per pair..... 4.50
No. 20R79. Chromium plate. Per pair..... 5.00



FLEXIBLE SKATE GUARD

Real protection for the skate runner. Made of live rubber with knobby "non-skid" tread on walking surface. No snap buttons, easy on and off. Heavy ball shaped ends give additional holding power. Sizes, for racing skates, adjustable to 14, 15, 16 inch runners. For hockey skates: ladies', 9 to 12 inclusive; men's, 5 to 8 inclusive. When ordering state kind and size wanted.

No. 20R88. For Racing Skates. Per dozen pairs 4.00
No. 20R87. For Hockey Skates. Per dozen pairs 4.00

MEN'S FLYER HOCKEY

These skates are welded throughout with seamless cups of one-piece drawn steel and high carbon steel blades. In hockey cups above the blades are rockered for easy turning on small radius. In nickel finish or chromium plate over nickel and copper. Sizes 1 to 12, complete with shoes.

No. 20R78. Aluminum finish. Per pair 4.50
No. 20R77. Chromium plate. Per pair..... 5.00

MEN'S FLYER RACER

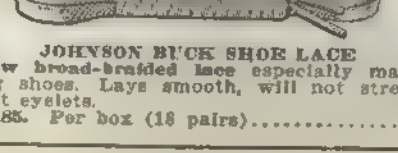
A perfectly balanced skate, attached to a shoe in correct scientific position. That means easier mastery of the skates and the development of great speed. A great favorite with all who want a real racing skate at a moderate price. In aluminum finish or chromium plate over nickel and copper. Sizes 1 to 12, complete with shoes.

No. 20R76. Aluminum finish. Per pair. .. . ...
No. 20R75. Chromium plate. Per pair. . . 5.00

FLYER HOCKEY SKATES WITH HARD TOE SHOE

An ideal hockey combination. Shoe of black grain leather. Brown tongue heavily padded, with substantial hard toe affording full protection. Skates made with seamless cups, vanadium steel runners, "Diamond Tested." Aluminum finish. Sizes 6 to 12 complete with shoes.

No. 20H83. Per pair 5.00



JOHNSON BUCK SHOE LACE

Yellow broad-braided lace especially made for skating shoes. Lays smooth, will not stretch or pull out eyelets.

No. 20H85. Per box (18 pairs)..... 2.00

What about 1932

THERE IS EVERY INDICATION OF A DECIDED UPTURN IN THE BUSINESS CURVE

But, in good times or bad, there is always a volume market for the right merchandise RIGHTLY PRICED.

The Junior Line for 1932 is designed to meet present-day merchandising problems. . . .

. . . AND WE ALL KNOW, REGARDLESS OF CONDITIONS, THAT THERE WILL BE A MARKET FOR QUALITY WHEEL GOODS THAT CAN BE RETAILED FOR

A DOLLAR!

This new line will be on display at the New York Toy Show.

Buyers who are interested in seeing these big sales-building numbers in advance are invited to drop us a postcard—NOW!

Thank You!

Only mass production can make possible such values as we are offering for 1932. And manufacturing economy is made possible only through SALES volume.

So we take this method of thanking the toy buyers of America for their fine reception of Junior Toys during the year just closing.

We want to assure you that it is through your buying co-operation that we are now able to present a new line comprising the biggest values in wheel goods history!

Maestro 7-Tube MULTI-MU and PENTODE Superheterodyne

R.C.A. Licensed

Vario-Tone Control .. Full Vision Dial Light Beam Indicator

THE MAESTRO *is not just another compact super*—but a superbly fine receiver at a popular price. Never before have so many extraordinary features been offered in so compact a 7-tube superheterodyne receiver. It outdoes in performance all in its price class.

$22.75

Here is an answer to price competition for you. No other dealer can offer so great a radio value for as low a price as you can give your customers in this set. It has all the pulling power of price appeal, along with attractive appearance—but, best of all, it actually equals in performance sets selling for double the money. All the certainty of satisfying radio performance that the RCA Licensed Superheterodyne 7-tube Pentode and Multi-Mu equipment implies is here. Only the immense order we could place for these with a leading National manufacturer brought this low price.

THE CHASSIS in this 7-tube Maestro Receiver is an RCA Licensed Superheterodyne circuit using the wonderful new Multi-Mu and Pentode tubes. It takes one 247-type pentode tube, one 280 type full wave rectifier tube, two 235 type multi-mu tubes, two 224 type screen grid tubes, and one 227 type detector tube. Equipped with heavy duty power transformer and variable condenser; self healer dry filter condenser; 600-volt test condensers, and Litzendraht coils; non-tarnishing metal frame; full vision dial, in kilocycles.

THE SPEAKER built into this set is a special matched famous Utah 8 in. full flux electro dynamic, affording particularly clear, lifelike reproduction.

THE CABINET is of attractive design and finish, in the popular Gothic design. The front is decorated with fluted wood pilasters, trimmed at top with split carved overlays. Altogether pleasing in appearance, and a cabinet of strength and proper acoustic quality. It stands 17¾ inches high by 14¼ inches wide and will rest solidly on a shelf 9½ in. deep.

THE PRICE of this 7 tube Maestro receiver is such that you can feature it profitably as a leader to draw trade to your store.

No. 77. Complete with 7 RCA licensed tubes, only **22.75**. Without the tubes for only..... **22.75**

Complete with genuine RCA Radiotrons 28.25

IMPERIAL 5-TUBE RCA LICENSED Superheterodyne with MULTI-MU and PENTODE

Full Vision Lighted Dial in Kilocycles—

Tone Control—
Oversize Parts—
Dynamic Speaker—
Handsome Walnut Cabinet—

16 in. High—12 in. Wide—7½ in. Deep

A Set That Is Truly One of the Leading Values in This Catalog

This widens your range for sales of the wonderful Imperial receivers. It brings Imperial quality and superheterodyne performance within the means of more homes. Condensed into this attractive popular sized cabinet is all the better radio reception that the Imperial name implies—it has the same **Pentode and Multi-Mu feature**—same full vision dial; specially designed oscillator and modulator circuit; 3-gang condenser; tuned antenna stage and other features. Takes one 247 Pentode, one 235 Multi-Mu, two 224 screen grid, and one 280 rectifier tube. Unusual high gain gives it power to pick up with full volume stations over entire broadcast range. Chassis built of heat boda metal rustproof plated, all parts oversize, for long life. **Special tone control practically overcomes static.**

Even the appearance of the handsome cabinet will help you so this 5 tube Imperial receiver—and when you point out its Superheterodyne, Pentode and Multi-Mu features all for its low price sales are easy.

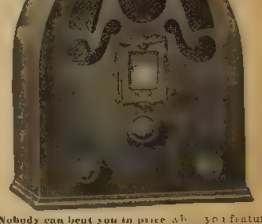
No. 55. 5-tube Imperial Superheterodyne Receiver with Multi-Mu and Pentode equipment. Complete with RCA licensed tubes, 23.40. Less tubes, each..... **20.35**

Complete with Genuine RCA Radiotrons, 24.75

REX 5-Tube

Multi-Mu and Pentode

SUPERHETERODYNE



Nobody can beat you in price ab[illegible] feature this for a low price leader attraction—for here is the biggest value offered to meet the price demand. **Every** home is a prospect for radio sale when you can show them so much radio as this for so little money. Even the new Pentode and Multi-Mu equipment in a superheterodyne circuit, the modern best in radio. Takes two 224 screen grid tube, one 235 Multi-Mu one 247 Pentode, and one 280 rectifier tube. **Cabinet 12½ in. high, 10 in. wide and 7 in. deep.**

Big Toys No Boy Can Break

Large Realistic Models Strongly Built of Heavy Gauge Steel

The highest quality steel toys obtainable. Spot welded and riveted throughout.

AIRPLANE HOLDS 150 LBS. 2 FT. LONG

The newest all-steel tri-motor plane, over TWO FEET long! Beautiful baked enamel finish, bright green and red and decorated. Makes clicking noise when pulled, and all three propellors revolve when the plane rolls along. Solid rubber tires. A real air man plane model that will give thrills of joy to every boy. Ride it like a cowboy, run it like a mail plane, play indoors or outside—it can hold 150 pounds of weight—it's ready to play. Weight when packed 7½ lbs.

9K60189 PRICE **$5.00**

GREAT BIG STEEL PULLMAN CAR

The big steel Pullman car is made for the youngster to ride on top, or to carry a load of things inside. It's over TWO FEET from front to end, it's over eleven inches high from its wheels to the roof. It's made big, heavy, strong, for the boy who has friends to pile on it. Has wheel on top to steer, when you ride it sitting on top. Weighs when packed 18 lbs. Finished in baked enamel colors with hard high lustre that will not scratch

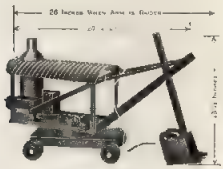
9K60190 PRICE **$10.90**

You can't scratch the enamel. Hardest high lustre finish.

TWO FOOT COASTER TRUCK

Here is a strong truck for small children to sit on comfortably and to use as a coaster. Has handle bars for steering. The platform is of especially heavy material; finished in baked enamel color with hard high lustre that will not scratch. Solid rubber balloon tires . . . nickeled head lights . . "Stop" and "Go" signals . . . nickeled hub caps . . . the newest 1931 features. Built of heavy steel, over two feet long, nine inches high. Weighs packed 14 lbs. Buy it for your boy

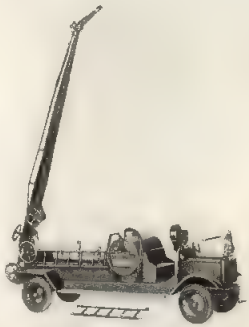
9K60191 PRICE **$7.50**



NEARLY 2 FEET LONG!

Our tiny picture gives but a very faint idea of this wonderful, big steam shovel, for it is over two feet long and over a foot high when the arm is raised. Yet, in spite of all these remarkable features, it sells for so low a price, that every boy can have it. It is made of heavy steel, welded and riveted, enameled in handsome red and black, with a perfect and lasting lustre. A shovel scoop with double ribbed teeth is controlled by a cable which travels on pulleys. The cable is controlled by a winding drum in the housing. The trap door locks automatically as the scoop drops to the sand pile. Just like the real thing. The entire steam shovel pivots on a large base, impossible to wobble or tip over. Weight packed 10 lbs.

9K60060 PRICE **$6.65**



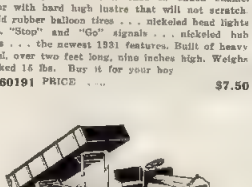
SHOOTS WATER 15 FEET

3½ Ft. Water Tower

This big size water tower, an exact copy of the latest New York Fire Department model, shoots real water in any direction. The grandest toy you ever saw. Big steel is 2½ inches long, 41 inches high when extended. Here is what it will do: The tower can be raised and stopped at any angle by turning the crank. The nozzle may then be turned up or down, right or left, by other crank wheels. By raising the motor hood you can inspect the "motor" and real pressure pump.

Pressure is put into the tank by turning the crank handle. The water tank has plenty capacity and holds almost a quart. It is a perfect working model, fitted with siren, ladders on each side, brass railings, hanging on brackets, aluminum running board, swinging brass bell that sounds loud and clear, solid balloon type rubber tires, and nickeled lamps with real lenses. Shipping weight 19 lbs.

9K60063 PRICE as described **$19.90**



PACKARD DUMP TRUCK

The Packard Motor Car Company calls this the strongest and best dump truck toy ever made. The truck is over two feet long and a foot high! Unbreakable! All the boys in the neighborhood could climb on this truck! Made of glossy black enameled heavy automobile sheet steel. Has clever lift lever on side with Packard radiator and hood. Has heavy all-steel wheels, built to sustain a tremendous pressure. The kind of toy parents have always been looking for. Weight packed, 15 lbs.

9K60059 PRICE **$6.20**

MASSIVE LOCOMOTIVE

Compressed Air Whistle—A Beauty

Please note the big size of this locomotive. It is over two feet long and over a foot high. It is made of heavy steel, with railing, bell and steam dome of shining, polished brass. Has a real air whistle which is operated from engineer's cab. The solid steel wheels have rubber tires. Locomotive can be used indoors or outside and will not damage even varnished floors. The boy may break his other toys, but can't possibly damage this one. It is strong enough for any one to sit on. Shipping weight about 17 lbs.

9K60062 PRICE **$13.50**

WILL CARRY 200 POUNDS

Has Loud Air Whistle

This is a solid, substantial heavy steel toy that cannot be wrecked by any boy. It has an extra strong boiler body, with heavy roller and solid wheels. The driver sits on the roof-top and steers the roller with the spring wheel in the rear. There is a loud air whistle on the side; also a polished brass bell that rings loud and clear. The roof is finished in lustrous baked red enamel, all other metal parts highly polished. Over a foot high and 20 inches in length. Weight packed 14 lbs.

9K60064 PRICE **$9.75**

The big steel toys on this page are shipped direct from the manufacturers in Boston, Mass.

Famous copyright books in popular priced editions

Copyright books that formerly sold at $1.50 to $2.50 each. A carefully selected list, including only the best selling titles, books that have had enormous sales in the higher priced editions. Cloth bound, many lithographed picture inlays, library size, 5¾x7½ in., with attractive cover designs, many of them are identical with the original and more costly editions. Almost all have beautiful lithographed picture jackets.

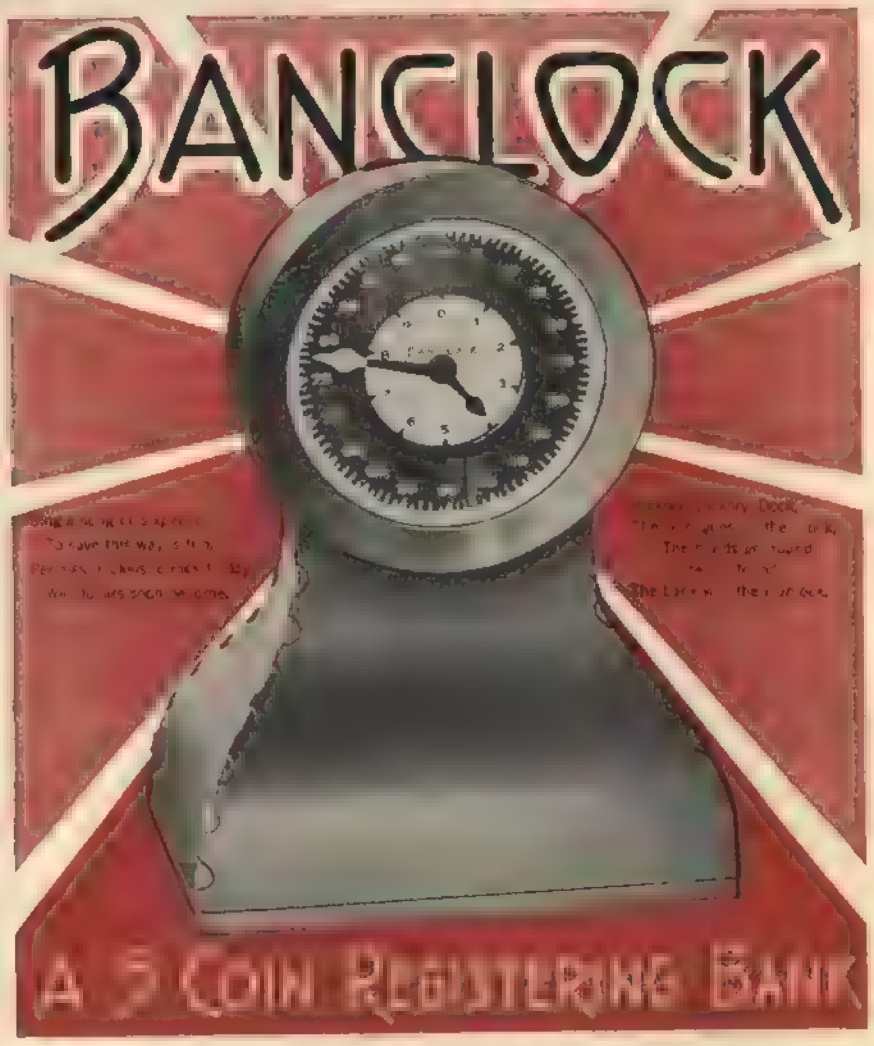
SPEAKING OF BANKS



"The minutes are cents—the hours are dollars"

THE BANCLOCK

is more than a toy. It is a practical household need that will sell the year around. It has infinite utility in assisting adults to meet insurance premiums, vacation trips, taxes, extra wanted luxuries, etc., etc., etc. It teaches and promotes thrift with young and old alike. It can reap dividends for your store by influencing customers to save for more expensive items sold in other departments.

First check up on your Holiday requirements—but include in your plans the promotion of sales in the months that follow.

UNIQUE DISPLAY BAGS

(Package patent applied for)

That Give 100% Visibility To Every Single Marble

Last season our Marble Bags hit the trade like a bombshell. They were the first really new thing in Marbles in years, and the way they sold would scarcely be believable were it not a matter of history.

Now, for 1932, we offer new numbers that are just as much in keeping with the times as were our sensational sellers of last year. Each Bag offers a splendid array of colors and is packed in an improved, modern DISPLAY BAG originated by us.

KNICKERBOCKER TOY COMPANY, INC.

LEO WEISS *Pres*

MANUFACTURERS

85 FIFTH AVE, NEW YORK

I. COWEN *Vice Pres.*

When writing to Knickerbocker Toy Company, Inc., will you please mention PLAYTHINGS?

At last! A SOLITAIRE BRIDGE BOARD

SOLO-BRIDGE, edited by Milton C. Work, the International Authority, joins the ranks of the year's "best sellers." Now for the first time, a permanent game of bridge—playable by one—with all the intense sporting thrill of the bidding, the playing, and the scoring of the competitive game. Everybody plays bridge—every bridge player will buy Solo-Bridge!

SOLO-BRIDGE is 8½"x 11", attractively bound in blue leatherette board, embossed in silver. 12 problems selected from Mr. Work's international experience accompany the game. 3 blank forms allowing for 60 additional problems are also included. The very construction of the game instantaneously appeals to every bridge player. Solo-Bridge—truly a game of unlimited appeal and large profits. Retails $1.50 complete.

SALVO—the naval game of wits—which has stormed the country, is hailed as the game sensation of the year. In compact form it retails complete $1.00. Refill set 25c.

CROSSWORD LOTTO—combines the best features of Crossword puzzles and lotto. Consumer appeal in its 9 versions of play. Attractively boxed with playing boards, letters, and counters. Retails $1.00 complete.

CONCRETE MIXERS

H & Z

Can be loaded or dumped on either side. Drum is in a sand upright position while loading has a large opening at a convenient height for shoveling. The curved mixing blades or paddles rotate in correct angle and give material a folding, churning action.

Main bearings are babbitted and drum rotates on ball bearings. The lower half of drum is a solid casting and upper half heavy gauge steel, with reinforcing band at mouth. Frame is made of 1"x3½" in. angle steel, well braced and bolted. Mounted on hardwood skids. Pulley is 16 in. diam., 3 in. face. A handle for hand operation is included.

Capacity 2¼ cu. ft. of loose material, or a wheelbarrow load of mixed concrete per batch, and a batch per minute. Diam. of drum at opening 18 in., at bottom 22 in., depth 22 in. Can be operated by 1 H. P. engine or by hand. Weight 760 lbs.

No. 7 . . . . . Each $40.00

Similar to No. 1, but is 3½ cu. ft. capacity, and built larger and stronger. Equipped with ratchet dump which permits filling and dumping from either side without adjustments. Drum has 18½ in. opening, 33 in. diam. at bottom, 28 in. deep. Can be operated by ½ H. P. engine or by hand. Weight 988 lbs.

No. 2. . . . . Each $48.00

H & Z

A complete outfit on truck with engine and housing. Truck is all steel, wheels 12 in. front, 16 in. rear, with 3 in. face. Front wheels pass under frame for short turning. Housing of 16 ga. steel. A 1½ H. P. magneto engine. Furnished as standard equipment. Mixer is the regular No. 2. Capacity 3½ cu. ft. Weight 760 lbs.

No. 4-H . . . . . Each $700.00

Same as above except without engine or housing

No. 3-H . . . . . Each $59.00

CONCRETE MIXERS

A complete outfit on pneumatic tire trailer. Same as No. 4-H outfit with the exception of the truck

3½ cu. ft. capacity, 1½ H. P. magneto engine with housing. Weight 1000 lbs.

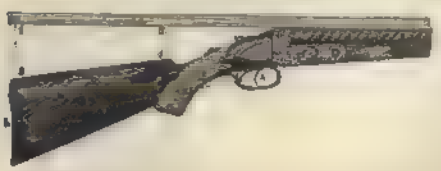
*No. IE20	20 ga.; 28, 30 and 32 in. bbls.; wt. 5¾ to 6½ lbs.	70 00

TO MEASURE DROP OF GUNS



Take a piece of straight wood or iron sufficiently long to reach from the muzzle end of the barrels to the end of the butt, lay it straight along the top of the rib of the barrels and over the butt. Measure up from the Comb at 3-4, which is the Comb drop, and at the butt of the stock at 1-2 which is the heel drop. To get the length of stock, measure from the front trigger 6 to the center of butt 5.

DOUBLE BARREL SHOT GUNS

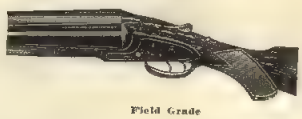
*No. IE20	20 ga.; 28, 30 and 32 in. bbls.; wt. 5¾ to 6½ lbs.	70.00

TO MEASURE DROP OF GUNS

Take a piece of straight wood or iron sufficiently long to reach from the muzzle end of the barrels to the end of the butt, lay it straight along the top of the rib of the barrels and over the butt. Measure up from the Comb at front of the stock at 1-2, 3-4, which is the Comb drop, and at the butt of the stock at 5-6, which is the heel drop. To get the length of stock, measure from the front trigger 6 to the center of butt 5.

DOUBLE BARREL SHOT GUNS

L. C. SMITH, HAMMERLESS



Field Grade

A gun for rough work; hits hard and accurately.

Barrels—Armor steel; cylinder, modified or full choke bore; extension rib

The Vacuum tipped ARROW PISTOL

Every year millions of American boys reach the age when they want a toy pistol that actually shoots. Parents demand harmless pistols—pistols that shoot but that are not dangerous, or destructive to home furnishings. For the past forty-two years parents have been satisfying their boys' pistol craving with our harmless game.

Finished in jade green color with floral decoration. 20 keys size 13x18¼x21¼ inches.

No. F81N210. Each . . $12.00

AUTO ELEVATORS

Operates by Air from Tire Inflation System

A thoroughly practical and efficient method for raising all types of cars, including dual tired light trucks. It is indispensable to garages and service stations, as it not only saves time and labor but enables under-body repairs to be quickly accomplished with absolute safety. The elevator can be raised in one minute and can be lowered in 20 seconds and can be stopped and held at any suitable height. It can also be revolved while the car is in a raised position. It is a self-contained, self-lubricating unit, built of the finest materials, is easy and inexpensive to install, and requires no attention whatever.

WHEEL TYPE

Built of the finest materials and properly designed to withstand the strains incident to a machine of this type. The plunger is accurately machined, thus assuring smooth operation and eliminating oil leakage. Due to its simple construction, it is a very easy matter to install this auto lift. Simply dig a hole, pour in about six inches of concrete in the bottom, place the cylinder unit in and plumb by means of the levels, which are embedded in the top of the plunger unit,—then pour in the concrete. Requires no outside oil pipes or connections. The lifting medium is oil, actuated by air pressure, the plunger acting as an oil reservoir. This oil automatically lubricates the plunger, which eliminates maintenance labor. Operation of wheel type elevator is simplicity itself. Simply drive your car on the elevator. The runways are amply wide (18 in.) and the entrances are provided with oversize, malleable iron, flared approaches. Chocks are furnished, which securely hold the car in place. These chocks can be readily placed and removed. By the elimination of oil pipes and other connections the possibility of breakage and consequent damage is eliminated. The actual lifting is done by the displacement of the oil in the inner plunger.

Wheel type bed—length 16½ ft., width 69 in. Total travel of ram 4 ft. 2 in. Diam. of ram 10½ in. Diam. of cylinder 13½ in. Depth of hole required 7 ft. Weight 2000 lbs.

No. 825..... Each $325.00

AXLE TYPE

Is identically the same as the No. 825 lift, with the exception of the bed, which has been designed to raise cars by the axle instead of the wheels.

This elevator, like No. 825, requires no outside oil pipes or connections. The lifting medium is oil, actuated by air pressure, the plunger acting as an oil reservoir. This oil automatically lubricates the plunger, thereby eliminating maintenance cost on labor. Operation of axle type is simplicity itself. The rails are extremely low, so as to clear all types of axles. The car is driven over these rails. Raising blocks are provided with sockets, which accommodate a long rod handle which is furnished so that the blocks can be placed under the machine without crawling underneath. Safety secured by the elimination of oil pipes and other connections, the possibility of breakage and consequent damage is eliminated in this machine. The actual lifting is done by the displacement of the oil in the inner plunger. The air forces the oil through the safety valve in the bottom of the plunger. This elevator is provided with a safety valve in the bottom of the plunger. It is a part of the plunger, operating entirely by gravity.

Axle type bed—length 14 ft., width 25 in. Total travel of ram 4 ft. 2 in. Diam. of ram 10½ in. Diam. of cylinder 13½ in. Depth of hole required 7 ft. Weight 1800 lbs.

No. 816..... Each $300.00

AUTO WASHERS

MANLEY ONE-GUN

Has Worthington triplex pump, silent chain drive, no cup washers or leathers to wear, drop forged crank shaft, machined reduction gears, automatic control valve. Is easy to install, simple to operate. Uses hot or cold water, soap solutions or other cleaning liquids. This washer makes it possible to properly clean all inaccessible parts of the car, places that cannot be reached with a sponge or brush.

By designing the machine in a vertical position with the motor on top, it is very compact and occupies a floor space of only 18x24 in. Height overall is 84 in.

Lubrication of motor is by automatic ring oilers, the pump is lubricated by Alemite system. Washer is equipped with best grade of hose, 8 ft. suction and 25 ft. length of pressure hose with one gun, which can be adjusted from the finest mist to a hard cutting stream or any intermediate position.

Machine is equipped with a safety valve which automatically discharges the water and relieves the machine of strain in case it becomes overloaded through any cause. Weight 290 lbs.

Complete with 1 H. P. single phase motor with starting box, triplex pump, safety guards, silent chain drive, 8 ft. suction hose, 25 ft. length pressure hose, one gun, automatic pressure controller and pressure gauge.

Nos.	H. P.	Current	Voltage	Phase	Cycle	Each
801-A	1	A.C.	110, 220	Single	60	$275.00
801-B	1	A.C.	110, 220	Single	50	285.00
801-C	1	A.C.	110, 220	Single	25	285.00
801-D	1	D.C.	120	....	..	275.00
801-E	1	D.C.	220	....	..	275.00

Important

Always specify voltage, phase and cycle of motor required.
Polyphase motors can be furnished on special orders.

MANLEY TWO-GUN

Construction similar throughout to the one-gun auto washer

Retains every one of the desirable features of the one-gun washer. The pump unit is of course of larger capacity and heavier construction, providing ample volume of two guns operating at the same time.

A 2 H. P. motor is used instead of 1 H. P. and two pressure hoses and guns are supplied instead of one.

Larger drive chain, sprockets, and bearings are used, of course, and the construction is heavier throughout to take care of the additional capacity.

The height overall is 46 in. The floor space occupied is 24 in. x 30 in. The size of the water fitting on the suction intake is ¾ in. The average shipping weight complete with motor is 575 lbs.

The washer is furnished complete with triplex pump, safety guards, silent chain drive, 4 ft. of suction hose, two 25 ft. lengths of pressure hose, two guns, automatic pressure controller, pressure gauge, motor and starting box.

Nos.	H. P.	Current	Voltage	Phase	Cycle	Each
802-A	2	A.C.	110, 220 440, 550	2 or 3	50 or 60	$415.00

Important

Always specify voltage, phase and cycle of motor required.
Polyphase motors can be furnished on special orders.

MANLEY TWO-GUN

Construction similar throughout to the one-gun auto washer

Retains every one of the desirable features of the one-gun washer. The pump unit is of course of larger capacity and heavier construction, providing ample volume of two guns operating at the same time.

A 2 H. P. motor is used instead of 1 H. P. and two pressure hoses and guns are supplied instead of one.

Larger drive chain, sprockets, and bearings are used, of course, and the construction is heavier throughout to take care of the additional capacity.

The height overall is 46 in. The floor space occupied is 24 in. x 30 in. The size of the water fitting on the suction intake is ¾ in. The average shipping weight complete with motor is 575 lbs.

The washer is furnished complete with triplex pump, safety guards, silent chain drive, 4 ft. of suction hose, two 25 ft. lengths of pressure hose, two guns, automatic pressure controller, pressure gauge, motor and starting box.

Nos.	H. P.	Current	Voltage	Phase	Cycle	Each
802-A	2	A.C.	110, 220 440, 550	2 or 3	50 or 60	$415.00

OUTDOOR KNIVES

WOODSMAN

Highest quality steel blade, with thick strong back, relieved by hollow grinding which provides proper balance for proper weight and stiffness. Strength of back permits splitting kindling or digging bait in hard ground or ice. The hollows aid quick sharpening and allow the original strength of back to remain. Blade is adapted to sticking and skinning. Back of point is beveled for breaking small bones. Have a heavy tang on which are driven washers made of sole leather, fibre and brass. Bolster is brass, with aluminum tip. All parts are held rigidly in place by a brass rat tail tang tip, engaging the threaded tang. Blade is 5 in. long, highly polished. With leather shield

No. 43 . . . . . Each $2.50
Six in a Box

TRAPPER

Finest vanadium steel blade, drop forged and ground to keen leading edge. Sharp saw teeth on back of blade for cleaning fish, etc. Leather handle, aluminum bolster and tip, 4½ in. blade. With leather sheath.

No. 29 . . . . . Each $2.25
Six in a Box

TRAPPER STAINLESS

Highest quality stainless steel blade, ground and tempered to hold an edge. Sharp saw teeth on back of blade for cleaning fish and scraping. Leather handle, aluminum bolster and tip, 4½ in. blade with leather sheath.

No. 65b . . . . . Each $3.25
Six in a Box

MARBLE IDEAL

Heavy tang, onto which are driven leather, red and black fibre and brass washers. Brass bolster, aluminum tip. Knife is highly polished. With leather sheath.

LUBRICANT
ZACO PENETRATING OIL

JUST SHOOT IT ON

A highly refined paraffine base oil, being a superior lubricant and also has exceptional penetrating power and rust dissolving and rust preventing properties. For cold weather, by adding Zaco to crankcase, transmission and differential oil, it prevents congealing, also lowers the freezing point and insures easier starting.

The one gill size is put up in a special container with needle valve and sealed under pressure. It is only necessary to open the valve and a thin stream is shot out with sufficient pressure to reach inaccessible parts. The 3 oz. size in oval cans with spout is for household use.

No. 15—3 oz. cans with spout....Per dozen $ 5.50

No. 25—16 oz. automatic pressure can . .....Per dozen 12.00
One Dozen in a Box

ANTI-FREEZE
EVERREADY PRESTONE

A scientific anti freeze developed after several years of research work. It is a definite chemical compound—not a mixture containing alcohol, glycerine or any similar substance, and should not be confused with any other anti-freeze.

Everready Prestone lowers the freezing point of water in proportion to the amount added. It will not boil off under normal operating conditions, and no additions are necessary unless the liquid is lost by leakage or through the overflow

Does not corrode any of the metals in the radiator, has no effect on soldered joints or rubber hose connections. Will not heat up a motor, has no effect on paint, varnish or lacquer, and if accidentally spilled does not mar the finish or nickeled surface. It is classified as non-inflammable material, is practically odorless and does not become viscous at low temperatures. Will not decompose at high temperatures.

DIAMOND SET PINS and PENDANTS

DIAMOND AND EMERALD FESTOON

A lovely new pendant of solid white gold set with one genuine diamond and two imitation emeralds. The illustration above does little justice to the fascinating beauty of the pendant. The solid white gold is exquisitely pierced, milgrained and engraved, with 18-inch chain. Has safety clasp.

2K15085 PRICE **$27.50**

THREE DIAMONDS

2-in-1 Brooch-Pendant

Solid white gold pendant, set with three genuine diamonds, with 14-inch chain. Can also be worn as brooch. A lovely piece of jewelry of highest character, with dainty filigree mounting and milgrained diamond settings.

2K15086 PRICE **$42.50**

NEWEST DIAMOND BAR PIN

Most delightful and fashionable new bar pin made of solid white gold in a beautiful filigree lace work design. Set with one genuine diamond in beaded mounting. Fitted with safety clasp.

2K15004 PRICE **$18.00**

EMERALDS AND DIAMOND

This graceful design is more popular than ever, and is executed in solid white gold. Set with a high-grade, genuine diamond in the center, with a touch of color added by the two green emeralds skillfully placed on either side. Who would expect so gorgeous a pin for so small a sum? Fitted with a safety clasp.

2K15043 PRICE **$23.50**

FASHIONABLE NEW DESIGN

An exceptional value is offered here in this fashionable new bar pin made of solid white gold and set with 5 brilliant blue-white diamonds in attractive square bezels. The new lace filigree design is most effective in this pin. Fitted with safety clasp.

2K15006 PRICE **$52.00**

STYLISH NEW DESIGN

A beautiful new bar pin made of solid white gold in a charming lace filigree design. Set with one full-cut genuine diamond in attractive square beaded setting. A gift that is sure to be appreciated. Fitted with safety clasp.

2K15008 PRICE **$20.50**

NEW PARIS DESIGN—3 DIAMONDS

This solid gold pin in a new design from Paris is mounted with three full-cut, genuine diamonds. An astounding value. The new filigree lace work is most attractively done in heavy solid white gold.

2K15046 PRICE **$31.20**

PLATINUM TOP—DIAMOND

An exquisite new 14K solid white gold brooch with genuine platinum top, set with one sparkling blue-white diamond. Gorgeously hand beaded and engraved. Has safety clasp.

2K15089 PRICE **$75.00**

CLASSICAL DESIGN BAR PIN

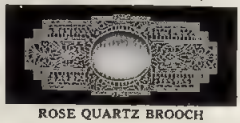
A solid white gold bar pin designed in the best of modern good taste. The lovely filigree lace work is charming in its daintiness. Fitted with safety clasp. It is a superb value.

2K15036 PRICE **$7.80**

FLARING BOW KNOT BAR PIN

The flowing lines of this delightful bow knot bar pin are enhanced by real diamond-like marcasite mounted on a solid white gold filigree design. This pin has the flare of fashion and is carefully made to the smallest detail. Fitted with safety clasp.

2K15038 PRICE **$14.60**



ROSE QUARTZ BROOCH

Lovely filigree lacework in solid white gold, with a genuine rose quartz center stone. Fitted with safety clasp.

2K15037 PRICE **$12.50**

SOLID WHITE GOLD

The solid white gold brooch above is of dainty filigree design beaded and engraved. Has safety clasp.

2K15087 PRICE **$9.75**

DIAMOND AND CRYSTAL

A smart little brooch of 14K solid white gold with crystal center, set with genuine full-cut diamond. Exquisitely wrought by hand and milgrained.

2K15088 PRICE **$35.00**

DIAMOND SET SOLID GOLD

Lovely brooch of solid white gold, with fine, genuine diamond in center and two crystalline emeralds on either side. The skillful fashioning of the filigree design lends charm to this brooch. Has safety clasp.

2K15044 PRICE **$22.80**

DIAMOND SET EMBLEM RINGS

Sturdy Conservative Models of Enduring Style

THE ATHENIAN

Solid 18K White Gold
AAA DIAMOND 17 100

The design of this ring is particularly adapted to a moderate sized stone because it gives it a maximum display. The mounting itself is large proportioned with a classical leaf design in high relief. The mounting is of 18K solid White Gold throughout and the diamond is our famous steel-blue-white AAA quality and weighs nearly 3 16 of a carat. A handsome ring at a moderate investment.

5K11027 PRICE complete . . . **$100.00**
(Mounting alone $21 60)

THE DARTMOUTH

Your Emblem and Diamond
Solid White Gold

The Dartmouth is made of solid white gold handsomely engraved by hand. The top is a cut corner genuine black onyx set with one genuine diamond in a milgrained white gold bezel. The ring is pictured in the Masonic emblem. You have your choice of: Masonic, Odd Fellow, Knights of Pythias Knights of Columbus or Elk emblems illustrated on Page 48 Please specify on your order!

5K11001 PRICE complete **$36.00**

Diamonds actually increase efficiency. A preacher once said that every Sunday before he mounted the pulpit, he placed a twenty dollar gold piece in his pocket. It gave him a feeling of confidence! Without that bit of worldly wealth hidden in his pocket he could not speak with such assurance and composure. Not all of us may carry his idea to such an extreme, but we all know the same feeling. Diamonds inspire confidence in the man who wears them and by inspiring confidence, encourage efficiency and success. "Nothing succeeds like success."

AAA is America's Highest Standard of Perfection

AAA DIAMOND 42 100

Solid 14K Gold

Fancy engraved 14K solid gold belcher holding a magnificent blue-white and brilliant AAA diamond weighing 42 points.

5K11036 PRICE **$340.00**
(Mounting alone $18 00)

AAA DIAMOND 29/100

SOLID 14K GOLD

A very handsome 6-prong ring made of 14K solid Yellow Gold and set with a brilliant, blue-white AAA diamond weighing 29 points. An excellent ring for men of affairs

5K11031 PRICE - **$185.00**
(Mounting alone $10.76)

AAA DIAMOND 45/100

Solid 18K White Gold

Two deep blue synthetic sapphires contrast beautifully with the fine AAA diamond in this ring. The diamond weighs almost half a carat, and fairly radiates beauty. The mounting is solid 18K White Gold. Very popular.

5K11042 PRICE **$400.00**
(Mounting alone $37 50)

7 DIAMOND CLUSTER

18K Solid White Gold

Handsome new design, set with 7 large, matched diamonds, giving appearance of a one and three-quarter carat diamond. The mounting is solid 18K White Gold, beautifully engraved by hand in an original design of great charm

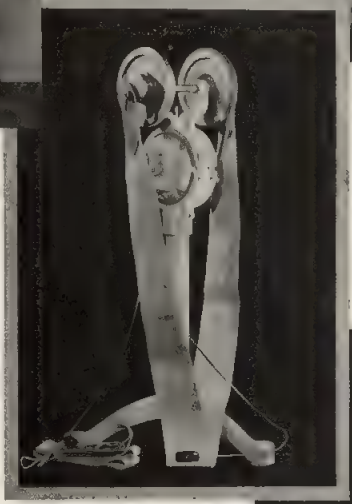
KEEP YOUR YOUTH

without tiresome effort

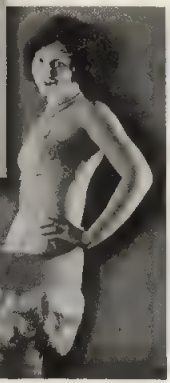
This sturdy, Mechanical Masseur is easily installed in a closet, in your bath room, bed room or gymnasium, and requires but very little space. It requires no attention whatever, and the 1/6 horse power motor operates quietly on current from any light socket or plug

Mechanical vibratory massage has been demonstrated to be much more effective than either vibrator or massage alone. Perfect control gives either a soothing massage or vigorous exercise

Two straps are provided with this device, a narrow one and a broad one, for effectively treating the parts where exercise or reduction is most desired



You will be amazed to find this pleasant, easy exercise sculpturing your figure to youthful proportions. Applying vibratory massage to the spots most desired, will produce amazing corrective results.



"The Fountain of Youth"

Keep your youthful vigor
Keep your youthful figure

No longer need you envy radiant, youthful vigor and a supple, attractive figure. It is yours for the asking, if you are willing to spend ten or fifteen minutes a day, while this Mechanical Masseur does its pleasant work.

In construction, this electrical device leaves nothing to be desired. It is extremely rugged and built so that it requires absolutely no attention. It is made to fit any type of electrical current. (While it costs a little less in the standard, alternating current, 110-volt model, other types may be had on request, as quoted below.) This model comes to you complete in every respect, with two belts, a narrow and a wide one, a long cord for attaching to plug, and a switch for shutting it on or off that you may hold while you are taking the exercise. Complete instructions are included.

This Mechanical Masseur Is Scientifically Correct

The health-giving effect of this marvelous machine can be duplicated by vigorous exercise and a scientific massage thereafter. This, however, takes time, and what is more, a great deal of will-power. Our scientifically built, Mechanical Masseur gives you energetic exercise and vibratory treatment where and when you want it. This Mechanical Masseur solves the problem of getting correct exercise, in these days, so crowded with business and social obligations. It supplies the needed physical stimulation, improves circulation, adds vigor and strengthens muscles, all without effort on your part. Excess fat and its dangers disappear with the steady use of this device. Over-weight and under-exercise bring on that dull, weary feeling and rob you of your joy of living. A trim figure, health and vigor are at your command for a sum that is insignificant, when compared with the benefits that you receive. A Mechanical Masseur should be in every home.

9K56197 For Standard, 110-Volt Alternating Current **$79.00**

9K56198 For other types (kindly specify current desired) **99.00**

Illustrated above is our sturdy Mechanical Masseur, rightfully called "The Fountain of Youth." It is made extremely strong, and is guaranteed absolutely trouble-proof. All you have to do is press the button

Ten to fifteen minutes' daily exercise is enough. Instead of the tiring effort of vigorous effort, you will experience relaxation and the glow of health

The Mechanical Masseur is shipped from the factory in Indiana. It weighs about 75 pounds, and should therefore be shipped by freight. Comes complete with instructions and all necessary attachments

Clown on Sulky

N14732—CLOWN ON SULKY. Beautifully colored metal toy of a clown on sulky pulled by a donkey. Operated with a lever and spiral. When in action, the donkey bobs up and down. Enamel finish. Length, 16 inches; height, 6⅝ inches.....Per doz. 18.00

*GASOLINE PUMPS

MILWAUKEE

Type 781
Mil-O-Meter
Underwriters' Approved

This is a power operated metering pump, equipped with a Neptune meter, either the Rod Seal positive displacement meter or Disc meter. In the displacement meter you are assured of accuracy at either high or low flows.

A Ferro pump is used, equipped with an adjustable bypass and removable strainer.

The pump is operated by a ½ H. P. heavy duty motor with a temperature rise of 50 degrees in two hours.

The hose used is 1 in., metal lined, equipped with a self-closing, flexible spout nozzle.

All mechanical parts are supported by four inner-support pipes (not suspended from the housing), thus eliminating vibration.

Pump is 76 in. high without globe, 20x24 in. oblong base. Shipping weight each 440 lbs.

Prices on Application.

One in a crate.

Type 10-10

Underwriters' Approved

The first of all pumps to lift an even gallon per stroke.

Wet hose, eye measure, hand operated.

This is a 10 gallon, wet hose, visible pump with outside drain, equipped with a single cylinder, double acting pump having a brass lined cylinder, aluminum piston and cast iron piston ring. All interior shafting is of stainless steel. No plunger leathers. A one inch metal lined hose is used with a self-closing, flexible spout nozzle.

The fastest visible pump on the market. Ten strokes pumps ten gallons.

Heavy semi-steel cast iron base. Height to top of globe 9 ft. 10 in. Height to top of canopy 8 ft. 4 in. Height to center of hose connection 5 ft. 4¾ inches.

Each

No. 10-10—Complete, shipping weight 425 lbs. .....$.....

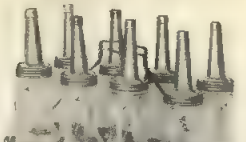
OIL SERVICE SETS

MARQUETTE STEELTRAY



A Speedy and Efficient Means of Dispensing Oil

Crystal clear glass bottles are designed to fit the hand, are marked at standard quart capacity and are legal in all states.

Non-rusting special alloy metal spouts have dust caps of three different colors. Air vent tube permits fast or slow pouring. Large opening of spout makes refilling easy from any ordinary pump without removing spout from bottle.

Strong electrically welded solid steel basket, finished in Red Enamel.

Per set

No. 0—Complete Set—Consists of basket and 8 bottles with spouts, gaskets and caps, shipping weight per set 26 lbs. $4.50

Each

Basket only $1.70

Per doz.

Bottles only $2.25

Spouts only 2.75

MARQUETTE OIL SERVICE SET DISPLAY STANDS

A neat and attractive stand to help sell more oil.

Provides an attractive display and keeps the oil where it is conveniently available.

Holds one basket of oil on top and one basket of oil on bottom shelf.

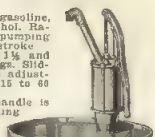
All steel, red enameled.

Each

No. 2—Stand only, wt. each 15 lbs. ..$3.50

BARREL PUMPS

BENNETT UNIVERSAL



Handles oil, gasoline, kerosene and alcohol. Rapid in action, pumping about 1 pint per stroke.

Threaded to fit 1¼ and 2 in. drum openings. Sliding intake pipe is adjustable for draining 15 to 60 gallon drums.

Malleable iron handle is arranged for locking.

Particularly adaptable for use in the home garage.

Each

No. 200—Pump complete, shipping wt. each 10 lbs. $8.40

(*) Not in stock; will ship from factory.

BUCKET GREASE PUMPS

WEAVER VALVELESS

A great time and labor saver in filling differentials and transmissions because it enables (1) old grease or oil to be sucked out, (2) oil to be pumped into clean gears and drawn out without disturbing lubricant in bucket, (3) fresh lubricant from bucket to be pumped into differential or transmission. Easily operated from any position. Capacity, 25 lbs. grease. Flexible metal hose reaches any opening.

Each

No. WE10—Bucket pump, shipping wt. each 22 lbs. $13.50

HIGH PRESSURE LUBRICATORS

BALCRANK FOOT OPERATED CHASSIS LUBRICATOR

Fits Either Alemite or Zerk Systems

Lubricates any chassis grease—through any bearing—on any system—in any weather—with power to spare.

Ordinary foot pressure on pedal produces up to 6000 lbs. of grease pressure at nozzle.

Foot operation frees operators' hands to handle hose which has swivel joints at both ends to easily reach difficult and practically inaccessible fittings.

Special screen eliminates foreign matter and sends pure grease into bearing. Follow plate eliminates air pockets. Barrel is easily and quickly filled.

Has exclusive one shot feature, an automatically measured and controlled shot of grease sufficient to adequately lubricate each bearing—no grease wasted.

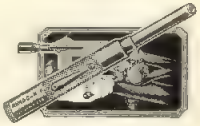
Balanced weight on large wheels increase ease of portability.

Each

No. D—Capacity 13 lbs. of grease complete with 7 ft. high pressure hose, wt. each 101 lbs. $75.00

GREASE FITTING NEEDLES

RIMAC



Designed to open up clogged or "frozen" grease fittings, particularly the troublesome ones on deep drilled Ford shackle bolts.

The sliding spring guide is self-centering. Pressing the handle jabs the spring tempered steel needle through to the bottom of the hole, clearing it for fresh grease. Also good for fittings with sticky ball checks.

Another valuable feature is a small steel forming cutter for dressing up "leaky" fittings.

Each

No. 42—5½ in. long; wt. each 4 oz... $0.75

One in a box, one dozen in a display carton.

Montague Split Bamboo Fly Rods

MOORE PUSH-PIN COMPANY

Wayne Junction Established 1900 Philadelphia, Pa.

stores and windows, and checking up their stock.

The present conditions have certainly taught us to be more careful in regards to sales and collections, and have also taught us that we must be more careful in our purchasing, keep a better stock control, and watch our overhead and expenses, even though it may hurt. These are some of the items that our competitors have shown us, and there is no question in my mind that the hardware man who will watch his business and control same with the proper amount of advertisement and personal supervision will succeed. *(L. F. Wolf, L. F. Wolf Co., Mount Clemens, Mich.)*

* * *

We have learned that there is too much installment selling.

Collections are too slow.

The average hardware man doesn't do enough advertising, and there are too many cut prices.

Too many autos in the country, an attractive price on a staple doesn't pull like it should, does not ring the cash register.

Conditions should be much better by March or April. *(L. E. Lewis, West Liberty, Iowa.)*

* * *

This business slump has taught us not to lose our heads but to try to think things through more clearly and to judge men and values as never before.

In our opinion the loose extension of credit is the greatest contributing factor to failure or loss of profits in the hardware business today. Just work harder and longer and we will all get to the turn of the road that much sooner. *(J. T. Howard, Bristol, Virginia.)*

Are You Looking for Employment?

In view of the present industrial and business conditions, Good Hardware will publish free of charge classified ads for worthy hardware men or women seeking employment. This free service is offered only to those seeking employment. The ad must be limited to 50 words. Address Good Hardware, 79 Madison Ave., New York City.

Broadcasting
Our Latest Idea In a Musical Clock

(Patent Applied for)

RADIO STYLE MUSICAL CLOCK, the very latest idea. Originated, designed and manufactured by us, the idea being to put out a high grade article,—NOT HOW CHEAP BUT HOW GOOD,—for the least money. Not only is this clock ornamental in appearance but it is useful as a timepiece and each has the added feature of playing two different tunes, well known airs such as. Mother Machree, Sweet Genevieve, Anvil Chorus, Silver Threads Among The Gold, Sing Me To Sleep, Old Kentucky Home, Swanee River, Carry Me Back To Old Virginia, Old Black Joe, Oh Promise Me, Rosary, Ramona, America, Star Spangled Banner, etc., when ordering state more than one choice, so that if we are out of stock on one selection we can give you the next nearest we have in stock. Simple and compact, the music apparatus is so arranged that by lifting the clock up, the strains of sweet music are immediately heard and when the clock is put down the music stops. This music arrangement is independent of the clock and can be wound and played whenever desired. The 30 hour clock movement is the best American manufacture.

The oxidized silver finished case is moulded of metal in shape of a radio console showing on front below clock dial, a panel with radio dials, etc. Lower part of front representing the doors is engraved with lifelike portraits in relief of Wagner and Schubert the noted composers embellished with musical instruments. Each side of case is engraved with musical notes and instruments. Case is 8 inches high and 5¼ inches wide. Weighs about 5 pounds.

We recommend this article, as all who have seen it have been enthusiastic about it and we look for large sales on it. Order a sample and see for yourself.

HAMMOND
ELECTRIC CLOCKS
LOGAN MODEL
WITH OR WITHOUT ALARM

STYLE — BEAUTY — CLASS
Moderately Priced

The Hammond all electric clock is a new kind of time piece that serves with a time-accuracy never attained by other methods. This new clock has no springs, no mechanical escapement. Instead, a small synchronous motor registers the time impulses sent to it by the electricity from the light socket. It is put into service by merely inserting the plug into any convenient outlet, setting the hands in the usual manner and starting. The same electricity that drives the clock also regulates it so that it keeps exact time. No winding, regulating or oiling is required. The current consumed is two watts; costs less than ten cents per month to operate.

Important—Hammond clocks will not work on direct current. All models are designed to operate on standard frequency in communities where the power companies regulate the frequency to furnish this free time service. Unless specified sixty style clock will be furnished.

The Logan Model—has walnut colored bakelite case, recessed, buff colored dial; brown numerals and gold finished second hand

Barometers --- Clocks --- Thermometers

of Exceptional Merit in Clever New Models

GOTHIC MODEL

Small clock of rare beauty, for it stands only 4¾ inches high and 3¼ inches wide. The dial is silvered and has etched Roman figures and highly convex crystal. Fitted with 12-day jeweled New Haven movement. Antique Mahogany case with gold strips.

2K25148 PRICE **$11.50**

MADE FOR MEN'S DESKS AND LIBRARIES

Here is a gift for men that is both useful and ornamental. Every man who sees it wants it. The combination thermometer, barometer and clock comes on a base 14 in. wide, 4⅜ in. high. The base is solid Mahogany and the case is of brass. The clock is an 8-day lever movement that tells accurate time, silently. The thermometer is an instrument of precision, being made by Taylor. The barometer is imported, of aneroid type, with double hand for showing accurately changes in barometric pressure. Predicts the weather many hours in advance.

2K25151 PRICE complete **$32.50**

FOR DESK OR BOUDOIR

This easel model, made of solid Mahogany antique finish, stands 7¾ in. high by 7¼ in. wide. Has 3½ in. silvered dial with raised numerals. Fitted with 12-day New Haven jeweled movement.

2K25146 PRICE **$25.00**

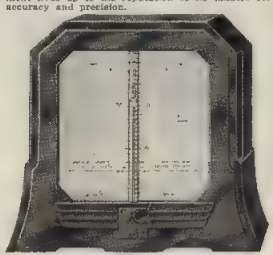
THERMO DIAL
THE NEWEST THERMOMETER

This attractive reliable instrument stands 7¼ in. high. Is made of metal, finished in antique bronze. Tells you the temperature at a glance and is as easy to read as a speedometer. Special weighted base. Welcome in every home and office.

2K25023 PRICE **$6.25**

Now a Barometer of Truly Scientific Precision at a Popular Price

There never before was a barometer like the new Weather Watch. It is the handsomest article of its kind, and possesses the absolute accuracy and scientific precision of the world's finest professional instruments. It is made by a company who are the makers of the world's finest scientific barometers, altimeters and pressure gauging equipment. This company has never before manufactured a scientific instrument to sell for less than $100. They have developed the Weather Watch only after several years of intensive research. In every way, this wonderful new instrument lives up to the reputation of its makers for accuracy and precision.



WEATHER WATCH

The Weather Watch accurately forecasts the weather 12 to 24 hours in advance. It gives you the readings on a clear vertical scale, as easy to read as a thermometer. Weather Watch is made of bronze plated chill-cast metal with dull silvered dial and readings in two colors. It stands 5⅝ inches high, is 6 inches wide and 3½ inches deep. It weighs just 40 ounces. It is a handsome adjustment on the desk of every businessexecutive and is equally at home on library table or outdoors.

As an example of how very carefully Weather Watch is made and with what precision it forecasts the weather, we can tell you that if you take Weather Watch into an elevator—as you go up each floor the reading of Weather Watch will drop noticeably! The slight difference in air pressure at the floor and at the ceiling of a room is sufficient to actuate the movement inside this barometer, and to give a different reading. There is an adjustment in the back of the case, for correcting the instrument to sea level, barometric pressure. It is calibrated to 3 inches of mercury movement as shown on scale, thus allowing high and low record readings.

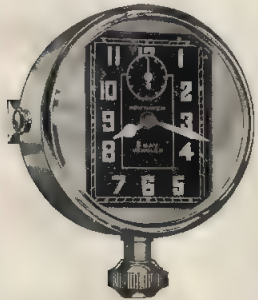
Golfers, yachtsmen, motorists, campers, fishermen—will welcome Weather Watch. Engineers, builders, contractors—all whose activities depend on the weather—need this precision barometer to forecast the weather so work and play can be planned in advance. As a gift Weather Watch is ideal. It is novel, interesting and lasting. It is designed to match the finest of interior decorations. We cannot too highly recommend Weather Watch. We present it at a very moderate price.

2K40199 PRICE **$17.75**

RADIO FANS, ATTENTION!

Here is a clock that radio fans have been waiting for—a new invention. It tells, at a glance, the correct time all over the world. This clock stands 4 inches high and 5 inches wide, has an attractive two-tone green metal front with gold nosh and dial. Tells you standard time at home and in every other important city at a glance. Very simple. Dependable DeLuxe 30 hour movement. An ideal gift for anyone who has a good radio set.

2K25018 PRICE **$6.00**



8 DAY JEWELLED AUTO CLOCK

Every auto owner will welcome this gift. This 8 day jewel auto clock is exceptionally attractive and has an accurate dependable jewelled movement. One winding lasts 8 days. The clock is stem wound, stem set, has chromium plated bezel. It has radium hands and numerals, telling time in the dark. Has second hand. Exceptionally easy to install, and once installed is something appreciated every day in the year.

7K25200 PRICE **$20.20**

OVAL RADIUM AUTO CLOCK

All you need to install this radium dial auto clock is a screw driver. The clock fastens on dashboard or over the windshield. It has a guaranteed accurate 30-hour movement with radium dial that tells time in the dark. Has dustproof case, unbreakable crystal. At this very low price, no car should be without an auto clock.

2K25201 PRICE **$4.00**

ELECTRIC CLOCKS

NEW HAVEN-WESTINGHOUSE

The Automatic Control—All New Haven-Westinghouse clocks (except the Electric Arthurn) are equipped with a "timeout" device called the automatic control that assures extreme accuracy at all times. This device accumulates slight current interruptions up to a total of three minutes and then automatically stops the clock. This device allows the user to determine for himself the degree of accuracy he wishes to establish.

In the case of a serious interruption of more than three minutes, the clock is stopped and this is indicated to the user by the stopping of the second hand. To reset the clock, the user simply sets the hands to the correct time and moves a small release lever on the dial. The clock starts and again is ready to accumulate as much as three minutes of momentary interruptions.

For example, this device would accumulate as many as sixty interruptions of say three seconds each, without signalling or stopping. This overcomes the principal objection to most electric clocks.

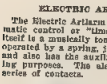
The New Haven-Westinghouse Motor—Is of the self starting, subsynchronous type. A full synchronous motor makes 3600 (60 cycles x 60 seconds) revolutions per minute. This great speed in a small mechanism of this type produces greater friction and heat with consequent shorter life. Therefore, the ideal clock motor is SUB-synchronous and the New Haven Westinghouse motor makes only 200 revolutions per minute. The motor and coil is an integral unit and is easily replaceable in all models. The motor is directly connected to the time train.

The "Jump" Second Hand—All timepieces (model numbers ending in "T") are equipped with a second hand that "jumps" or beats accurate seconds instead of the continuous rotation of the "sweep" second hand as on the other models.

The Movement—Movements are equipped with a micrata driving gear (for silence) and all pinions are hardened, cut and polished. The parts are machined and fitted to a split thousandth of an inch.

ELECTRIC ARTLARM CLOCKS

The Electric Artlarm does not contain the automatic control or "time-out" device. The alarm itself is a musically toned concealed bell which is operated by a spring, just as in the chime clocks, and also has the auxiliary wind for demonstrating purposes. The alarm is not operated by a series of contacts.



A moulded case of a pleasing mahogany shade, metal dial large-sweep second hand and a concealed musical alarm. Height 8½ in. Width at base 4⅝ in.

SNOW SHOES

NORTHLAND

Bows and frames are best quality selected white ash. Flexible enough, tough, light and holding its shape well. The cross bars are mortised in the bows and the heels are securely held together with copper rivets and burrs. No screws are used. A block is fitted in at the heel where the frame joins, strengthening the shoe and preventing twigs and other obstacles from catching there. The heels are rounded off, making it easier to back-up on the shoes. Select cowhide filling, tanned by an exclusive process, is used. Will not sag or stretch and is carefully tested after they have been strung

College Model

Well proportioned and has a turned-up toe. Especially for women, girls and boys. For persons weigh ng 125 to 170 lbs.

No. 3A—Size 12x42 in Per pair $13.68

Cruisers Model

Especially designed for cruisers, lumbermen, sportsmen, guides, forest rangers and all who use snow shoes in the woods. Made extra strong, with extra strong cowhide filling, guaranteed not to stretch or sag. For persons weighing 165 to 200 lbs.

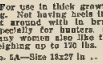
No. 4A—Size 14x48 in .Per pair $14.50

Bear Paw Model

For use in thick growths and mountain climbing. Not having heels it will be found handy to get around with in brush. Made very strong especially for hunters, trappers, surveyors, etc. Many women also like this model For persons weighing up to 150 lbs.

No. 5A—Size 18x22 in .....Per pair $14.00

SLED AND WAGON GUARDS



Can be attached to any sled. Is 6 in. high, natural finish, strongly made and easily attached by screws furnished with clamps furnished. Requires no bolts or drilling.

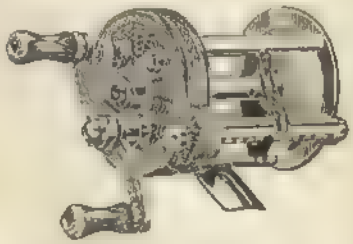
Quadruple multiplying, level winding, mechanism is of highest quality tool steel, tempered and lapped to a dimension. Anti-Back-Lash mechanism is contained within the reel, automatically thumbs spool and stops it the instant the bait strikes the water. Tension oil cup has inset made of rust proof material. Generated spiral tooth gears, steel pivots; phosphor bronze bearings, adjustable [illegible] double pyralin ivory handles.

Each

No. 1573 [illegible] capacity 7 to 330 yds. 17 lb. test [illegible] in. pillars, 2 in. plates, in leather bag, with quarter spool [illegible] of gear gearing, weight each 7½ oz. $50 00

One in a box

"PFLUEGER SUMMIT" LEVEL WINDING ANTI-BACK-LASH



Nickel Silver, Agate Jewels

Quadruple multiplying. In the level winding mechanism the double thread shaft is of selected steel, tempered and lapped to a dimension. The anti-back-lash mechanism contained within the reel, automatically thumbs spool and stops it the instant the bait strikes the water. Housing for double shaft thread is of one piece, line guide travels full width of spool; tension oil cup for adjusting end of spool, phosphor bronze bearings, steel pivots and pinion, sliding click, double pyralin amber handles.

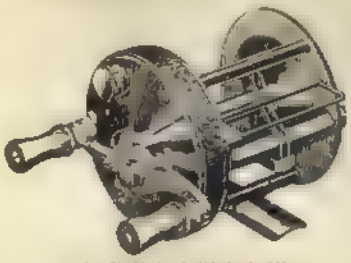
Each

No. 1993J—Capacity 60 to 210 yards 17/8 in. pillars; 2 in. plates in chamois leather bag; weight each 8¾ oz. $20 00

One in a box

FISHING REELS

SOUTH BEND, LEVEL-WINDING ANTI-BACK-LASH CASTING



Highly Polished Nickel Silver

Head cap consists of a mottled green bakelite ring between two nickel silver plates, chromium plated level winding and anti-back-lash devices, genuine Cornelian agate jeweled spool caps.

Quadruple multiplying bronze gears; carriage screw pinion, carriage screw and bushings, special tempered steel spool pinion gear.

Double white ivoroid handle

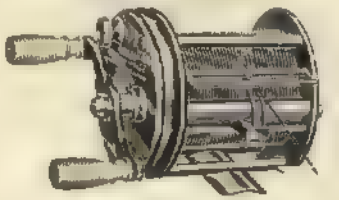
An improved, mechanically perfect combination of the original and genuine anti-back-lash feature and standard level winding device eliminates all thumbing and spooling and there is absolutely no back-lash, snarl or tangle.

Each

No. 1201—Capacity 100 yds. 18 lb. test black-oreno silk casting line, diameter of spool 1½ in.; length of pillars 1¾ in.; in leather bag, weight each 9 oz. $33 00

One in a box

"ORENO," LEVEL WINDING ANTI-BACK-LASH CASTING



Highly Silvered Finish.

Quadruple multiplying gears; jeweled spool caps, genuine phosphor bronze spool bushings, genuine bronze driving gear and carriage and carriage screw pinion. Chromium plated anti-back-lash and level-winding device, new extension type carriage with extra long bearing. In operation this reel requires no thumbing or spooling. The anti-back-lash device prevents any back-lash snarl or tangle, the level winding parts automatically wind the line smooth and even double white ivoroid handles.

Each

No. 1000A—Capacity 100 yds. 18 lb. test black oreno silk casting line, diameter of spool 1½ in., length of pillars 1⅝ in., weight each 9 oz.. $17 00

One in a box

PFLUEGER-AKRON, LEVEL WINDING

Satin Nickel Finish.

Quadruple multiplying.

A very popular light weight reel with plenty of line capacity. Level winding mechanism has double thread shaft made of selected tool steel, housing for double thread shaft is of one piece. Line guide travels full width of spool, tension oil cup; phosphor bronze front bearing; steel pivots; steel pinion; double white celluloid handles.

Each

No. 1898—Capacity 90 yards 24 lb. test line; 1⅞ in. pillars, 2 in. plates weight each 8¾ oz. . . $10 00

One in a box.

FISHING REELS

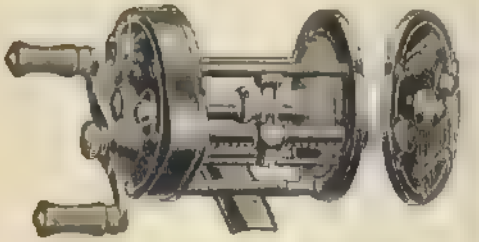
PFLUEGER LEVEL WINDING

Level Winding Mechanism—One of the most important in any level winding reel and most likely to get out of order. The double thread shaft is made of highest quality tool steel, tempered and lapped to a dimension. The half nut which traverses on the threads of the double thread shaft is made of highest quality tool steel, tempered and lapped to a dimension. These two important parts are coated with Diamonite which is non-corrosive and highly resistant to wear, work in perfect unison and produce a level winding action that cannot be equaled by any other known mechanical movement.

Anti-Back-Lash Mechanism— Contained within the reel, automatically thumbs spool and stops same the instant bait strikes the water. With the adjusting screw and dial regulator any tension desired can be secured and can be thrown off altogether, thereby making an open reel.

Tension Oil Cups—End play of spool can be adjusted to any degree desired by the angler.

SUPREME



Level Wind and Anti-Back-Lash Quadruple Multiplying

Oiling system permits every part to be properly and conveniently oiled. Pocket oiler and tube of gear grease included with reel.

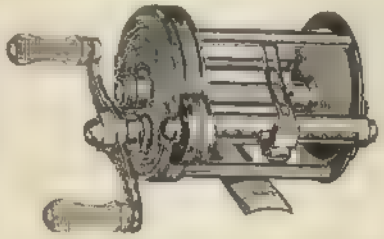
Tension oil cup has inset of rust-proof material, wears better than agate and will not break.

Generated spiral tooth gears, steel pivots, tempered and polished; phosphor bronze bearings; adjustable back sliding click; pyralin ivory handles; cork arbor spool filler included with reel.

No. 1573—Satin nickalum, a lightweight metal, strong as steel; pillar 1⅞ inches; plate 2¼ inches; line capacity 70 to 230 yards, depending on size line used... .....Each $25.00

In chamois bag, one in a box

SUMMIT



Level Wind and Anti-Back-Lash Quadruple Multiplying

One piece double thread shaft housing, permits level winding mechanism to be taken apart for cleaning without disturbing any other part.

Line guide loop travels full width of spool. Tension oil cup has genuine agate jewels.

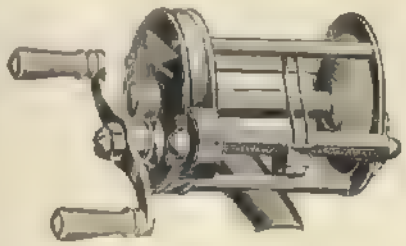
Phosphor bronze bearings, steel pivots, steel pinion, pyralin amber handles.

Guaranteed without time limit against defective material and workmanship.

No. 1993J—Fancy nickel silver, treated to prevent discoloration; jeweled; pillar 1⅞ inches; plate 2 inches; line capacity, 60 to 210 yards, depending on size of line used .....Each $10.00

In chamois bag, one in a box

AKRON



Level Wind Quadruple Multiplying

One piece double thread shaft housing, permits level winding mechanism to be taken apart for cleaning without disturbing any other part.

Line guide loop travels full width of spool.

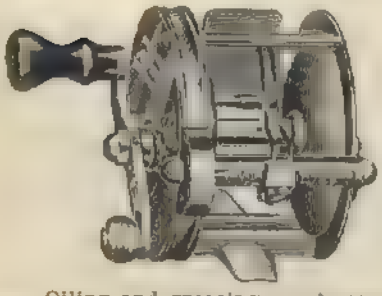
Phosphor bronze, front bearing, steel pivots, steel pinion, white celluloid handles.

Guaranteed without time limit against defective material and workmanship.

No. 1893—Satin nickel; a lightweight popular reel; pillar 1⅞ inches; plate 2 inches; line capacity, 60 to 210 yards, depending on size of line used.....Each $6.00

In anti-tarnish paper, one in a box

ALPINE



Level Wind Triple Multiplying

Designed for the taking of light and medium weight salt water game fish, including Striped Bass, Channel Bass, Kingfish, Jackfish, Bluefish, Weakfish, Sea Trout, Mackerel, Black Bass, Muskellunge, Northern Pike, Pickerel Lake Trout and Salmon.

Oiling and greasing points can be reached without taking reel apart.

Generated spiral tooth bronze gears; steel pivots, highly polished, end bearing; phosphor bronze bushed, extra long bearing; adjustable back sliding click; fancy crank, balanced; hard rubber handle; leather thumb drag; patented adjustable tension oil cups.

No. 2637—Satin nickel; pillar 2 inches; plate 3¼ inches; line capacity 140 to 335 yards, depending on size of line used.....Each $10.00

In silver tissue and anti-tarnish paper, one in a box

OCEANIC

Double Multiplying

A strictly high-grade free spool, deep sea and surf-casting reel The throw in and out of gear mechanism is controlled by a shifting lever. By throwing lever up gears are firmly locked in mesh, by throwing lever down gears are held firmly out of mesh thereby avoiding stripping. End play of spool can be taken up with the adjustable tension oil cups.

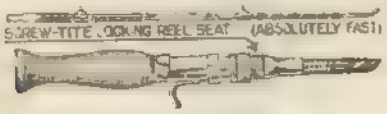
Generated spiral tooth gears; hard rubber plates, reverse metal bound; phosphor bronze bushed, for bearings; adjustable back sliding click; steel pivots, highly polished, end bearing; fancy crank, balanced; bakelite handle.

No. 2816—Polished nickel; pillar 1⅞ inches; plate 3 inches; line capacity 13[illegible] to 385 yards, depending on size of line used... .....Each $7.50

In silver tissue and anti-tarnish paper, one in a box

FISHING RODS

SPLIT BAMBOO BAIT CASTING RODS



Heddon "Reliable," Two Piece

Exceptional value. Has "Hold-Tite" locking reel seat which screws down, holding reel absolutely tight. Good quality "brown-tone" bamboo. Tournament pattern shaped grip, suberac (composition cork) with tapered metal winding check. Trigger on reel seat. Nickel silver ferrules. Guides and tip-top Crystal-agate. Bright green silk windings. Medium weight.

No. 1½—Lengths, 4, 4½ and 5 feet ..Each $5.00

One in a cloth bag

MILK BOTTLE CRATES

AMERICAN "BOUND-O-STEEL"

American crates are of new and improved construction.

The separating wires are suspended inside the crate from a heavy frame wire. This forms a self contained grid, supported by the inside corner braces. All separating wires are electrically welded to prevent spreading. Grids are interlocked with special steel bent which prevents sagging.

There are no wires to pull through waterlogged soft wood.

Wood parts are cut from selected Tupelo gum, which is a close grained, tough and durable wood unusually resistant to heat and moisture.

American BOUND-O STEEL crates are equipped with full length corner braces inside and out. Also, with all around bottom runners of heavy gage galvanized channel iron. Outside corner irons over-lap the top to prevent wood from shivering.
